(ix) such person's gender, if available;

(x) such person's telephone number, if available; and

(xi) such person's e-mail address, if available.

(b) The department of motor vehicles and the state board of elections shall jointly determine which documents acceptable for transactions pursuant to subdivision one of this section conclusively demonstrate United States citizenship.

(c) The department of motor vehicles shall not transmit information pursuant to paragraph (a) of this subdivision for any person who is a program participant in the address confidentiality program pursuant to section one hundred eight of the executive law.

(d) Upon receiving information pursuant to paragraph (a) of this subdivision for a person who is not registered to vote in New York state and who is of sufficient age to register or pre-register to vote, unless the state board of elections has evidence that such person is a program participant in the address confidentiality program pursuant to section one hundred eight of the executive law, the state board of elections shall electronically forward such information to the board of elections of the county or the city of the person's residence address for registration or pre-registration consistent with this chapter.

(e) (i) Upon receiving information pursuant to paragraph (d) of this subdivision, a county or city board of elections shall register or pre-register the person to vote pursuant to section 5-210 of this article effective as of the date of such person's transaction with the department of motor vehicles. The county or city board of elections shall promptly send to such person's mailing address, by non-forwardable mail,

a notice that such person has been registered to vote, or pre-registered to vote, if applicable, that contains a postage paid preaddressed return form by which such person may decline to be registered or pre-registered. Such notice shall be combined with the notice required pursuant to subdivision one of section 5-308 of this article and shall also offer such person the opportunity to enroll with a party. Such notice shall also include a statement that, if such person declines to register or pre-register to vote, the fact that such person has declined registration or pre-registration will remain confidential and will be used only for election administration purposes, and a statement that, if such person does not decline registration or pre-registration, the office at which such person was registered or pre-registered will remain confidential and will be used only for election administration purposes. Such notice shall also provide information and procedures for anyone wishing to prevent disclosure of their residence address, including information regarding the address confidentiality program for victims of domestic violence under section 5-508 of this article. The notice required by this subparagraph may be combined with the notice provided to newly registered voters pursuant to subdivision nine of section 5-210 of this article.

(ii) Notwithstanding any other provision of this article, a person of sufficient age to register to vote whose information is transmitted to a county or city board pursuant to subparagraph (i) of this paragraph shall be registered to vote for an election if the date of such person's transaction with the department of motor vehicles pursuant to subdivision one of this section occurs by the twelfth day before such election and such person's information is transmitted to the county or city board by the tenth day before such election. A person whose transaction with the department of motor vehicles occurs within thirty days of an election shall be required to affirm before voting that such person has resided in such person's county, city, or village for at least thirty days before such election. Such affirmation shall be available at the time of voting and at the time of requesting an early mail or absentee ballot. A voter who signs an affirmation pursuant to this subparagraph shall not be challenged or required to vote an affidavit ballot on the grounds that such voter signed such affirmation.

(f) (i) If a person returns the notice provided under subparagraph (i) of paragraph (e) of this subdivision and declines to be registered or pre-registered to vote, such person's registration or pre-registration shall be canceled, and such person shall be deemed to have not registered or pre-registered. However, if such person has voted in an election after the transmission of such person's information but before the notice is returned, the returned form shall be of no effect and such person shall remain registered as of the date of such person's transaction with the department of motor vehicles. Information relating to the return of a notice form declining to be registered or pre-registered shall not be used for any purpose other than election administration.

(ii) Notwithstanding subdivision two of section 5-304 of this article, if a person returns the notice provided under subparagraph (i) of paragraph (e) of this subdivision and elects to enroll in a party, such enrollment shall take effect immediately. However, any pre-registrant's registration shall remain classified as "pending" until the voter reaches the age of eligibility.

(iii) If a person returns the notice provided under subparagraph (i) of paragraph (e) of this subdivision but does not select any options, the returned notice shall be of no force and effect, and such person

shall remain registered to vote, or pre-registered to vote, if applicable.

3. (a) The department of motor vehicles shall not provide an opportunity to register or pre-register to vote or transmit any information to the board of elections for purposes of voter registration for any person who, when conducting a department of motor vehicles transaction pursuant to subdivision one of this section, provides documentation conclusively demonstrating that such person is not a United States citizen. The department of motor vehicles and the state board of elections shall jointly determine which documents are acceptable for a motor vehicle driver's license, a driver's license renewal, or an identification card to conclusively demonstrate that a person is not a United States citizen.

(b) For any person who conducts a department of motor vehicles transaction pursuant to subdivision one of this section whose information is not already subject to transmission to the state board of elections pursuant to paragraph (a) of subdivision two of this section and who does not provide documentation at the time of such person's transaction conclusively demonstrating that such person is not a United States citizen, the department of motor vehicles transaction shall provide an integrated voter registration opportunity as part of such transaction. For purposes of this paragraph, registration shall also include pre-registration pursuant to section 5-507 of this article.

(c) The department shall ensure agency applications pursuant to paragraph (b) of this subdivision include all of the elements required by section 5-210 of this article, including the appropriate attestation, so that persons completing such applications shall be able to also submit an application to register to vote through the electronic voter registration transmittal system.

(d) The integrated voter registration opportunity shall:

(i) include a statement of the eligibility requirements for voter registration and shall require an applicant to attest that such applicant meets such requirements under penalty of perjury;

(C) that the office where such applicant applies for registration shall remain confidential and the voter registration information shall be used only for voter registration purposes;

(D) that if such applicant applies to register to vote electronically, such applicant thereby consents to the use of an electronic copy of such applicant's manual signature that is in the custody of the department of motor vehicles, as such applicant's voter registration exemplar signature;

(E) if such applicant signs the application and affirmatively selects the voter registration option, such applicant thereby consents to the use of any information required to complete the voter registration application; and

(F) if such applicant declines to register, such applicant's declination shall remain confidential and be used only for voter registration purposes;

(iii) require an applicant who attests to the eligibility requirements for voter registration to either affirmatively select or affirmatively decline voter registration as a necessary condition to complete the application pursuant to subdivision one of this section;

(iv) include the following warning statement, or its substantial equivalent, in prominent type, "IF YOU ARE NOT A CITIZEN OF THE UNITED STATES, DO NOT SELECT THE OPTION TO REGISTER TO VOTE. NON-CITIZENS WHO REGISTER OR PRE-REGISTER TO VOTE MAY BE SUBJECT TO CRIMINAL PENALTIES AND SUCH VOTER REGISTRATION OR PRE-REGISTRATION MAY RESULT IN DEPORTATION OR REMOVAL, EXCLUSION FROM ADMISSION TO THE UNITED STATES, OR DENIAL OF NATURALIZATION.";

(v) include a space for an applicant to indicate such applicant's choice of party enrollment, with a clear alternative provided for such applicant to decline to affiliate with any party and the following statement, or its substantial equivalent, in prominent type "ONLY ENROLLED MEMBERS OF A POLITICAL PARTY MAY VOTE IN THAT PARTY'S PRIMARIES."; and

(vi) include a statement that if an applicant is a victim of domestic violence or stalking, such applicant may contact the state board of elections before or after registering or pre-registering to vote in order to receive information regarding the address confidentiality program for victims of domestic violence under section 5-508 of this article.

(e) For each person who completes an application to register to vote pursuant to paragraph (d) of this subdivision, who attests to the eligibility requirements for voter registration, and affirmatively selects voter registration pursuant to subparagraph (iii) of paragraph (d) of this subdivision, the department of motor vehicles shall electronically transmit to the state board of elections through an interface with the electronic voter registration transmittal system established and maintained by the state board of elections such portion of the application that includes voter registration information. If such person is not already registered to vote in New York state, the state board of elections shall electronically forward such application to the applicable board of elections of each county or the city of New York for registration consistent with this chapter. The department shall not transmit to the state board of elections an application for registration for a person who indicates on the integrated personal voter registration application that such person does not meet the eligibility requirements for registration.

(f) An integrated voter registration application submitted to the department of motor vehicles in an electronic format shall be transmitted to the state board of elections through the electronic voter registration transmittal system and shall include all of the voter registration data elements, including electronic signature, as applicable, and record of attestation of the accuracy of the voter registration information and any relevant document images.

(g) An integrated voter registration form submitted to the department of motor vehicles in paper format shall be transmitted to the state board of elections through the electronic voter registration transmittal system by converting the paper form to an image file or a portable document format file which shall thereafter be deemed the original form for voter registration and enrollment purposes. The department shall retain the complete original paper application for no less than two years. The transmittal of the converted paper application may include or be accompanied by data elements and transmittal information as required by the rules and regulations of the state board of elections.

(h) The department shall redact or remove from the completed integrated application to be transmitted to the state board of elections any information solely applicable to the agency application.

(i) Information from an applicant relevant to both voter registration and the department application shall be entered by the applicant only once upon an electronic application.

(j) Information concerning the citizenship status of individuals, when collected and transmitted pursuant to this subdivision, shall not be retained, used, or shared for any other purpose except as may be required by law.

(k) For each person who attests to the eligibility requirements for voter registration, but who does not affirmatively select voter registration pursuant to subparagraph (iii) of paragraph (d) of this subdivision, the department of motor vehicles shall electronically transmit to the state board of elections through an interface with the electronic voter registration transmittal system established and maintained by the state board of elections such portion of the application that includes voter registration information with a clear designation that such information shall be used only for the purpose of updating existing registration records.

4. (a) If information is received by the state board of elections from the department of motor vehicles pursuant to paragraph (a) of subdivision two or paragraph (e) or (k) of subdivision three of this section for a person who is already registered or pre-registered to vote in New York state, the state board of elections shall determine whether the information provided to the department of motor vehicles indicates a different name, residence address, or mailing address from that on such person's registration record.

(b) If information provided to the department of motor vehicles pursuant to paragraph (a) of subdivision two or paragraph (e) or (k) of subdivision three of this section indicates a different name, residence address, or mailing address for a registered or pre-registered voter from that on such person's registration record, the state board of elections shall electronically transmit the updated name or address for such person to the appropriate board of elections for such person's residence. If such person has changed residence from one county to another, the state board of elections shall electronically transmit such information to both the board of the previous county or city of residence and the new county or city of residence. The board of elections in such person's county or city of residence shall use the information transmitted by the board to update such person's existing voter registration record, transfer the person's registration, if inactive, to active status, and send to such person's address of record the notice required under subdivision five of section 5-208 of this article. The board of elections in any previous county or city of residence shall update such person's voter registration record to reflect that such person has moved to a different county.

(c) If a person returns the notice required under paragraph (b) of this subdivision and indicates that the change to such person's registration record was in error, the appropriate boards of elections, including the board of the previous county or city of residence, shall promptly correct such person's previously updated information in the statewide voter registration list.

(d) Any application pursuant to subdivision one of this section shall inform the applicant that if such applicant is already registered or pre-registered to vote in New York state, the name, residence address, and mailing address provided on the application shall be used to update such person's registration record and that such person shall receive

notice of any update by mail, along with information on how to correct such update, if needed.

5. The state board of elections shall prepare and distribute to the department of motor vehicles written instructions as to the implementation of this section and shall be responsible for establishing training programs for employees of the department of motor vehicles.
