FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would provide new members who first join public retirement systems in New York State on or after April 1, 2025, the option to become covered under the provisions of a new defined contribution plan in lieu of the defined benefit plan. This plan would be mandatory for elected officials who first join public retirement systems in New York State on or after April 1, 2025. Pursuant to Chapter 18 of the Laws of 2012, participation currently is optional in a defined contribution plan for non-union employees hired on or after July 1, 2013 whose salary is \$75,000 or higher.

Insofar as this bill affects the New York State and Local Employees' Retirement System and the New York State and Local Police and Fire Retirement System, the significant design features of the defined contribution plan include the following:

1. Mandatory employer contributions of 4% of wages.
2. Matching employer contributions for voluntary employee contributions of up to 3% of wages.
3. Employee and employer contributions are subject to limits in Federal Law.
4. A death benefit equal to the accumulated value of employee contributions, plus
 - a) the member's salary after completion of one year of service,
 - b) two years' salary after completion of two years' of service,
 - c) three years' salary after completion of three years' of service, or
 - d) the accumulated value of all employer contributions (mandatory and matching) previously made to the member's defined contribution account, if larger.
5. There is no disability benefit.
6. Members may not opt out of the defined contribution plan once they have opted in.
7. The defined contribution plan is to be administered by the New York State and Local Retirement System (NYSLRS), which may enter into agreements with qualified providers for investment of member accounts and general administration of the plan.

Assuming that employees contribute 3% or more to maximize the employer match, the long-term expected total annual employer contribution rate for all members who choose the defined contribution plan (includes the death benefit and the ongoing administrative rate) would be approximately 7.7% of payroll.

The administrative expense to the NYSLRS to establish the new defined contribution plan is currently estimated at \$5 to \$10 million. This does not include costs to participating employers related to the modification of the state payroll system, currently estimated at \$1 million. In addition, employees will incur management and investment expenses for their defined contribution accounts estimated to average 0.5% of the account balance annually.
