AN ACT to amend the retirement and social security law, in relation to increasing the amount of years of military service credit a member may purchase

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Subdivision 4 of section 1000 of the retirement and social
2 security law, as amended by chapter 41 of the laws of 2016, is amended
3 to read as follows:

4 4. In no event shall the credit granted pursuant to this section, when
5 added to credit granted for military service with any retirement system
6 of this state pursuant to this or any other provision of law, exceed a
7 total of [~~three~~] four years.

8 § 2. Subdivision 1 of section 1000 of the retirement and social secu-
9 rity law, as amended by chapter 585 of the laws of 2022, is amended to
10 read as follows:

11 1. A member, upon application to such retirement system, may obtain a
12 total not to exceed [~~three~~] four years of service credit for up to
13 [~~three~~] four years of military duty, as defined in section two hundred
14 forty-three of the military law, if the member (a) was honorably

1 discharged from the military, or (b) has a qualifying condition, as
 2 defined in section three hundred fifty of the executive law, and has
 3 received a discharge other than bad conduct or dishonorable from such
 4 service, or (c) is a discharged LGBT veteran, as defined in section
 5 three hundred fifty of the executive law, and has received a discharge
 6 other than bad conduct or dishonorable from such service.

7 § 3. Notwithstanding any provision of law to the contrary, none of the
 8 provisions of this act shall be subject to the appropriation requirement
 9 of section 25 of the retirement and social security law.

10 § 4. This act shall take effect immediately.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

SUMMARY: This proposed legislation, as it relates to members of the
 New York City Retirement Systems and Pension Funds (NYCRS), would
 increase the maximum number of years of military duty service credit
 that a member may purchase from three years to four.

CENSUS DATA: The number of members who will purchase an additional fourth year of military service is unknown. The estimates presented herein are based on preliminary census data collected as of June 30, 2023. The census data for the potentially impacted population used to develop the average costs in this Fiscal Note is based on active members who have already purchased three years of military service and is summarized below.

NYCRS	
Active Members	
- Number Count:	461
- Average Age:	49.3
- Average Service:	17.1
- Average Salary:	117,900

IMPACT ON MEMBER CONTRIBUTIONS: Eligible NYCERS members are required to contribute, for each year of military service purchased, 3% (or 6% for members who first join on or after April 1, 2012) of such member's compensation earned during the 12 months of credited service immediately preceding the date the member applies for military service credit.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement systems.

The number of members who will benefit in the future from this proposed legislation is unknown. The cost of this proposed legislation could vary greatly depending on the number of future members who benefit and, on their plan, length of service, age, and salary history.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions, methods, and models used, demographics of the impacted population and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits).

STATEMENT OF ACTUARIAL OPINION: Marek Tyszkiewicz and Gregory Zelikovsky are members of the Society of Actuaries and the American Academy of Actuaries. We are members of NYCERS but do not believe it impairs our objectivity and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. To the best of our knowledge, the results contained herein have been prepared in accordance with generally accepted actuarial principles and procedures and with the Actuarial Standards of Practice issued by the Actuarial Standards Board.

FISCAL NOTE IDENTIFICATION: This Fiscal Note 2024-24 dated March 11, 2024 was prepared by the Chief Actuary for the New York City Retirement Systems and Pension Funds. This estimate is intended for use only during the 2024 Legislative Session.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would amend the current military law to allow for a member to obtain up to a total of four years of service credit for up to four years of military duty if the member was honorably discharged. The current maximum is three years of service credit. Members must have at least five years of credited service (not including military service). Tier 1-5 members would be required to make a payment of three percent of their most recent compensation per year of additional service credit granted by this bill. Tier 6 members would be required to make a payment of six percent of their most recent compensation per year of additional service credit. Portions of the bill would become effective on November 10, 2023.

Insofar as this proposal affects the New York State and Local Employees' Retirement System (NYSLERS), all costs would be shared by the State of New York and the local participating employers in the NYSLERS. If enacted during the 2024 Legislative Session, it is estimated that the past service cost will be 18% (15% for Tier 6) of an affected member's compensation for each year of service credit that is purchased.

Insofar as this proposal affects the New York State and Local Police and Fire Retirement System (NYSLPFRS), all costs would be shared by the State of New York and the local participating employers in the NYSLPFRS. If enacted during the 2024 Legislative Session, it is estimated that the past service cost will be 23% (20% for Tier 6) of an affected member's compensation for each year of service credit that is purchased.

Further, we anticipate some additional administrative costs to implement the provisions of this legislation.

The exact number of current and future members who could be affected by this legislation cannot be readily determined. Through December 31, 2023, approximately 11,200 members have purchased military service credit pursuant to Chapter 41 of the Laws of 2016, with a total cost of approximately \$400 million. It is estimated that, had this proposal been law since 2016, approximately 7,700 of these members could have purchased a fourth year of military service credit for an additional cost of approximately \$110 million.

Summary of relevant resources:

Membership data as of March 31, 2023 was used in measuring the impact of the proposed change, the same data used in the April 1, 2023 actuarial valuation. Distributions and other statistics can be found in the 2023 Report of the Actuary and the 2023 Annual Comprehensive Financial Report.

The actuarial assumptions and methods used are described in the 2023 Annual Report to the Comptroller on Actuarial Assumptions, and the Codes, Rules and Regulations of the State of New York: Audit and Control.

The Market Assets and GASB Disclosures are found in the March 31, 2023 New York State and Local Retirement System Financial Statements and Supplementary Information.

I am a member of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

This fiscal note does not constitute a legal opinion on the viability of the proposed change nor is it intended to serve as a substitute for the professional judgment of an attorney.

This estimate, dated March 1, 2024, and intended for use only during the 2024 Legislative Session, is Fiscal Note No. 2024-64, prepared by the Actuary for the New York State and Local Retirement System.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would amend subdivisions 1 and 4 of Section 1000 of the Retirement and Social Security Law to increase the maximum number of years of military service credit to four that a member may purchase. Currently, a member can purchase up to three years of military service credit provided such member did not receive a dishonorable discharge and was not discharged for bad conduct. To obtain such credit, a member must make payments as required by Section 1000 of the Retirement and Social Security Law. Tiers 1, 2, 3, 4 and 5 members are required to pay three percent of salary earned during the twelve months of credited service immediately preceding the year in which a claim is made for each year of military service. Tier 6 members are required to pay six percent of salary earned during the twelve months of credited service immediately preceding the year in which a claim is made for each year of military service.

It is not possible to determine the number of eligible current and future members, or the additional military service credit each member may purchase under this bill. Therefore, it is not possible to estimate the annual increase in the employers' cost for this bill. Whatever increase in liability arises for service credited under this bill above that paid for by the member would be included in the cost that would be shared by employers through the employer contribution rate.

It is estimated that the cost, expressed as a percentage of a member's salary for the additional year of service credit a member purchases under this bill is as follows:

Cost per year of Service Purchased (as a percentage of the member's salary)

Tier(s)	1-4	5	6
Cost	12.5%	11.3%	9.5%
Member Contribution offset	3.0%	3.0%	6.0%
Net cost to participating employers	9.5%	8.3%	3.5%

Member data is from the System's most recent actuarial valuation files as of June 30, 2023, consisting of data provided by the employers to the Retirement System. The most recent data distributions and statistics can be found in the System's Annual Report for fiscal year ended June 30, 2023. System assets are as reported in the System's financial statements and can also be found in the System's Annual Report. Actuarial assumptions and methods are provided in the System's Actuarial Valuation Report as of June 30, 2023.
