3321--A

2023-2024 Regular Sessions

## IN ASSEMBLY

February 2, 2023

Introduced by M. of A. JOYNER -- read once and referred to the Committee on Labor -- committee discharged, bill amended, ordered reprinted as amended and recommitted to said committee

AN ACT to amend the labor law, in relation to regulating the temperature of all indoor and outdoor worksites

## The People of the State of New York, represented in Senate and Assembly, do enact as follows:

## 1 Section 1. This act shall be known and may be cited as the "temper-2 ature extreme mitigation program (TEMP) act".

3 § 2. Legislative findings and intent. The legislature hereby finds and 4 declares that New Yorkers, working both in outdoor and indoor sites, are exposed to extreme temperatures due to climate change. This involves 5 both skyrocketing heat in the summer and freezing cold in the winter. 6 7 Every year, New York city has high numbers of heat-related emergency 8 department visits, hospital admissions, and deaths. According to the New 9 York City Office of the Mayor, each year there are an estimated 450 10 heat-related ED visits, 150 heat-related hospital admissions, 10 heatstroke deaths, and 350 heat-exacerbated deaths, caused by heat worsening 11 12 existing chronic conditions.

Further, cold stress injuries have proven to be a concern for New York's workers. In 2018 in the United States, there were 2,890 cases of ice, sleet, and snow injuries; 14% of those were in the state of New York (BLS). In 2018 in New York state, 50 injuries were related to exposure to environmental cold. All 50 of those injuries were cases involving 31 or more days of missed work (BLS).

19 The legislature hereby finds and declares that the government is obli-20 gated to ensure that employers provide safe conditions for their employ-21 ees.

22 § 3. The labor law is amended by adding a new article 20-D to read as 23 follows:

EXPLANATION--Matter in <u>italics</u> (underscored) is new; matter in brackets [-] is old law to be omitted.

LBD04582-06-3

1	ARTICLE 20-D
2	TEMPERATURE REGULATION BY EMPLOYERS
3	Section 742. Scope.
4	743. Definitions.
5	744. Temperature protection standards.
б	745. Education and training.
7	746. Enforcement.
8	§ 742. Scope. The following industries will be held to the standards
9	in this article:
10	1. Agriculture;
11	2. Construction;
12	3. Landscaping;
13	4. Commercial shipping;
14	5. Food service; and
15	6. Warehousing.
16	§ 743. Definitions. For the purposes of this article, the following
17	terms shall have the following meanings:
18 19	1. "Employee" means any person providing labor or services within the scope of this article for remuneration for a private entity or business
19 20	within the state, without regard to an individual's immigration status,
20	and shall include, but not be limited to, part-time workers, inde-
22	pendent contractors, day laborers, farmworkers and other temporary
23	and seasonal workers. The term shall also include individuals working
24	for staffing agencies, contractors or subcontractors on behalf of the
25	employer at any individual worksite, as well as any individual deliv-
26	ering goods or transporting people at, to or from the worksite on
27	behalf of the employer, regardless of whether delivery or transport
28	is conducted by an individual or entity that would otherwise be deemed
29	an employer under this article, or any person holding a position by
30	appointment or employment in the service of a public employer within the
31	scope of this article.
32	2. "Employer" means any individual, partnership, association, corpo-
33	ration, limited liability company, business trust, legal representative,
34	public entity, or any organized group acting as employer within the
35	scope of this article.
36	3. "Indoor worksite" means any enclosed work vehicles and any space
37 38	between a floor and a ceiling bound on all sides by walls. A wall includes any door, window, retractable divider, garage door, or other
30 39	
40	closed.
41	4. "Outdoor worksite" means all employers with employees performing
42	work in an outdoor environment. The term outdoor worksite does not apply
43	to incidental exposure, which exists when an employee is required to
44	perform a work activity outdoors for not longer than fifteen minutes in
45	any sixty-minute period.
46	5. "Outdoor temperature stress threshold" means a heat stress thresh-
47	old of eighty or more degrees Fahrenheit and a cold threshold of sixty
48	<u>or below degrees Fahrenheit.</u>
49	6. "Indoor temperature stress threshold" means a heat stress threshold
50	of eighty or more degrees Fahrenheit and a cold threshold of sixty or
51	below degrees Fahrenheit. In cases of offices, schools, or other indoor
52	temperature regulated environments, the indoor temperature shall fall
53	between sixty-eight point five and seventy-five degrees when the outdoor
54	temperature is below fifty-five degrees, and when the outdoor temper-
55 56	ature is above eighty-five degrees, the indoor temperature shall fall

56 between seventy-five and eighty point five degrees.

A. 3321--A

3

1 2	7. "Heat illness" means a serious medical condition resulting from the body's inability to cope with a particular heat load, and includes, but
3	is not limited to, heat cramps, heat exhaustion, heat syncope, and heat
3 4	
	<u>stroke.</u> <u>8. "Cold illness" means a serious medical condition resulting from the</u>
5	
6	body's inability to cope with cold temperatures.
7	9. "Personal protective equipment" or "PPE" means the necessary
8	protective equipment, gear, uniforms, and clothing, to withstand temper-
9	atures at or exceeding the stress thresholds.
10	§ 744. Temperature protection standards. 1. Heat-specific standards.
11	The employer shall fulfill the following requirements when employees are
12	in an outdoor or indoor worksite and experiencing conditions at or
13	exceeding a heat stress threshold of eighty or more degrees Fahrenheit:
14	(a) Access to hydration. The employer shall provide access to one
15	quart of water per hour per employee at no cost to the employee and such
16	access shall be as close to the worksite as possible.
17	(b) Rest. The employer shall offer preventative breaks at the duration
18	and frequency of ten minutes in the shade for every two hours of outdoor
19	work and ten minutes in a cooler breakroom for indoor workers. The
20	breakroom temperature shall fall between seventy-five and eighty point
21	five degrees when the outdoor temperature is above eighty-five degrees.
22	<u>Preventative breaks shall be paid.</u>
23	(c) Medical monitoring. Employers shall closely monitor temperatures
24	and implement their workplace heat stress plan. If an employee exhibits
25	signs or reports symptoms of heat illness while taking a preventative
26	cool-down rest, during a preventative cool-down rest period, or at any
27	other time, the employer shall provide appropriate first aid or emergen-
28	<u>cy response.</u>
29	(d) Access to shade. (i) Shade shall be made available when the
30	temperature exceeds eighty degrees Fahrenheit and shall be as close to
31	the worksite as possible. When the outdoor temperature in the work area
32	exceeds eighty degrees Fahrenheit, the employer shall have and maintain
33	one or more areas with shade at all times while employees are present
33 34	one or more areas with shade at all times while employees are present that are either open to the air or provided with ventilation or cooling.
33 34 35	one or more areas with shade at all times while employees are present that are either open to the air or provided with ventilation or cooling. The amount of shade present shall be at least enough to accommodate the
33 34 35 36	one or more areas with shade at all times while employees are present that are either open to the air or provided with ventilation or cooling. The amount of shade present shall be at least enough to accommodate the number of employees on recovery or rest periods, so that they can sit in
33 34 35 36 37	one or more areas with shade at all times while employees are present that are either open to the air or provided with ventilation or cooling. The amount of shade present shall be at least enough to accommodate the number of employees on recovery or rest periods, so that they can sit in a normal posture fully in the shade with at least four square feet per
33 34 35 36 37 38	one or more areas with shade at all times while employees are present that are either open to the air or provided with ventilation or cooling. The amount of shade present shall be at least enough to accommodate the number of employees on recovery or rest periods, so that they can sit in a normal posture fully in the shade with at least four square feet per resting employee. The shade shall be located as close as practicable to
33 34 35 36 37	one or more areas with shade at all times while employees are present that are either open to the air or provided with ventilation or cooling. The amount of shade present shall be at least enough to accommodate the number of employees on recovery or rest periods, so that they can sit in a normal posture fully in the shade with at least four square feet per resting employee. The shade shall be located as close as practicable to the areas where employees are working. Subject to the same specifica-
33 34 35 36 37 38	one or more areas with shade at all times while employees are present that are either open to the air or provided with ventilation or cooling. The amount of shade present shall be at least enough to accommodate the number of employees on recovery or rest periods, so that they can sit in a normal posture fully in the shade with at least four square feet per resting employee. The shade shall be located as close as practicable to the areas where employees are working. Subject to the same specifica- tions, the amount of shade present during meal periods shall be at least
33 34 35 36 37 38 39 40 41	one or more areas with shade at all times while employees are present that are either open to the air or provided with ventilation or cooling. The amount of shade present shall be at least enough to accommodate the number of employees on recovery or rest periods, so that they can sit in a normal posture fully in the shade with at least four square feet per resting employee. The shade shall be located as close as practicable to the areas where employees are working. Subject to the same specifica- tions, the amount of shade present during meal periods shall be at least enough to accommodate the number of employees on the meal period who
33 34 35 36 37 38 39 40 41 42	one or more areas with shade at all times while employees are present that are either open to the air or provided with ventilation or cooling. The amount of shade present shall be at least enough to accommodate the number of employees on recovery or rest periods, so that they can sit in a normal posture fully in the shade with at least four square feet per resting employee. The shade shall be located as close as practicable to the areas where employees are working. Subject to the same specifica- tions, the amount of shade present during meal periods shall be at least enough to accommodate the number of employees on the meal period who remain onsite.
33 34 35 36 37 38 39 40 41 42 43	one or more areas with shade at all times while employees are present that are either open to the air or provided with ventilation or cooling. The shade shall be located as close as practicable to the areas where employees are working. Subject to the same specifica- tions, the amount of shade present during meal periods shall be at least enough to accommodate the number of employees on the meal period who remain onsite. (ii) Shade shall be available when the temperature does not exceed eighty degrees Fahrenheit. When the outdoor temperature in the work area does not exceed eighty degrees Fahrenheit employers shall either provide shade pursuant to subparagraph (i) of this paragraph or provide timely access to shade upon an employee's request. (iii) Employees shall be allowed and encouraged to take a preventative cool-down rest in the shade when they feel the need to do so to protect
33 34 35 36 37 38 40 41 42 43 44 45 46 47 48 49 50	one or more areas with shade at all times while employees are present that are either open to the air or provided with ventilation or cooling. The amount of shade present shall be at least enough to accommodate the number of employees on recovery or rest periods, so that they can sit in a normal posture fully in the shade with at least four square feet per resting employee. The shade shall be located as close as practicable to the areas where employees are working. Subject to the same specifica- tions, the amount of shade present during meal periods shall be at least enough to accommodate the number of employees on the meal period who remain onsite. (ii) Shade shall be available when the temperature does not exceed eighty degrees Fahrenheit. When the outdoor temperature in the work area does not exceed eighty degrees Fahrenheit employers shall either provide shade pursuant to subparagraph (i) of this paragraph or provide timely access to shade upon an employee's request. (iii) Employees shall be allowed and encouraged to take a preventative cool-down rest in the shade when they feel the need to do so to protect themselves from overheating. Such access to shade shall be permitted at
33 34 35 36 37 38 40 412 43 445 46 47 489 50 51	one or more areas with shade at all times while employees are present that are either open to the air or provided with ventilation or cooling. The amount of shade present shall be at least enough to accommodate the number of employees on recovery or rest periods, so that they can sit in a normal posture fully in the shade with at least four square feet per resting employee. The shade shall be located as close as practicable to the areas where employees are working. Subject to the same specifica- tions, the amount of shade present during meal periods shall be at least enough to accommodate the number of employees on the meal period who remain onsite. (ii) Shade shall be available when the temperature does not exceed eighty degrees Fahrenheit. When the outdoor temperature in the work area does not exceed eighty degrees Fahrenheit employers shall either provide shade pursuant to subparagraph (i) of this paragraph or provide timely access to shade upon an employee's request. (iii) Employees shall be allowed and encouraged to take a preventative cool-down rest in the shade when they feel the need to do so to protect themselves from overheating. Such access to shade shall be permitted at all times. An individual employee who takes a preventative cool-down
33 34 35 36 37 39 41 42 43 45 46 47 489 51 52	one or more areas with shade at all times while employees are present that are either open to the air or provided with ventilation or cooling. The amount of shade present shall be at least enough to accommodate the number of employees on recovery or rest periods, so that they can sit in a normal posture fully in the shade with at least four square feet per resting employee. The shade shall be located as close as practicable to the areas where employees are working. Subject to the same specifica- tions, the amount of shade present during meal periods shall be at least enough to accommodate the number of employees on the meal period who remain onsite. (ii) Shade shall be available when the temperature does not exceed eighty degrees Fahrenheit. When the outdoor temperature in the work area does not exceed eighty degrees Fahrenheit employers shall either provide shade pursuant to subparagraph (i) of this paragraph or provide timely access to shade upon an employee's request. (iii) Employees shall be allowed and encouraged to take a preventative cool-down rest in the shade when they feel the need to do so to protect themselves from overheating. Such access to shade shall be permitted at all times. An individual employee who takes a preventative cool-down rest:
33 34 35 36 37 39 41 42 43 45 46 47 490 51 52 53	one or more areas with shade at all times while employees are present that are either open to the air or provided with ventilation or cooling. The amount of shade present shall be at least enough to accommodate the number of employees on recovery or rest periods, so that they can sit in a normal posture fully in the shade with at least four square feet per resting employee. The shade shall be located as close as practicable to the areas where employees are working. Subject to the same specifica- tions, the amount of shade present during meal periods shall be at least enough to accommodate the number of employees on the meal period who remain onsite. (ii) Shade shall be available when the temperature does not exceed eighty degrees Fahrenheit. When the outdoor temperature in the work area does not exceed eighty degrees Fahrenheit employers shall either provide shade pursuant to subparagraph (i) of this paragraph or provide timely access to shade upon an employee's request. (iii) Employees shall be allowed and encouraged to take a preventative cool-down rest in the shade when they feel the need to do so to protect themselves from overheating. Such access to shade shall be permitted at all times. An individual employee who takes a preventative cool-down rest: (1) Shall be monitored and asked if he or she is experiencing symptoms
33 34 35 36 37 39 41 42 43 45 46 47 489 51 52	one or more areas with shade at all times while employees are present that are either open to the air or provided with ventilation or cooling. The amount of shade present shall be at least enough to accommodate the number of employees on recovery or rest periods, so that they can sit in a normal posture fully in the shade with at least four square feet per resting employee. The shade shall be located as close as practicable to the areas where employees are working. Subject to the same specifica- tions, the amount of shade present during meal periods shall be at least enough to accommodate the number of employees on the meal period who remain onsite. (ii) Shade shall be available when the temperature does not exceed eighty degrees Fahrenheit. When the outdoor temperature in the work area does not exceed eighty degrees Fahrenheit employers shall either provide shade pursuant to subparagraph (i) of this paragraph or provide timely access to shade upon an employee's request. (iii) Employees shall be allowed and encouraged to take a preventative cool-down rest in the shade when they feel the need to do so to protect themselves from overheating. Such access to shade shall be permitted at all times. An individual employee who takes a preventative cool-down rest:

A. 3321--A

1	(3) Shall not be ordered back to work until any signs or symptoms of
2	heat illness have abated, but in no event, less than five minutes in
3	addition to the time needed to access the shade.
4	(e) Personal protective equipment. Employers shall provide the neces-
5	sary protective equipment, gear, uniforms, and clothing, to withstand
6	temperatures at or exceeding the heat stress thresholds. This may
7	include, but is not limited to:
8	(i) Clothing with cooling and/or wicking features;
9	(ii) Ice vests and cooling rags;
10	(iii) Fans;
11	(iv) Air-conditioning, which shall be mandated at all indoor workplac-
12	es within the scope of this legislation, including but not limited to
13	delivery vehicles and warehouses;
14	(v) Sunscreen;
15	(vi) Hats; and
16	(vii) Anything deemed necessary by the department or a reasonable
17	request made by employees to withstand the heat stress threshold and
18	above.
19	(f) Vehicle standards. Employees who spend more than sixty minutes in
20	vehicles each day or whose worksite is considered a vehicle shall have
21	adequate air-conditioning available inside such vehicle.
22	(q) Worker acclimatization. Employers shall provide time for acclima-
23	tization of new and returning employees. When worksite temperatures are
24	above eighty degrees, employees shall only work twenty percent of their
25	normal duration on their first day and gradually increase work duration
26	over a two-week period.
27	2. Cold-specific standards. The employer shall fulfill the following
28	requirements when employees are in an outdoor or indoor worksite and
29	experiencing conditions at or exceeding the cold threshold of sixty or
30	below degrees Fahrenheit:
31	(a) Access to hydration. The employer shall provide access to one
32	quart of water per hour per employee at no cost to the employee.
33	(b) Rest. The employer shall offer preventative breaks at the duration
34	and frequency of ten minutes in a warm area for every two hours of
35	outdoor work and ten minutes in a warm breakroom for indoor workers.
36	The breakroom temperature shall fall between sixty-eight point five and
37	seventy-five degrees when the outdoor temperature is below sixty
38	degrees. Preventative breaks shall be paid.
39	(c) Medical monitoring. Employers shall closely monitor temperatures
40	and implement their workplace cold stress plan. If an employee exhibits
41	signs or reports symptoms of cold stress while taking a preventative
42	warm-up rest, during a preventative warm-up rest period, or at any other
43	time, the employer shall provide appropriate first aid or emergency
44	response.
45	(d) Access to warmth. (i) A warm location for breaks shall be made
46	available when the temperature is below sixty degrees Fahrenheit. When
40 47	the outdoor temperature in the work area is below sixty degrees Fahren-
48	heit, the employer shall have and maintain one or more areas with
49 50	adequate warmth at all times while employees are present that are provided with ventilation and heating. The size of the warm location
50 51	shall be at least enough to accommodate the number of employees on
52 52	recovery or rest periods, with at least four square feet available per
53 54	resting employee. The rest location shall be located as close as prac-
54 55	ticable to the areas where employees are working. Subject to the same
55	specifications, access to a warm location shall be present during meal

A. 3321--A

1	periods and shall be at least enough to accommodate the number of
2	employees on the meal period who remain onsite.
3	(ii) Warm locations shall be available when the temperature is not
4	below sixty degrees Fahrenheit. When the outdoor temperature in the work
5	area is not below sixty degrees Fahrenheit employers shall either
б	provide warmth pursuant to subparagraph (i) of this paragraph or provide
7	timely access upon an employee's request.
8	(iii) Employees shall be allowed and encouraged to take a preventative
9	warm-up rest in the shade when they feel the need to do so to protect
10	themselves from cold stress. Such access shall be permitted at all
11	times. An individual employee who takes a preventative warm-up rest:
12	(1) Shall be monitored and asked if he or she is experiencing symptoms
13	<u>of cold stress;</u>
14	(2) Shall be encouraged to remain in the designated warm area; and
15	(3) Shall not be ordered back to work until any signs or symptoms of
16	cold stress have abated, but in no event, less than five minutes in
17	addition to the time needed to access warmth.
18	(e) Personal protective equipment. Employers shall provide the neces-
19	sary protective equipment, gear, uniforms, and clothing, to withstand
20	temperatures at or exceeding the cold stress thresholds. This may
21	include, but is not limited to:
22	(i) Clothing with heating features;
23	(ii) Gloves, hats, winter coats;
24	(iii) Heating; and
25	(iv) Anything deemed necessary by the department or reasonable request
26	made by employees to withstand the cold stress threshold and below.
27	(f) Vehicle standards. Employees who spend more than sixty minutes in
28	vehicles each day or whose worksite is considered a vehicle shall have
29	adequate heating available inside the vehicle.
30	(g) Worker acclimatization. Employers shall provide time for acclima-
31	tization of new and returning employees. When worksite temperatures are
32	below sixty degrees, employees shall only work twenty percent of their
33 24	normal duration on their first day of employment in which the temper-
34 25	ature is below sixty degrees and gradually increase work duration over a
35 36	two-week period. § 745. Education and training. 1. Training. The department shall
37	create a training curriculum outlining the signs of cold stress and heat
38	illness and the necessary medical responses. Such training shall be
39	administered by the employer at time of hiring.
40	2. Mandated signage and materials. The department shall promulgate
41	signage and educational materials that are required to be made available
42	to employees by their employer in all languages in the state regarding
43	the following:
44	(a) Signs of heat illness and cold stress;
45	(b) Indoor and outdoor temperature stress thresholds;
46	(c) Employer-mandated protections from temperature stress thresholds;
47	(d) Examples of necessary PPE;
48	(e) Where employees can report an employer's lack of accommodation;
49	and
50	(f) Anything else deemed necessary by the department.
51	3. Whistleblower protection. An employer shall provide to every
52	employee written materials describing the protection from retaliatory
53	action for reporting a violation of this article provided pursuant to
54	article twenty-C of this chapter. Any employee who participates in the
55	activities established for worker protections and safety shall not be

1	subject to retaliation for any actions taken pursuant to their partic-
2	ipation.
3	4. The department shall establish a statewide outreach campaign to
4	educate employees on the heat and cold illness standards established and
5	ensure that employers are providing access to proper signage and materi-
6	als.
7	§ 746. Enforcement. The department shall promulgate rules and regu-
8	lations to require the following:
9	1. Every employer shall collect and maintain data and records as
10	required by the department on all temperature-related illnesses and
11	fatalities which occur at an outdoor or indoor worksite.
12	2. Every employer shall submit reports of the data collected pursuant
13	to subdivision one of this section quarterly to the department and such
14	reports shall be published by the department on a searchable database.
15	Employers shall additionally make such reports available to any employee
16	or applicable union upon request within five business days. A tempera-
17	ture-related fatality on a construction site shall be deemed a work-re-
18	lated injury for the purposes of reporting pursuant to section forty-
19	four of this chapter.
20	3. Every employer shall submit for approval a written plan on how
21	temperature-related stress will be mitigated to the department each
22	quarter. Once approved by the department, an employer shall provide such
23	plan to all employees and applicable unions.
24	4. Every employer shall be subject to fines for not adhering to the
25	mandatory reporting and enforcement protocols. Employers shall be
26	required to pay penalties of no less than fifty dollars per day for
27	failing to create a plan and up to ten thousand dollars for not follow-
28	ing an adopted plan. The department shall administer notice and collect
29	all fines. All fines collected shall be allocated to the department's
30	temperature standards bureau.
31	5. The department shall establish a worker hotline and an online form
32	where employees can file complaints with the department regarding
33	temperature standards.
34	6. Any other reporting or enforcement protocols necessary to ensure
35	the protection of workers.
36	7. Every employer shall display a thermometer for employee use at
37	indoor and outdoor workplaces to monitor the temperature.

38 § 4. This act shall take effect immediately.
