CENSUS DATA: The estimates presented herein are based on preliminary census data collected as of June 30, 2023. The census data for the impacted population is summarized below.

	NYCERS
Term. Vested Members	
- Number Count:	1
- Average Age:	37

BACKGROUND: Mr. O'Connor commenced employment with the New York City Transit Authority on January 19, 2012 and subsequently joined NYCERS in September 2012. In the nine-month period between the commencement of his employment and the date on which he joined NYCERS, Chapter 18 of the Laws of 2012, or Tier 6, was enacted. Therefore, Mr. O'Connor joined NYCERS as a Tier 6 member. The proposed legislation would allow Mr. O'Connor to apply for a retroactive NYCERS membership date of January 19, 2012, which would entitle him to Tier 4 membership, without a refund of past Tier 6 contributions, in the NYCERS 57/5 Plan.

A change from Tier 6 to Tier 4 would result in an earlier date of retirement eligibility, lower overall prospective employee contribution rates, a larger benefit, and a three-year (as opposed to a five-year) final average salary.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement systems.

Per the proposed legislation, Mr. O'Connor is currently a Metropolitan Transportation Authority (MTA) Metro-North employee. For the purposes of this Fiscal Note, it is assumed that Mr. O'Connor will transfer his NYCERS membership to his pension plan at the MTA. Therefore, the cost reflected in this Fiscal Note is based on the additional reserves that will be required to be transferred from NYCERS, considering Chapter 717 of the Laws of 2023.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions, methods, and models used, demographics of the impacted population, and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits). This Fiscal Note does not reflect any chapter laws that may have been enacted during the current legislative session.

STATEMENT OF ACTUARIAL OPINION: Marek Tyszkiewicz and Gregory Zelikovsky are members of the Society of Actuaries and the American Academy of Actuaries. We are members of NYCERS but do not believe it impairs our objectivity and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. To the best of our knowledge, the results contained herein have been prepared in accordance with generally accepted actuarial principles and procedures and with the Actuarial Standards of Practice issued by the Actuarial Standards Board.

FISCAL NOTE IDENTIFICATION: This Fiscal Note 2024-61 dated May 15, 2024 was prepared by the Chief Actuary for the New York City Retirement Systems and Pension Funds. This estimate is intended for use only during the 2024 Legislative Session.
