§ 37-1103. Priority chemicals and chemicals of high concern.

1. Publishing of list. Within one hundred eighty days of the effective date of this title, the department shall post lists of priority chemicals and chemicals of high concern on the department's website.

2. Periodic review. (a) The department, in consultation with the department of health, may periodically review the list of priority chemicals and, through regulation, identify additional priority chemicals or chemicals of high concern or remove a chemical from such lists based on evidence that the chemical is not present in a pet product or otherwise should not be subject to the requirements of this title. Nothing herein shall prevent the department from acting to add such chemicals outside of the periodic review process.

(b) If a chemical is removed from the listing of chemicals of high concern, it shall also be undesignated as a priority chemical.

(c) The department, in consultation with the department of health shall identify a chemical as a chemical of high concern if, upon review, it determines that the chemical has been identified by a state, federal or international governmental entity on the basis of credible scientific evidence as:

(i) A carcinogen, a reproductive or developmental toxicant or an endocrine disruptor;

(ii) Persistent, bioaccumulative and toxic; or

(iii) Very persistent and very bioaccumulative.

(d) In making such determination, the department may consider but is not limited to considering:

1907/2006 of the European Parliament concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals.

§ 37-1105. Disclosure of information on priority chemicals.

1. Reporting of chemical use. No later than twelve months after a priority chemical is listed on the list published pursuant to section 37-1103 of this title, every manufacturer who offers a pet product for sale or distribution in this state that contains an intentionally added priority chemical shall report such chemical use to the department. The department may collaborate with other states and an interstate chemicals clearinghouse in developing such form.

(a) This report must at a minimum identify the pet product, the priority chemical or chemicals contained in the pet product, and the intended purpose of the chemicals in the pet product. The department may also require reporting of the following information:

(i) the potential for harm to animal health and the environment from specific uses of the priority chemical;

(ii) the amount of such chemical in each unit of the pet product, expressed in a range;

(iii) information on the likelihood that the chemical will be released from the pet product to the environment during the product's life cycle and the extent to which users of the product are likely to be exposed to the chemical; or

(iv) information on the extent to which the chemical is present in the environment or animal body.

(b) The department is authorized to direct submission of a copy of such report to the interstate chemicals clearinghouse.

2. Waiver of reporting. Upon application by a manufacturer, the commissioner may waive all or part of the reporting requirements under subdivision one of this section for one or more specified uses of a priority chemical. In making such determination, the commissioner may consider: (a) if substantially equivalent information is already publicly available or that the information is not needed for the purposes of this chapter, (b) similar waivers granted by other states, and (c) whether the specified use or uses are minor in volume.

3. Notice to retailers. A manufacturer of a pet product containing a priority chemical shall notify persons that offer the pet products for sale or distribution in the state, in a form prescribed by the department, of the presence of such priority chemical, and provide such persons with information regarding the toxicity of such chemical.

4. Fees. The manufacturer shall pay a fee upon submission of a report of chemical use pursuant to subdivision one of this section or a waiver request pursuant to subdivision two of this section to cover the department's reasonable costs in the amount of six hundred dollars per chemical.

§ 37-1107. Sales prohibition.

Effective January 1, 2026, no person shall distribute, sell or offer for sale in this state pet products containing a priority chemical that has been listed for at least one year.

4. Combustion. The requirements of this title shall not apply to priority chemicals generated solely as combustion by-products or that are present in combustible fuels.

5. Retailers. A retailer is exempt from the requirements of this title unless that retailer knowingly sells a pet product containing a priority chemical after the effective date of its prohibition for which that retailer has received notification pursuant to subdivision three of section 37-1105 of this title.

§ 37-1111. Enforcement and implementation.

1. Failure to provide notice. A pet product containing a priority chemical may not be sold, offered for sale or distributed for sale in this state unless the manufacturer has provided the notification required under section 37-1105 of this title by the date required in such section. The commissioner may exempt a pet product from this prohibition if, in the commissioner's judgment, the lack of availability of the pet product could pose an unreasonable risk to public health, safety or welfare.

2. Statement of compliance. If there are grounds to suspect that a pet product is being offered for sale in violation of this title, the department may request the manufacturer of the pet product to provide a statement of compliance on a form provided by the department, within ten days of receipt of a request from the department. The statement of compliance shall:

(a) attest that the pet product does not contain the priority chemical; or

(b) attest and provide the department with documentation that notification of the presence of the priority chemical has been provided to the department or provide notice as required by section 37-1105 of this title; or

(c) attest that the manufacturer has notified persons who sell the product in this state that the sale of the pet product is prohibited.

§ 37-1113. Interstate chemical clearinghouse.
