2023-2024 Regular Sessions

IN SENATE

January 10, 2023

Introduced by Sen. BAILEY -- read twice and ordered printed, and when printed to be committed to the Committee on Insurance

AN ACT to amend the insurance law, in relation to requiring certain health insurance policies to include coverage for the cost of certain infant and baby formulas

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Paragraph 21 of subsection (i) of section 3216 of the insurance law, as amended by section 6 of subpart B of part J of chapter 57 of the laws of 2019 is amended to read as follows:

57 of the laws of 2019, is amended to read as follows: (21) Every policy that provides coverage for prescription drugs shall include coverage for the cost of enteral, infant and baby formulas for home use, whether administered orally or via tube feeding, for which a physician or other licensed health care provider legally authorized to prescribe under title eight of the education law has issued a written order. Such written order shall state that the enteral, infant and baby 10 formula is clearly medically necessary and has been proven effective as 11 a disease-specific treatment regimen. Specific diseases and disorders for which enteral, infant and baby formulas have been proven effective shall include, but are not limited to, inherited diseases of amino acid 13 14 or organic acid metabolism; Crohn's Disease; gastroesophageal reflux; disorders of gastrointestinal motility such as chronic intestinal pseu-16 do-obstruction; and multiple, severe food allergies including, but not limited to immunoglobulin E and nonimmunoglobulin E-mediated allergies 17 to multiple food proteins; severe food protein induced enterocolitis 18 syndrome; eosinophilic disorders; and impaired absorption of nutrients 19 20 caused by disorders affecting the absorptive surface, function, length, 21 and motility of the gastrointestinal tract. Enteral, infant and baby 22 formulas that are medically necessary and taken under written order from a physician for the treatment of specific diseases shall be distin-24 guished from nutritional supplements taken electively. Coverage for

certain inherited diseases of amino acid and organic acid metabolism as well as severe protein allergic conditions shall include modified solid food products that are low protein, contain modified protein, or are amino acid based that are medically necessary. Coverage for infant and baby formulas for any calendar year or any continuous period of twelve months for any insured individual shall be no less than three thousand dollars.

- § 2. Paragraph 11 of subsection (k) of section 3221 of the insurance law, as amended by section 14 of subpart B of part J of chapter 57 of the laws of 2019, is amended to read as follows:
- 11 (11) Every policy that provides coverage for prescription drugs shall 12 include coverage for the cost of enteral, infant and baby formulas for home use, whether administered orally or via tube feeding, for which a 13 14 physician or other licensed health care provider legally authorized to 15 prescribe under title eight of the education law has issued a written 16 order. Such written order shall state that the enteral, infant and baby 17 formula is clearly medically necessary and has been proven effective as disease-specific treatment regimen. Specific diseases and disorders 18 19 for which enteral, infant and baby formulas have been proven effective include, but are not limited to, inherited diseases of amino-acid 20 shall 21 or organic acid metabolism; Crohn's Disease; gastroesophageal reflux; 22 disorders of gastrointestinal motility such as chronic intestinal pseudo-obstruction; and multiple, severe food allergies including, but not 23 24 limited to immunoglobulin E and nonimmunoglobulin E-mediated allergies 25 to multiple food proteins; severe food protein induced enterocolitis 26 syndrome; eosinophilic disorders and impaired absorption of nutrients 27 caused by disorders affecting the absorptive surface, function, length, 28 and motility of the gastrointestinal tract. Enteral, infant and baby 29 formulas that are medically necessary and taken under written order from 30 a physician for the treatment of specific diseases shall be distin-31 guished from nutritional supplements taken electively. Coverage for 32 certain inherited diseases of amino acid and organic acid metabolism as 33 well as severe protein allergic conditions shall include modified solid 34 food products that are low protein, contain modified protein, or are 35 amino acid based that are medically necessary. Coverage for infant and 36 baby formulas for any calendar year or any continuous period of twelve 37 months for any insured individual shall be no less than three thousand 38 dollars.
 - § 3. Subsection (y) of section 4303 of the insurance law, as amended by section 27 of subpart B of part J of chapter 57 of the laws of 2019, is amended to read as follows:
 - (y) Every contract that provides coverage for prescription drugs shall include coverage for the cost of enteral, infant and baby formulas for home use, whether administered orally or via tube feeding, for which a physician or other licensed health care provider legally authorized to prescribe under title eight of the education law has issued a written order. Such written order shall state that the enteral, infant and baby formula is clearly medically necessary and has been proven effective as a disease-specific treatment regimen. Specific diseases and disorders for which enteral, infant and baby formulas have been proven effective shall include, but are not limited to, inherited diseases of amino-acid or organic acid metabolism; Crohn's Disease; gastroesophageal reflux; disorders of gastrointestinal motility such as chronic intestinal pseudo-obstruction; and multiple, severe food allergies including, but not limited to immunoglobulin E and nonimmunoglobulin E-mediated allergies to multiple food proteins; severe food protein induced enterocolitis

syndrome; eosinophilic disorders; and impaired absorption of nutrients caused by disorders affecting the absorptive surface, function, length, and motility of the gastrointestinal tract. Enteral, infant and baby 4 formulas that are medically necessary and taken under written order from 5 a physician for the treatment of specific diseases shall be distin-6 guished from nutritional supplements taken electively. Coverage for 7 certain inherited diseases of amino acid and organic acid metabolism as 8 well as severe protein allergic conditions shall include modified solid 9 food products that are low protein, contain modified protein, or are 10 amino acid based that are medically necessary. Coverage for infant and 11 baby formulas for any calendar year or any continuous period of twelve 12 months for any insured individual shall be no less than three thousand 13 dollars.

§ 4. The opening paragraph of paragraph 25 of subsection (b) of section 4322 of the insurance law, as amended by chapter 388 of the laws of 2013, is amended to read as follows:

Prescription drugs, obtained at a participating pharmacy under a prescription written by an in-plan or out-of-plan provider, including contraceptive drugs or devices approved by the federal food and drug administration or generic equivalents approved as substitutes by such food and drug administration [and], nutritional supplements (formulas), whether administered orally or via a feeding tube for the therapeutic treatment of phenylketonuria, branched-chain ketonuria, galactosemia and homocystinuria[- obtained at a participating pharmacy under prescription written by an in-plan or out-of-plan provider] and infant and baby formulas for home use for which a physician or other licensed health care provider legally authorized to prescribe under title eight of the education law has issued a written order. Such written order shall state that the infant or baby formula is clearly medically necessary and has been proven effective as a disease-specific treatment regimen for those individuals who are or will become malnourished or suffer from disorders, which if left untreated, cause chronic physical disability, mental retardation or death. Specific diseases for which infant and baby formulas have been proven effective shall include, but are not limited to, inherited diseases of amino acid or organic acid metabolism; Crohn's Disease; gastroesophageal reflux with failure to thrive; disorders of gastrointestinal motility such as chronic intestinal pseudo-obstruction; and multiple, severe food allergies which if left untreated will cause malnourishment, chronic physical disability, mental retardation or death. Infant and baby formulas which are medically necessary and taken under written order from a physician for the treatment of specific diseases shall be distinguished from nutritional supplements taken electively. Coverage for infant and baby formulas for any calendar year or any continuous period of twelve months for any insured individual shall be no less than three thousand dollars. Health maintenance organizations, in addition to providing coverage for prescription drugs at a participating pharmacy, may utilize a mail order prescription drug program. Health maintenance organizations may provide prescription drugs pursuant to a drug formulary; however, health maintenance organizations must implement an appeals process so that the use of non-formulary prescription drugs may be requested by a physician or other provider.

§ 5. This act shall take effect on the first of January next succeeding the date on which it shall have become a law and shall apply to all policies and contracts issued, renewed, modified, altered, or amended on or after such date.
