The practitioner may state in the certification any recommendation or limitation the practitioner makes, in his or her professional opinion, concerning the appropriate form or forms of medical cannabis and dosage.

4. Every practitioner shall make a reasonable effort to consult the prescription monitoring program registry prior to making or issuing a certification, for the purpose of reviewing a patient's controlled substance history. For purposes of this section, a practitioner may authorize a designee to consult the prescription monitoring program registry on his or her behalf, provided that such designation is in accordance with section thirty-three hundred forty-three-a of the public health law.

(b) The office shall create the form to be used for a special certification and shall make that form available to be downloaded from the office's website.

10. Prior to issuing a certification a practitioner must complete, at a minimum, a two-hour course as determined by the board in regulation. For the purposes of this article a person's status as a practitioner is

1 deemed to be a "license" for the purposes of section thirty-three
2 hundred ninety of the public health law and shall be subject to the same
3 revocation process.
