STATE OF NEW YORK

1317

2023-2024 Regular Sessions

IN SENATE

January 11, 2023

Introduced by Sen. STEWART-COUSINS -- read twice and ordered printed, and when printed to be committed to the Committee on Rules

AN ACT to amend a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, in relation to the legislative intent of such chapter, and in relation to the effectiveness thereof; and to amend the environmental conservation law, in relation to disproportionate impacts of environmental facility siting on disadvantaged communities; and relating to the scope of certain provisions of the environmental conservation law and the authority of the commissioner of environmental conservation thereunder

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section 1 of a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows:

5 Section 1. Legislative intent. The legislature finds and declares that 6 each community in the state should equitably share the responsibilities, burdens, and benefits of managing and solving environmental health 7 8 issues and the state's environmental problems and the facilities necessary to accomplish such ends. The legislature further declares that 9 there has been an inequitable pattern in the siting of environmental 10 facilities in minority and economically distressed communities, which 11 12 have borne a disproportionate and inequitable share of such facilities. 13 As a result of the inequitable pattern in the siting of environmental 14 facilities, minority and economically distressed communities bear a 15 greater environmental health burden due to the cumulative pollution exposure from multiple facilities. Consistent with its commitment to 16 17 providing equal justice for its citizens, the state has a responsibility 18 to establish requirements for the consideration of such decisions by state and local governments in order to [insure equality of treatment] 19 20 ensure no community bears a disproportionate pollution burden, and to 21 actively reduce any such burden for all communities.

EXPLANATION--Matter in <u>italics</u> (underscored) is new; matter in brackets [-] is old law to be omitted.

LBD04225-01-3

S. 1317

1	§ 2. Section 8-0105 of the environmental conservation law is amended
2	by adding a new subdivision 10 to read as follows:
3	10. "Pollution" shall have the same meaning as defined by subdivision
4	nineteen of section 1-0303 of this chapter.
5	§ 3. Paragraphs (k) and (l) of subdivision 2 of section 8-0109 of the
6	environmental conservation law, as amended by a chapter of the laws of
7	2022 amending the environmental conservation law relating to the
8	location of environmental facilities, as proposed in legislative bills
9	numbers S. 8830 and A. 2103-D, are amended to read as follows:
10	(k) effects of any proposed action on disadvantaged communities,
11	including whether the action may cause or increase a disproportionate
12	pollution burden on a disadvantaged community; and
13	(1) such other information consistent with the purposes of this arti-
14	cle as may be prescribed in guidelines issued by the commissioner pursu-
15	ant to section 8-0113 of this chapter[; and
16	(1) effects of any proposed action on disadvantaged communities,
17	including whether the action may cause or increase a disproportionate or
18	inequitable or both disproportionate and inequitable pollution burden on
19	a disadvantaged community].
20	§ 4. The opening paragraph of subdivision 4 of section 8-0109 of the
21	environmental conservation law, as amended by a chapter of the laws of
22	2022 amending the environmental conservation law relating to the
23	location of environmental facilities, as proposed in legislative bills
24	numbers S. 8830 and A. 2103-D, is amended to read as follows:
25	As early as possible in the formulation of a proposal for an action,
26	the responsible agency shall make an initial determination as to whether
27	[or not] an environmental impact statement need be prepared for the
28	action. In making such determination for any proposed action [that is
29	not a minor project as defined in subdivision three of section 70-0105
30	of this chapter] the responsible agency shall consider whether such
31	action may cause or increase a disproportionate [or inequitable or both
32	disproportionate and inequitable] pollution burden on a disadvantaged
33	community that is directly or significantly indirectly affected by such
34	
35	action. When an action is to be carried out or approved by two or more
	agencies, such determination shall be made as early as possible after
36	agencies, such determination shall be made as early as possible after the designation of the lead agency.
37	agencies, such determination shall be made as early as possible after the designation of the lead agency. § 5. Subparagraph (i) of paragraph (c) of subdivision 2 of section
37 38	agencies, such determination shall be made as early as possible after the designation of the lead agency. § 5. Subparagraph (i) of paragraph (c) of subdivision 2 of section 8-0113 of the environmental conservation law, as amended by a chapter of
37 38 39	agencies, such determination shall be made as early as possible after the designation of the lead agency. § 5. Subparagraph (i) of paragraph (c) of subdivision 2 of section 8-0113 of the environmental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to
37 38 39 40	agencies, such determination shall be made as early as possible after the designation of the lead agency. § 5. Subparagraph (i) of paragraph (c) of subdivision 2 of section 8-0113 of the environmental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative
37 38 39 40 41	agencies, such determination shall be made as early as possible after the designation of the lead agency. § 5. Subparagraph (i) of paragraph (c) of subdivision 2 of section 8-0113 of the environmental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows:
37 38 39 40 41 42	agencies, such determination shall be made as early as possible after the designation of the lead agency. § 5. Subparagraph (i) of paragraph (c) of subdivision 2 of section 8-0113 of the environmental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows: (i) Actions or classes of actions that are likely to require prepara-
37 38 39 40 41 42 43	agencies, such determination shall be made as early as possible after the designation of the lead agency. § 5. Subparagraph (i) of paragraph (c) of subdivision 2 of section 8-0113 of the environmental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows: (i) Actions or classes of actions that are likely to require prepara- tion of environmental impact statements[, including actions which may
37 38 39 40 41 42 43 44	agencies, such determination shall be made as early as possible after the designation of the lead agency. § 5. Subparagraph (i) of paragraph (c) of subdivision 2 of section 8-0113 of the environmental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows: (i) Actions or classes of actions that are likely to require prepara- tion of environmental impact statements[, including actions which may cause or increase, either directly or indirectly, a disproportionate or
37 38 39 40 41 42 43 44 45	agencies, such determination shall be made as early as possible after the designation of the lead agency. § 5. Subparagraph (i) of paragraph (c) of subdivision 2 of section 8-0113 of the environmental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows: (i) Actions or classes of actions that are likely to require prepara- tion of environmental impact statements[, including actions which may gauge or ingrease, either directly or indirectly, a disproportionate or inequitable or both disproportionate and inequitable pollution burden on
37 38 39 40 41 42 43 44 45 46	agencies, such determination shall be made as early as possible after the designation of the lead agency. § 5. Subparagraph (i) of paragraph (c) of subdivision 2 of section 8-0113 of the environmental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows: (i) Actions or classes of actions that are likely to require prepara- tion of environmental impact statements[, including actions which may cause or increase, either directly or indirectly, a disproportionate or inequitable or both disproportionate and inequitable pollution burden on a disadvantaged community];
37 38 39 40 41 42 43 44 45 46 47	agencies, such determination shall be made as early as possible after the designation of the lead agency. § 5. Subparagraph (i) of paragraph (c) of subdivision 2 of section 8-0113 of the environmental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows: (i) Actions or classes of actions that are likely to require prepara- tion of environmental impact statements[, including actions which may gauge or increase, either directly or indirectly, a disproportionate or inequitable or both disproportionate and inequitable pollution burden on a disadvantaged community]; § 6. Paragraph (b) of subdivision 2 of section 8-0113 of the environ-
37 38 39 40 41 42 43 44 45 46 47 48	agencies, such determination shall be made as early as possible after the designation of the lead agency. § 5. Subparagraph (i) of paragraph (c) of subdivision 2 of section 8-0113 of the environmental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows: (i) Actions or classes of actions that are likely to require prepara- tion of environmental impact statements[, including actions which may cause or increase, either directly or indirectly, a disproportionate or inequitable or both disproportionate and inequitable pollution burden on a disadvantaged community]; § 6. Paragraph (b) of subdivision 2 of section 8-0113 of the environ- mental conservation law, as amended by a chapter of the laws of 2022
37 38 39 40 41 42 43 44 45 46 47 48 49	agencies, such determination shall be made as early as possible after the designation of the lead agency. § 5. Subparagraph (i) of paragraph (c) of subdivision 2 of section 8-0113 of the environmental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows: (i) Actions or classes of actions that are likely to require prepara- tion of environmental impact statements[, including actions which may gause or increase, either directly or indirectly, a disproportionate or inequitable or both disproportionate and inequitable pollution burden on a disadvantaged community]; § 6. Paragraph (b) of subdivision 2 of section 8-0113 of the environ- mental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of
37 38 39 40 41 42 43 44 45 46 47 48 49 50	agencies, such determination shall be made as early as possible after the designation of the lead agency. § 5. Subparagraph (i) of paragraph (c) of subdivision 2 of section 8-0113 of the environmental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows: (i) Actions or classes of actions that are likely to require prepara- tion of environmental impact statements[, including actions which may gause or increase, either directly or indirectly, a disproportionate or inequitable or both disproportionate and inequitable pollution burden on a disadvantaged community]; § 6. Paragraph (b) of subdivision 2 of section 8-0113 of the environ- mental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S.
37 38 39 40 41 42 43 44 45 46 47 48 49 50 51	agencies, such determination shall be made as early as possible after the designation of the lead agency. § 5. Subparagraph (i) of paragraph (c) of subdivision 2 of section 8-0113 of the environmental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows: (i) Actions or classes of actions that are likely to require prepara- tion of environmental impact statements[, including actions which may cause or increase, either directly or indirectly, a disproportionate or inequitable or both disproportionate and inequitable pollution burden on a disadvantaged community]; § 6. Paragraph (b) of subdivision 2 of section 8-0113 of the environ- mental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows:

Subparagraph (i) of paragraph (c) of subdivision 2 of section 8-0113 of the environmental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows: (i) Actions or classes of actions that are likely to require prepara- tion of environmental impact statements[, including actions which may cause or increase, either directly or indirectly, a disproportionate or inequitable or both disproportionate and inequitable pollution burden on a disadvantaged community]; § 6. Paragraph (b) of subdivision 2 of section 8-0113 of the environ- mental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows: (b) [(i)] Criteria for determining whether or not a proposed action</pre>
37 38 39 40 41 42 43 44 45 46 47 48 49 50 51 52 53	agencies, such determination shall be made as early as possible after the designation of the lead agency. § 5. Subparagraph (i) of paragraph (c) of subdivision 2 of section 8-0113 of the environmental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows: (i) Actions or classes of actions that are likely to require prepara- tion of environmental impact statements[, including actions which may cause or increase, either directly or indirectly, a disproportionate or inequitable or both disproportionate and inequitable pollution burden on a disadvantaged community]; § 6. Paragraph (b) of subdivision 2 of section 8-0113 of the environ- mental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows: (b) [(i)] Criteria for determining whether or not a proposed action may have a significant effect on the environment, taking into account
37 38 39 40 41 42 43 44 45 46 47 48 49 51 52 53 54	agencies, such determination shall be made as early as possible after the designation of the lead agency. § 5. Subparagraph (i) of paragraph (c) of subdivision 2 of section 8-0113 of the environmental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows: (i) Actions or classes of actions that are likely to require prepara- tion of environmental impact statements[, including actions which may cause or increase, either directly or indirectly, a disproportionate or inequitable or both disproportionate and inequitable pollution burden on a disadvantaged community]; § 6. Paragraph (b) of subdivision 2 of section 8-0113 of the environ- mental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows: (b) [(i)] Criteria for determining whether or not a proposed action may have a significant effect on the environment, taking into account social and economic factors to be considered in determining the signif-
37 38 39 40 41 42 43 44 45 46 47 48 49 50 51 52 53	agencies, such determination shall be made as early as possible after the designation of the lead agency. § 5. Subparagraph (i) of paragraph (c) of subdivision 2 of section 8-0113 of the environmental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows: (i) Actions or classes of actions that are likely to require prepara- tion of environmental impact statements[, including actions which may cause or increase, either directly or indirectly, a disproportionate or inequitable or both disproportionate and inequitable pollution burden on a disadvantaged community]; § 6. Paragraph (b) of subdivision 2 of section 8-0113 of the environ- mental conservation law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, is amended to read as follows: (b) [(i)] Criteria for determining whether or not a proposed action may have a significant effect on the environment, taking into account

increase a disproportionate pollution burden on a disadvantaged communi-1 2 ty; [(ii) Such criteria shall include consideration of the extent to which 3 proposed action may reasonably be expected to cause or increase a 4 5 disproportionate or inequitable or both disproportionate and inequitable б burden on disadvantaged communities; 7 § 7. Section 70-0118 of the environmental conservation law, as added 8 by a chapter of the laws of 2022 amending the environmental conservation 9 law relating to the location of environmental facilities, as proposed in 10 legislative bills numbers S. 8830 and A. 2103-D, is amended to read as 11 follows: 12 § 70-0118. Disproportionate impacts on disadvantaged communities. 13 1. For the purposes of this section: 14 (a) "Disadvantaged communities" shall have the same meaning as subdi-15 vision five of section 75-0101 of this chapter. (b) ["Existing burden report" shall mean the report required by this 16 17 section describing the existing pollution burden in a disadvantaged community. 18 2. When issuing] "Applicable permit" shall mean a permit [for any 19 project that is not a minor project as defined in subdivision three of 20 section 70-0105 of this article and that], excluding a general permit, 21 22 applied for pursuant to: 23 (i) title fifteen of article fifteen of this chapter for a facility withdrawing and using over twenty million gallons per day of water for 24 25 cooling purposes; 26 (ii) article seventeen of this chapter; 27 (iii) article nineteen of this chapter; 28 (iv) title seventeen of article twenty-three of this chapter; or 29 (v) title three, title seven, title nine or title eleven of article 30 twenty-seven of this chapter. 31 2. (a) When a new project subject to an applicable permit may [direct-32 ly or indirectly affect] cause or contribute more than a de minimis 33 amount of pollution to any disproportionate pollution burden on a disad-34 vantaged community, the department shall require the applicant to 35 prepare or cause to be prepared an existing burden report [and shall 36 consider such report in determining whether such project may cause or 37 contribute to, either directly or indirectly, a disproportionate or 38 inequitable or both disproportionate and inequitable pollution burden on 39 a disadvantaged community]. (b) In the case of an application for renewal or modification of an 40 applicable permit not subject to the provisions of paragraph (a) of this 41 subdivision which may cause or contribute more than a de minimis amount 42 43 of pollution to any disproportionate pollution burden on a disadvantaged community the department shall require the applicant to prepare or cause 44 to be prepared an existing burden report; provided, however that the 45 46 department may elect not to require such existing burden report if the 47 permit would serve an essential environmental, health, or safety need of 48 the disadvantaged community for which there is no reasonable alterna-49 tive. 50 (c) Notwithstanding the requirements of paragraphs (a) or (b) of this 51 subdivision, no existing burden report shall be required for an applica-52 tion for a renewal of a permit if an existing burden report has been 53 prepared with respect to such permit within the previous ten years. 54 3. [No permit shall be approved or renewed by the department if it may 55 cause or contribute to, either directly or indirectly, a dispropor-56 tionate or inequitable or both disproportionate and inequitable

S. 1317

pollution burden on a disadvantaged community.] (a) When considering an 1 application for an applicable permit, the department shall consider the 2 existing burden report, if any, and an administrative record that 3 includes, but is not limited to, comments received from the public in 4 5 the disadvantaged community. 6 (b) The department shall not issue an applicable permit for a new 7 project if it determines that the project will cause or contribute more 8 than a de minimis amount of pollution to a disproportionate pollution 9 burden on the disadvantaged community. 10 (c) In the case of an application for a modification of an applicable 11 permit, the department shall not issue an applicable permit if it deter-12 mines that the issuance of the permit would significantly increase the existing disproportionate pollution burden on the disadvantaged communi-13 14 ty. 15 (d) In the case of an application for renewal of an applicable permit, the department shall not issue an applicable permit if it determines 16 17 that the project would significantly increase the existing disproportionate pollution burden on the disadvantaged community. 18 4. The department shall require actions to implement any appropriate 19 20 operational changes which would reduce the pollution burden on the 21 disadvantaged community as a condition of an applicable permit, only if 22 such actions are reasonable and practicable, as determined by the 23 department. 5. The department, in consultation with the department of health, 24 25 shall develop the scope of the existing burden report and may adapt such requirements based on whether a permit application is for a new project, 26 27 modification, or a renewal of a permit. The department shall provide for at least a thirty-day public comment period prior to finalizing the 28 29 scope of the report. The report shall provide for an assessment of the 30 following information: 31 (a) relevant baseline data on existing burdens, including from rele-32 vant criteria used to designate the particular disadvantaged communities 33 pursuant to subdivision one of section 75-0111 of this chapter; (b) the environmental or public health stressors already borne by the 34 35 disadvantaged community as a result of existing conditions located in or 36 affecting the disadvantaged community; 37 (c) the potential or projected contribution of the proposed action to existing pollution burdens in the community; and 38 39 (d) existing and potential benefits of the project to the community including increased housing supply, or alleviation of existing pollution 40 burdens that may be provided by the project, including operational 41 42 changes to the project that would reduce the pollution burden on the 43 disadvantaged community. § 8. Subdivision 1 of section 70-0107 of the environmental conserva-44 45 tion law, as amended by a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental 46 47 facilities, as proposed in legislative bills numbers S. 8830 and A. 48 2103-D, is amended to read as follows: The department, after public hearing, shall adopt rules and regu-49 1. 50 lations to assure the efficient and expeditious administration of this 51 article. Such rules and regulations shall include but not be limited to 52 provisions regarding notice, review, public participation and public hearings. [Such rules and regulations shall also include the form and 53 54 content of an existing burden report which shall, at a minimum, include baseline monitoring data collected in the affected disadvantaged commu-55 56 nity within two years of the application for a permit or approval and

S. 1317

shall identify: (a) each existing pollution source or categories of 1 sources affecting a disadvantaged community and the potential routes of 2 3 human exposure to pollution from that source or categories of sources; 4 (b) ambient concentration of regulated air pollutants and regulated or 5 unregulated toxic air pollutants; (c) traffic volume; (d) noise and б odor levels; (c) exposure or potential exposure to lead paint; (f) expo-7 sure or potential exposure to contaminated drinking water supplies; (g) 8 proximity to solid or hazardous waste management facilities, wastewater 9 treatment plants, hazardous waste sites, incinerators, recycling facilities, waste transfer facilities and petroleum or chemical manufac-10 turing, storage, treatment or disposal facilities; (h) the potential or 11 12 documented cumulative human health effects of the foregoing pollution sources; (i) the potential or projected contribution of the proposed 13 14 action to existing pollution burdens in the community and potential health effects of such contribution, taking into account existing 15 pollution burdens.] 16 17 § 9. Section 9 of a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facil-18 ities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, 19 20 is amended to read as follows: 21 § 9. This act shall take effect [on the one hundred eightieth day] <u>two</u> 22 years after it shall have become a law [+ provided that gection three of this act shall not apply to any person who has received an initial 23 determination pursuant to subdivision 4 of section 8-0109 of the envi-24 25 ronmental conservation law prior to such date and provided further that section five of this act shall not apply to any determination of signif-26 27 icance made prior to such date]. 28 § 10. No addition or amendment made to the environmental conservation 29 law under this act or under a chapter of the laws of 2022 amending the 30 environmental conservation law relating to the location of environmental 31 facilities, as proposed in legislative bills numbers S. 8830 and A. 32 2103-D, shall limit the existing authority of any state entity to deny 33 or condition permits, licenses, or other administrative approvals. 34 § 11. No addition or amendment made to the environmental conservation

35 law under this act or under a chapter of the laws of 2022 amending the 36 environmental conservation law relating to the location of environmental 37 facilities, as proposed in legislative bills numbers S. 8830 and A. 38 2103-D, shall relieve any person from compliance with any other require-39 ment to not disproportionately burden disadvantaged communities as iden-40 tified pursuant to section 75-0111 of the environmental conservation 41 law.

§ 12. The commissioner of environmental conservation is authorized and directed to promulgate rules and regulations in accordance with subdivision one of section 70-0107 of the environmental conservation law to effectuate the provisions of this act and a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D.

§ 13. This act shall take effect immediately; provided, however that sections one, two, three, four, five, six, seven, eight, ten, eleven and twelve of this act shall take effect on the same date and in the same manner as a chapter of the laws of 2022 amending the environmental conservation law relating to the location of environmental facilities, as proposed in legislative bills numbers S. 8830 and A. 2103-D, takes effect.
