(A) that participant shall be charged with a contribution deficiency consisting of such unpaid amounts, together with interest thereon, compounded annually; and

(B) such interest on each amount of undeducted contributions shall accrue from the end of the payroll period for which such amount would have been deducted from compensation if such participant had been a participant at the beginning of that payroll period and such deductions had been required for such payroll period until such amount is paid to the retirement system; and

(C) (1) interest on each such amount included in such participant's contribution deficiency pursuant to this subparagraph shall be calculated as if such additional member contributions never had been paid by such participant, and such interest shall accrue from the end of the payroll period to which an amount of such additional member contribution is attributable, compounded annually, until such amount is paid to the retirement system;

(ii) the amount of any unpaid balance of a loan of their additional member contributions pursuant to paragraph eight of this subdivision, including accrued interest on such loan.

6. Subject to the provisions of paragraph five of this subdivision, where a participant has not paid in full any contribution deficiency chargeable to such participant pursuant to paragraph three of this subdivision, and a benefit, other than a refund of a member's accumulated deductions or a refund of additional member contributions pursuant to paragraph seven of this subdivision, becomes payable by the retirement system to the participant or to their designated beneficiary or estate, the actuarial equivalent of any such unpaid amount shall be deducted from the benefit otherwise payable.

7. (i) All additional member contributions required by this subdivision, and any interest thereon, which are received by the retirement system shall be paid into its contingent reserve fund and shall be the property of the retirement system. Such additional member contributions, and any interest thereon, shall not for any purpose be deemed to be member contributions or accumulated deductions of a member of the retirement system under section 13-125 or section 13-162 of the administrative code while they are a participant in the twenty-two and one-half year improved benefit retirement program or otherwise.

(ii) Should a participant in the twenty-two and one-half year improved benefit retirement program, who has rendered less than fifteen years of credited service cease to hold a position as an EMT member for any reason whatsoever, such participant's accumulated additional member contributions made pursuant to this subdivision, together with any interest thereon paid to the retirement system, which remain credited to such participant's account may be withdrawn by such participant pursuant to procedures promulgated in regulations of the board of trustees of the retirement system, together with interest thereon at the rate of interest required by law to be used to credit interest on the accumulated deductions of retirement system members compounded annually.

(iii) Notwithstanding any other provision of law to the contrary, (A) no person shall be permitted to withdraw from the retirement system any additional member contributions paid pursuant to this subdivision or any interest paid thereon, except pursuant to and in accordance with the preceding subparagraphs of this paragraph; and (B) no person, while they are a participant in the twenty-two and one-half year improved benefit retirement program, shall be permitted to withdraw any such additional member contributions or any interest paid thereon pursuant to any of the preceding subparagraphs of this paragraph or otherwise.

8. A participant in the twenty-two and one-half year improved benefit retirement program shall be permitted to borrow from their additional member contributions, including any interest paid thereon, which are credited to the additional contributions account established for such participant in the contingent reserve fund of the retirement system. The borrowing from such additional member contributions pursuant to this paragraph shall be governed by the same rights, privileges, obligations and procedures set forth in section six hundred thirteen-b of this chapter which govern the borrowing by members subject to article fifteen of this chapter of member contributions made pursuant to section six

hundred thirteen of this chapter. The board of trustees of the retirement system may, consistent with the provisions of this subdivision, promulgate regulations governing the borrowing of such additional member contributions.

9. Wherever a person has an unpaid balance of a loan of such person's additional member contributions pursuant to paragraph eight of this subdivision at the time such person becomes entitled to a refund of their additional member contributions pursuant to subparagraph (ii) of paragraph seven of this subdivision, the amount of such unpaid loan balance, including accrued interest, shall be deemed to have been returned to such member, and the refund of such additional contributions shall be the net amount of such contributions, together with interest thereon in accordance with the provisions of such subparagraph.

10. Notwithstanding any other provision of law to the contrary, the provisions of section one hundred thirty-eight-b of this chapter shall not be applicable to the additional member contributions which are required by this subdivision.

11. Notwithstanding any other provision of law to the contrary, the additional member contributions which are required by this subdivision shall not be reduced under any program for increased-take-home-pay.

e. 9. Subject to the provisions of paragraphs six and seven of this subdivision, where a participant has not paid in full any contribution deficiency chargeable to such participant pursuant to paragraphs four and five of this subdivision, and a benefit, other than a refund of member contributions pursuant to section six hundred thirteen of this article or a refund of additional member contributions pursuant to

subparagraph (ii) of paragraph ten of this subdivision, becomes payable under this article to the participant or to their designated beneficiary or estate, the actuarial equivalent of any such unpaid amount shall be deducted from the benefit otherwise payable.

10. (i) Such additional member contributions, and any interest thereon, shall be paid into the contingent reserve fund of the retirement system of which the participant is a member and shall not for any purpose be deemed to be member contributions or accumulated contributions of a member under section six hundred thirteen of this article or otherwise while they are a participant in the twenty-two and one-half year retirement program or otherwise.

(ii) Should a participant in the twenty-two and one-half year retirement program who has rendered less than fifteen years of credited service cease to hold a position as an EMT member for any reason whatsoever, such participant's accumulated additional member contributions made pursuant to this subdivision, together with any interest thereon paid to the retirement system, may be withdrawn by such participant pursuant to procedures promulgated in regulations of the board of trustees of the retirement system, together with interest thereon at the rate of five percent per annum, compounded annually.

(iii) Notwithstanding any other provision of law to the contrary, (A) no person shall be permitted to withdraw from the retirement system any additional member contributions paid pursuant to this subdivision or any interest paid thereon, except pursuant to and in accordance with the preceding subparagraphs of this paragraph; and (B) no person, while they are a participant in the twenty-two and one-half year retirement program, shall be permitted to withdraw any such additional member contributions or any interest paid thereon pursuant to any of the preceding subparagraphs of this paragraph or otherwise.

11. A participant in the twenty-two and one-half year retirement program shall be permitted to borrow from their additional member contributions, including any interest paid thereon, which are credited to the additional contributions account established for such participant in the contingent reserve fund of the retirement system. The borrowing from such additional member contributions pursuant to this paragraph shall be governed by the rights, privileges, obligations and procedures set forth in section six hundred thirteen-b of this article which govern the borrowing of member contributions made pursuant to section six hundred thirteen of this article. The board of trustees of the retirement system may, consistent with the provisions of this subdivision and the provisions of section six hundred thirteen-b of this article as made applicable to this subdivision, promulgate regulations governing the borrowing of such additional member contributions.

12. Whenever a person has an unpaid balance of a loan or such person's additional member contributions pursuant to paragraph eleven of this subdivision at the time they become entitled to a refund of their additional member contributions pursuant to subparagraph (ii) of paragraph ten of this subdivision, the amount of such unpaid loan balance, including accrued interest shall be deemed to have been returned to such member, and the refund of such additional contributions shall be the net amount of such contribution, together with interest thereon in accordance with the provisions of such subparagraph (ii).

CENSUS DATA: The estimates presented herein are based on preliminary census data collected as of June 30, 2023. The census data for the emergency medical technicians assumed to elect an EMT 22.5-Year Plan is summarized below.

	NYCERS
Active Members	
- Number Count:	3,657
- Average Age:	35.6
- Average Service:	8.6
- Average Salary:	71,600

IMPACT ON MEMBER BENEFITS AND CONTRIBUTIONS: The proposed legislation would provide a service retirement benefit equal to

o 50% of Final Average Salary (FAS) for the first 22.5 years of creditable service as an EMT member,

o plus 2.0% of Final Salary for each additional year of creditable service as an EMT member exceeding 22.5 years to a maximum of 5 years.

Once a member in the EMT 22.5-Year Plan attains 22.5 years of creditable service as an EMT member, he or she would no longer be eligible to retire under his or her respective basic plan.

The vested benefit under the EMT 22.5-Year Plans is equal to 2.0% of FAS for each year of creditable service as an EMT member.

The retirement benefits provided by the EMT 22.5-Year Plan would not be subject to cost-of-living adjustments (COLA).

Plan participants would be required to pay Additional Member Contributions (AMC) equal to 6.5% of compensation for all service on and after the starting date of the Plan until the later of the one-year anniversary of the effective date of the Plan or 27.5 years of credited service as an EMT member.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of NYCERS. In addition:

o The rates of retirement for the EMT 22.5-Year Plans were assigned based on the members' eligibility to elect or opt out of the plan. The EMT 22.5-Year Plan is optional for current emergency medical technicians. The EMT 22.5-Year Plan is mandatory for future emergency medical technicians.

o New entrants were assumed to replace exiting members so that total payroll for emergency medical technicians increases by 3% each year. New entrant demographics were developed based on data for recent new hires and actuarial judgement. Future members will be mandated into the EMT 22.5-Year plan.

o For purposes of this Fiscal Note, creditable service as an EMT member was assumed to include non-EMT service, due to insufficient data.

To determine the impact of the elective nature of the proposed legislation, a subgroup of EMT members was developed based on who is assumed to benefit actuarially by comparing the net present value of future employer costs of each member's benefit under their current plan and under the applicable EMT 22.5-Year Plan.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the data, actuarial assumptions, methods, and models used, demographics of the impacted population, and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits). This Fiscal Note does not reflect any chapter laws that may have been enacted during the current legislative session.

STATEMENT OF ACTUARIAL OPINION: Marek Tyszkiewicz and Gregory Zelikovsky are members of the Society of Actuaries and the American Academy of Actuaries. We are members of NYCERS but do not believe it impairs our objectivity and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. To the best of our knowledge, the results contained herein have been prepared in accordance with generally accepted actuarial principles and procedures and with the Actuarial Standards of Practice issued by the Actuarial Standards Board.
