(e) Ceremonial casket natural organic reduction disclosure. In those instances in which the remains of deceased human beings are to be delivered to a natural organic reduction facility in a casket or other container that is not to be naturally organically reduced with the deceased, timely disclosure thereof must be made by the person making the funeral arrangements to the natural organic reduction facility that prior to natural organic reduction the remains of the deceased human being shall be transferred to [~~an alternative~~] a container or in external wrappings sufficient to contain the remains and also designed to fully decompose in the natural reduction process.
