FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would allow members who retired under a special 20 or 25-year retirement plan from the New York State and Local Police and Fire Retirement System (PFRS) before January 1, 1980 and returned to work in the New York State and Local Employees' Retirement System (ERS) to transfer their PFRS service credit into the ERS and receive a pension based on the combined service as long as the necessary contributions plus interest were made as set forth under Chapter 666 of the Laws of

1990. Currently, these pensions are actuarially reduced for the pension payments received while retired from the PFRS and actively working in the ERS.

The number of retirees who could be affected by this legislation cannot be readily determined. To benefit from the provisions of this legislation, an eligible retiree must file a written request to the New York State Comptroller within one year of the effective date of the act.

If this bill is enacted during the 2023 legislative session, pursuant to Section 25 of the Retirement and Social Security Law, those costs arising in the ERS would be borne solely by the State of New York. The cost for the one retiree known to benefit from this legislation is approximately \$58,300. This estimate assumes that payment will be made on March 1, 2024. Similar costs for other impacted individuals can be expected and will be calculated and billed to the State of New York when application is made.
