## STATE OF NEW YORK

4036

2023-2024 Regular Sessions

## IN ASSEMBLY

February 9, 2023

Introduced by M. of A. CUNNINGHAM -- read once and referred to the Committee on Transportation

AN ACT to amend the transportation law, in relation to requiring the department of transportation to prepare a plan for every public transportation system to be eligible to receive operating assistance in the purchase of any new zero-emission buses or other municipal zero-emission vehicles

## The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1	Section 1. The transportation law is amended by adding a new section
2	18-c to read as follows:
3	<u>§ 18-c. Zero-emission municipal fleet plan. 1. (a) No later than one</u>
4	year from the effective date of this section, the department shall
5	prepare, in consultation with the New York state energy research and
б	development authority and the office of general services, a plan for
7	every public transportation system to be eligible to receive operating
8	assistance in the purchase of any new zero-emission buses or other
9	municipal zero-emission vehicles and related equipment and facilities as
10	part of the normal replacement of its fleet. The plan shall also identi-
11	fy potential funding sources for the program.
12	(b) For the purposes of this section:
13	(i) "zero-emission bus" shall mean a zero-emission vehicle that has a
14	seating capacity of fifteen or more passengers in addition to the driver
15	and is used for the transportation of persons; and
16	(ii) "zero-emission vehicle" shall mean a vehicle powered by means of
17	a battery or fuel cell or a combination thereof, or another source of
18	power, that produces zero exhaust emissions of any greenhouse gas,
19	criteria pollutant or precursor pollutant under any and all possible
20	operational modes and conditions.
21	2. The department's plan shall include all of the following compo-
22	nents:

EXPLANATION--Matter in **italics** (underscored) is new; matter in brackets [-] is old law to be omitted.

LBD07642-01-3

1	(i) a goal of full transition to zero-emission buses by two thousand
2	<u>forty;</u>
3	(ii) identification of potential types of zero-emission vehicle tech-
4	nologies for deployment, such as battery electric or fuel cell electric
5	vehicles;
6	(iii) a schedule for construction of facilities and infrastructure
7	modifications or upgrades, including charging, fueling, and maintenance
8	facilities, to deploy and maintain zero-emission vehicles. This schedule
9	shall specify the general location of each facility, type of infrastruc-
10	ture, service capacity of infrastructure, and a timeline for
11	construction;
12	(iv) a schedule for zero-emission and conventional internal combustion
13	engine bus purchases and lease options;
14	(v) a schedule for conversion of conventional internal combustion
15	<u>engine buses to zero-emission buses, if any;</u>
16	(vi) a description on how a transit agency plans to deploy zero-emis-
17	<u>sion buses in disadvantaged communities;</u>
18	(vii) a training plan and schedule for municipal bus operators and
19	maintenance and repair staff regarding operation and maintenance of
20	zero-emission buses and zero-emission vehicles; and
21	(viii) the use of Regional Greenhouse Gas Initiative (RGGI) funds,
22	implemented in the state pursuant to 21 NYCRR part 507, and other tax
23	credits as funding sources.
24	3. Two years after the effective date of this section, and annually
25	thereafter, the department shall prepare, in consultation with the New
26	York state energy research and development authority and the office of
27	general services, shall conduct a report on the status and recommenda-
28	tions of the department's plan. The report shall include a review of the
29	department's plan, including the specific greenhouse gas or air quality
30	improvement goals; the status of the plan with respect to meeting its
31	goals and targets; a cost-benefit analysis of the plan; and, to the
32	extent feasible, a comparison of the department's plan with other
33	states' and countries' zero-emission vehicle programs. Based on this
34	information, the report shall also make recommendations on how to maxi-
35	mize the effectiveness of existing programs to expand the use of zero-
36	emission buses and zero-emission vehicles in the most cost-effective
37	manner possible that achieves the greatest reduction in greenhouse gas
38	emissions and maximizes improvements to air quality.

39 § 2. This act shall take effect immediately.
