(b) To meet the goal set forth in this subdivision, when a state agency's contract for the purchase of food or food products is to be awarded to the lowest responsible bidder, an otherwise qualified bidder who will fulfill the contract through the use of New York state food products may be given preference over other bidders, provided that the cost included in the bid of New York state food products is not more than ten percent greater than the cost included in a bid that is not for New York state food products.

3. The provisions of this section shall not apply if the head of the contracting state agency purchasing food or food products, in his or her sole discretion, determines that: (a) purchasing New York state food or food products pursuant to the provisions in subdivision one of this section would be against the public interest; (b) purchasing New York state food or food products would increase the cost of the contract by an unreasonable amount; (c) New York state food products cannot be obtained in sufficient and reasonable available quantities and of satisfactory quality to meet the contracting state agency's requirements; or (d) purchasing food or food products grown, harvested, or produced outside of this state, or food processed in facilities inside or outside of this state comprising less than fifty-one percent agricultural raw materials grown, harvested, or produced in this state, by weight or volume, is necessary to avoid a delay in the delivery of food or food products.

4. Nothing in this section shall be construed to conflict with or otherwise limit the goals and requirements set forth by section one hundred sixty-two of the this article and articles fifteen-A and seventeen-B of the executive law. Any contracts meeting the goals and requirements set forth by this section, in addition to requirements set forth by section one hundred sixty-two of this article and/or articles fifteen-A and seventeen-B of the executive law, shall be counted toward all applicable goals and requirements it may satisfy.

The commissioner, in conjunction with the commissioner of agriculture and markets shall periodically, but no later than every three years, review the New York state food and food product goals and requirements set forth by subdivision two of this section, and shall issue a joint recommendation suggesting any changes in such goals and requirements deemed necessary. Such recommendation shall be submitted to the governor, the temporary president of the senate, and the speaker of the assembly.
