## IN SENATE

May 12, 2022

Introduced by Sen. PARKER -- read twice and ordered printed, and when printed to be committed to the Committee on Education

AN ACT to amend the education law, in relation to providing secondary school pupils and adults in career education programs access to programs/courses sufficient to comprise a career major in electric vehicle maintenance and repair

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. The education law is amended by adding a new section 4602-a  
2 to read as follows:

3 § 4602-a. Career major in electric vehicle maintenance and repair. 1.  
4 For purposes of this section:

5 (a) "career major" shall mean a number of courses in a career educa-  
6 tion program which together provide a student with greater technical  
7 skill and a strong academic core and are primarily designed for those  
8 students who are not initially college bound and shall provide them with  
9 alternatives to immediate entrance into a four-year university or  
10 college after high school graduation. A career major shall be linked to  
11 postsecondary options and shall prepare students to pursue either a  
12 degree or certification from a postsecondary institution, an industry-  
13 based training or certification, an apprenticeship, the military, or  
14 immediate entrance into a career field, pursuant to policies adopted by  
15 the commissioner; and

16 (b) "electric vehicle" shall mean an automotive-type vehicle for  
17 on-road use, such as passenger automobiles, buses, trucks, vans, neigh-  
18 borhood electric vehicles, and electric motorcycles, powered by an elec-  
19 tric motor that draws current from a rechargeable storage battery, fuel  
20 cell, photovoltaic array, or other source of electric current which is  
21 charged by being plugged into an electrical source. For the purposes of  
22 this section, off-road, self-propelled electric vehicles, such as indus-  
23 trial trucks, hoists, lifts, transports, golf carts, airline ground  
24 support equipment, tractors, and boats, are not included in the defi-  
25 nition of "electric vehicle".

EXPLANATION--Matter in italics (underscored) is new; matter in brackets  
[-] is old law to be omitted.

LBD15379-01-2

1 2. The board of education of each school district shall develop career  
2 major programs of study in electric vehicle maintenance and repair,  
3 available to all secondary school pupils and adults in career education  
4 programs, in accordance with a phase-in schedule as determined by  
5 reports from the working group established under subdivision three of  
6 this section. Every career education school in the state shall adminis-  
7 ter a number of classes necessary to meet the requirements of a career  
8 major and provide instruction designed to educate students on electric  
9 vehicle maintenance and repair. These courses shall also be offered to  
10 each high school student enrolled in a school district that offers a  
11 career major program. The courses contained in the electric vehicle  
12 maintenance and repair career major shall be defined and administered by  
13 the board of education of each school district after consultation with  
14 the working group, as provided in subdivision three of this section.

15 3. (a) No later than sixty days following the effective date of this  
16 section, the public service commission shall establish the working group  
17 on electric vehicle career education achievement ("the working group").  
18 The working group, no later than the date specified by the public  
19 service commission and on an annual basis thereafter, shall meet and  
20 then provide the commissioner and the board of education of each school  
21 district with recommendations necessary to implement the electric vehi-  
22 cle maintenance and repair career major. The working group shall provide  
23 guidance, advice, and make recommendations to the commissioner on  
24 matters pertaining to education policy, performance and innovation in  
25 electric vehicle technology. The commissioner shall promulgate such  
26 recommendations of the working group as may be necessary to establish  
27 the curriculum, assessments and any other criteria that students must  
28 achieve to earn a career major pursuant to this section.

29 (b) The public service commission shall compose the working group and  
30 may consult with the commissioner for recommendations. The working group  
31 shall consist of eight members appointed as follows:

- 32 (i) two members appointed from the public service commission;  
33 (ii) two members appointed from the New York state energy research and  
34 development authority;  
35 (iii) two members from the department;  
36 (iv) one member with an expertise in electric vehicle engineering who  
37 is located within the state; and  
38 (v) one member appointed from a state-based environmental organiza-  
39 tion.

40 § 2. This act shall take effect immediately.
