(4) In developing the program under paragraph one of this subdivision, the office may:

(A) issue guidance on the use of contingency management services for beneficiaries who access substance use disorder services under the medical assistance program; and

(5) Notwithstanding any contrary provision of law, the commissioner, in collaboration with the commissioner of health, shall, to the extent necessary, develop and submit any appropriate waivers for implementation of this program, including, but not limited to, those authorized pursuant to sections eleven hundred fifteen and nineteen hundred fifteen of the federal social security act, or successor provisions, and any other waivers necessary to achieve the purposes of high quality, integrated, and cost effective care and integrated financial eligibility policies under the medical assistance program or pursuant to title XVIII of the federal social security act. Copies of such original waiver applications shall be provided to the chair of the senate finance committee and the chair of the assembly ways and means committee simultaneously with their submission to the federal government.
