40 adherence to laws and regulations governing the rights of incarcerated  
41 individuals. The commission shall not disclose its schedule for

46 chapter 322 of the laws of 2021, is amended and two new subdivisions 5  
47 and 6 are added to read as follows:

48 4. In any case where any rule or regulation promulgated by the commis-

50 or the laws relating to the construction, management and affairs of any  
51 correctional facility or the care, treatment and discipline of its  
52 incarcerated individuals, are being or are about to be violated, the  
53 commission shall immediately notify the person in charge or control of  
54 the facility of such violation, recommend remedial action, and direct  
55 such person to comply with the rule, regulation or law, as the case may  
56 be. The commission shall also immediately notify the governor, the

1 chair and members of the assembly standing committee on correction, and  
2 the chair and members of the senate standing committee on crime victims,  
3 crime, and correction, of the alleged or documented violation and the  
4 remedial action that the commission recommends. Upon the failure of such  
5 person to comply with the rule, regulation or law the commission [~~may~~]  
6 shall promptly apply to the supreme court for an order directed to such  
7 person requiring compliance with such rule, regulation or law; provided,  
8 however, that if the commission decides to close a facility pursuant to  
9 section forty-five of this article, the commission shall not be required  
10 to apply for an order. Upon such application the court [~~may~~] shall issue  
11 such order as may be just and a failure to comply with the order of the  
12 court shall be a contempt of court and punishable as such.

13 5. (a) In any case where there is a reasonably foreseeable risk that  
14 conditions at a correctional facility might violate the constitutional  
15 rights of people incarcerated there, cause imminent harm to any incar-  
16 cerated person, or cause the imminent death of any incarcerated person,  
17 the commission shall be required to order the closure of such correc-  
18 tional facility pursuant to subdivision eight of section forty-five of  
19 this article. Such correctional facility shall remain closed permanently  
20 or until the commission has determined that such correctional facility  
21 can resume operations in compliance with all regulations promulgated by  
22 the commission and without posing any reasonably foreseeable harm to any  
23 person incarcerated there. The commission shall not need to apply for a  
24 court order pursuant to subdivision four of this section before deciding  
25 to close a correctional facility. Failure to take action pursuant to  
26 this subdivision or subdivision four of this section shall constitute  
27 neglect of a ministerial matter. For the purposes of this subdivision,  
28 "ministerial matter" shall have the same meaning as such term is defined  
29 in paragraph (d) of subdivision one of section seventy-three of the  
30 public officers law.

31 (b) Upon a recommendation made by the governor or the attorney gener-  
32 al, or upon a resolution passed in the assembly or senate, or upon the  
33 request of a considerable number of people incarcerated in any correc-  
34 tional facility or particular wing, annex, or housing unit thereof,  
35 asking the commission to inspect any correctional facility and recommend  
36 remedial actions or close a correctional facility pursuant to powers  
37 granted in section forty-five of this article, the commission shall  
38 discuss such matter at the next stated meeting to occur after ten busi-  
39 ness days, provided that such meeting occurs within forty-five days of  
40 such request. The commission shall inspect the correctional facility or  
41 facilities in question, collect any relevant documents, and conduct any  
42 interviews of incarcerated people, staff, medical providers, and super-  
43 visors at such correctional facility prior to such meeting and make the  
44 result of its inspection and analysis public online before its next  
45 stated meeting. Such analysis shall, at a minimum, include a description  
46 of the factors contained in subdivision three of section forty-five of  
47 this article. At such meeting, the commission shall determine whether,  
48 based on its inspection and analysis, the correctional facility lacks  
49 compliance with any law or regulation promulgated by the commission, and  
50 whether such non-compliance poses an imminent harm to any incarcerated  
51 person in the custody of that correctional facility. At such stated  
52 meeting the commission shall state on the record the reasoning underly-  
53 ing its determination to take no action, recommend remedial action,  
54 apply to the supreme court for an order, or order the closure of a  
55 facility.

6. (a) Twice per year, at intervals separated by approximately six months, the commission shall publish a report containing the results of its annual inspections of correctional facilities in a prominent place on its website, and shall deliver a copy of such report to the governor, the temporary president of the senate, the speaker of the assembly, and the attorney general. Such reports shall contain, without limitation, detailed information about any violations of regulations or applicable laws at each correctional facility inspected, notable excerpts from interviews with incarcerated people, staff, medical providers, and supervisors at each facility, descriptions of deaths or serious injuries that have occurred at any correctional facility that was inspected, copies of recommendations or directives that have been issued by the commission to any correctional facility during the period of time covered by the report, and copies of any correctional facility's response to such recommendations or directives.

(b) As soon as the commission completes an investigation of a death or serious injury suffered by an incarcerated person in the custody of a correctional facility, the commission shall publish on its website a report containing the result of such investigation, including without limitation the complete result of the commission's investigation of such incident, true and correct copies of records that the commission has received from such facility in connection with its investigation of such incident, a determination as to whether conditions in the correctional facility or the quality of medical care or supervision that the incarcerated person received were contributing factors or related to the cause of death, and a list of regulations or applicable laws that may have been violated in proximate relation to such incident. The commission shall also cause such report to be delivered to the next-of-kin or authorized legal representative of such incarcerated person. Such reports shall not be redacted except as otherwise required to protect confidential medical records and behavioral health records in accordance with state and federal laws, rules, and regulations.

(c) The commission may publish information contained in its reports, data on deaths or serious injuries of incarcerated people at correctional facilities, and information on uncured violations of laws and regulations at any correctional facility in a searchable database format on its website if the commission determines that such a format will facilitate greater public access to such information.

(d) If, in the course of the commission's investigations or inspections, the commission finds evidence of a pattern of malfeasance, nonfeasance, abuse, or negligence on the part of staff or management at any correctional facility, the commission shall immediately report such evidence to the attorney general and the district attorney for the county in which such correctional facility is located, and such evidence shall be published within the reports issued by the commission pursuant to paragraph (a) of this subdivision.
