1 § 441. Preemption of local laws. The provisions of this article shall
2 apply to all municipalities, including cities with a population of one
3 million or more, and shall supersede any local law, rule, regulation or
4 ordinance regulating or licensing breeders. Nothing in this section
5 shall be construed to limit or restrict any municipality from enforcing
6 any local law, rule, regulation or ordinance of general application to
7 businesses governing public health, safety or the rights of consumers.

8 § 442. Minimum standards of animal care. Breeders shall comply with
9 the following minimum standards of care for every animal in their custo-
10 dy or possession.

11 1. Housing. (a) Animals shall be housed in primary enclosures or
12 cages, which shall be constructed so as to be structurally sound. Such
13 enclosures shall be maintained in good repair to contain the animal
14 housed inside and protect it from injury. Surfaces shall have an imper-
15 vious surface so as not to permit the absorption of fluids and which can
16 be thoroughly and repeatedly cleaned and disinfected without retaining
17 odors.

18 (b) Primary enclosures or cages housing the animals shall provide
19 sufficient space to allow each animal adequate freedom of movement to
20 make normal postural adjustments, including the ability to stand up,
21 turn around, and lie down with its limbs outstretched. If the flooring
22 is constructed of metal strands, such strands shall either be greater
23 than one-eighth inch in diameter (nine gauge wire) or shall be coated
24 with material such as plastic or fiberglass, and shall be constructed so
25 as to not allow passage of the animal's feet through any opening in the
26 floor of the enclosure. Such flooring shall not sag or bend substantial-
27 ly between structural supports.

28 (c) Housing facilities shall be adequately ventilated at all times to
29 provide for the health and well-being of the animal. Ventilation shall
30 be provided by natural or mechanical means, such as windows, vents,
31 fans, or air conditioners. Ventilation shall be established to minimize
32 drafts, odors, and moisture condensation.

33 (d) The temperature surrounding the animal shall be compatible with
34 the health and well-being of the animal. Temperature shall be regulated
35 by heating and cooling to sufficiently protect each animal from extremes
36 of temperature and shall not be permitted to fall below or rise above
37 ranges which would pose a health hazard to the animal. This shall
38 include supplying shade from sunlight by natural or artificial means.

39 (e) The indoor facilities housing the animals shall be provided with
40 adequate lighting sufficient to permit routine inspection and cleaning
41 and be arranged so that each animal is protected from excessive illumi-
42 nation which poses a health hazard to the animal.

43 (f) The indoor and outdoor facilities housing the animals, including
44 the primary enclosure or cage, shall be designed to allow for the effi-
45 cient elimination of animal waste and water in order to keep the animal
46 dry and prevent the animal from coming into contact with these
47 substances. If drains are used they shall be constructed in a manner to
48 minimize foul odors and backups of sewage. If a drainage system is used
49 it shall comply with federal, state and local laws relating to pollution
50 control.

51 (g) In the event that a breeder has a pregnant or nursing dog on his
52 or her premises, the breeder shall provide a whelping box for such dog.

53 2. Sanitation. Housing facilities, including primary enclosures and
54 cages, shall be kept in a clean condition in order to maintain a healthy
55 environment for the animal. This shall include removing and destroying
56 any agents injurious to the health of the animal and periodic cleaning.

The primary enclosure or cage shall be constructed so as to eliminate excess water, excretions, and waste material. Under no circumstances shall the animal remain inside the primary enclosure or cage while it is being cleaned with sterilizing agents or agents toxic to animals or cleaned in a manner likely to threaten the health and safety of the animal. Trash and waste products on the premises shall be properly contained and disposed of so as to minimize the risks of disease, contamination, and vermin.

3. Feeding and watering. (a) Animals shall be provided with wholesome and palatable food, free from contamination and of nutritional value sufficient to maintain each animal in good health.

(b) Animals shall be adequately fed at intervals not to exceed twelve hours or at least twice in any twenty-four hour period in quantities appropriate for the animal species' age, unless determined otherwise by and under the direction of a duly licensed veterinarian.

(c) Food receptacles shall be provided in sufficient number, of adequate size, and so located as to enable each animal in the primary enclosure or cage to be supplied with an adequate amount of food.

(d) Animals shall be provided with regular access to clean, fresh water, supplied in a sanitary manner sufficient for its needs, except when there are instructions from a duly licensed veterinarian to withhold water for medical reasons.

4. Handling. Each animal shall be handled in a humane manner so as not to cause the animal physical injury or harm.

5. Veterinary care. (a) All animals shall be inoculated as required by state or local law. Veterinary care appropriate to the species shall be provided without undue delay when necessary. Each animal shall be observed each day by the breeder or by a person working under the breeder's supervision.

(b) If an animal suffers from a congenital or hereditary condition, disease or illness which, in the professional opinion of the breeder's veterinarian, requires euthanasia, the veterinarian shall humanely euthanize such animal without undue delay.

(c) In the event an animal is returned to a breeder due to a congenital or hereditary condition, illness, or disease requiring veterinary care, the breeder shall, without undue delay, provide the animal with the proper veterinary care.
