AN ACT relating to large capital projects to be financed in whole or in part with public funds and the disclosure of such projects

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Legislative findings. The legislature finds that there are  
2 in the city of New York many large capital projects to be financed in  
3 whole or in part with public funds or to be supported by tax and other  
4 public incentives and which are crucial to the economic and cultural  
5 interests of such city and the state of New York as a whole, and which  
6 are at some stage of proposal, planning or implementation. The legisla-  
7 ture further finds that it is important that a full disclosure be made  
8 of the details of such projects, their projected costs to the city and  
9 state and to public benefit corporations, the projected benefits, the  
10 reasons why some of them have been delayed and why some of the proposals  
11 have been modified. Accordingly, it is critical that the New York state  
12 urban development corporation, also known as the Empire State Develop-  
13 ment Corporation, provide a prompt report to the legislature on such  
14 projects so the legislature may provide the necessary policy determi-  
15 nations and establish appropriate priorities so that necessary projects  
16 can proceed.

17 § 2. As used in this act, the following terms shall have the following  
18 meanings:

19 1. The term "corporation" shall mean the New York state urban develop-  
20 ment corporation established by chapter 174 of the laws of 1968.

21 2. The term "chair" shall mean the chairman of the board of directors  
22 of the corporation.

23 3. The term "projects" shall mean all development, redevelopment,  
24 construction, repair, and refurbishment projects within the city of New

5 as follows:

7 located on the West side of midtown Manhattan including, without limita-  
8 tion, projects named or sometimes referred to as follows: Javits Conven-
