AN ACT to amend the education law, in relation to licensing of genetic counselors

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Legislative intent and findings. The legislature finds that while significant steps have been taken through legislation in response to the COVID-19 crisis in New York State, much more must be done to combat the continued threat to public health and safety presented by COVID-19 and future pandemics including identifying risk factors, developing responses, and increasing access to treatment.

7 The legislature intends to build on the initial efforts of the execu-8 tive and legislature in responding to the COVID-19 crisis by recognizing 9 the significant role genetic counselors play in identifying genetic 10 variants through predictive testing, investigating underlying genomic 11 susceptibilities and deciphering complex testing infrastructures, culmi-12 nating in the critical counseling of patients and educating other health 13 care providers.

The legislature finds that the state's mission to ensure preparedness against future health crises through data collection, research, and access to safe care will be advanced through the licensure of genetic counselors and the active engagement of these uniquely trained practitioners and researchers in the making of informed personal health care decisions and the development of effective health care policies.

20 § 2. The education law is amended by adding a new article 142 to read 21 as follows:
