44 § 5. This act shall take effect immediately.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would provide an increase in the defined benefit cost-of-living adjustment (COLA) for New York public retirement systems. Starting with a payment in September 2025, the cost-of-living benefit payable to a surviving spouse who is eligible for COLA will be increased from fifty percent to one hundred percent of the benefit that the pensioner would have received.

Insofar as this bill affects the New York State and Local Employees' Retirement System (NYSLERS), pursuant to Section 25 of the Retirement and Social Security Law, the increased costs would be borne entirely by the State of New York and would require an itemized appropriation sufficient to pay the cost of the provision. If this bill were enacted during

the 2024 Legislative Session, the increase in the present value of benefits would be approximately \$1.7 billion.

In the NYSLERS, this benefit improvement will be funded by (1) billing a past service cost to cover retrospective benefit increases and (2) increasing the billing rates charged annually to cover prospective benefit increases, as follows:

(1) To fund retrospective costs, the State of New York will be required to pay \$1.82 billion (including interest) as of March 1, 2025.

(2) To fund prospective costs, the annual contribution required of all participating employers in NYSLERS is 0.03% of billable salary, or approximately \$4.4 million to the State of New York and approximately \$6.6 million to the local participating employers. This permanent annual cost will vary in subsequent billing cycles with changes in the billing rate and salary of the affected members.

Insofar as this bill affects the New York State and Local Police and Fire Retirement System (NYSLPFRS), the increased costs would be shared by the State of New York and the local participating employers in the NYSLPFRS. If this bill were enacted during the 2024 Legislative Session, the increase in the present value of benefits would be approximately \$180 million.

	NYSLPFRS	Increase in present value benefits	Increase in required contributions
Tiers 1-5		\$173 million	\$86 million
Tier 6		\$7 million	\$94 million
Total		\$180 million	\$180 million

In the NYSLPFRS, this benefit improvement will be funded by increasing the billing rates charged annually to cover both retrospective and prospective benefit increases. The annual contribution required of all participating employers in NYSLPFRS is 0.4% of billable salary, or approximately \$3.4 million to the State of New York and approximately \$14 million to the local participating employers. This permanent annual cost will vary in subsequent billing cycles with changes in the billing rate and salary of the affected members.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

As it relates to the New York State Teachers' Retirement System, this bill would amend subdivision g of Section 532-a of the Education Law to increase the cost-of-living adjustment (COLA) benefit to surviving spouse beneficiaries of deceased retirees who elected an option which provides a lifetime benefit to their surviving spouse. The COLA survivor benefit would be equal to 100% of the monthly benefit which the retiree would be receiving if alive. The current COLA survivor benefit is equal to 50% of the benefit the retiree would be receiving if alive. This increase in spousal survivor benefit would also be applicable to the "catch-up" supplementation provided under subdivision f to eligible retirees who retired before January 1, 1997. This benefit improvement would be effective in September of 2025.

The annual cost to the employers of members of NYSTRS for this benefit is estimated to be \$42.0 million or 0.22% of payroll if this bill is enacted.

Member data is from the System's most recent actuarial valuation files as of June 30, 2023, consisting of data provided by the employers to the Retirement System. The most recent data distributions and statistics can be found in the System's Annual Report for fiscal year ended June 30, 2023. FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

SUMMARY: This proposed legislation, as it relates to the New York City Retirement Systems and Pension Funds (NYCRS), would increase the Cost-of-Living Adjustment (COLA), effective September 1, 2025, to an eligible surviving spouse from 50% to 100% of the COLA the pensioner would be receiving if still alive.

IMPACT ON MEMBER BENEFITS: The surviving spouse of a deceased retired member who retired under an option which provides that benefits are to be continued for life to the surviving spouse after the death of the retired member is currently entitled to receive a COLA equal to 50% of the COLA the pensioner would be receiving if living. This proposed legislation would change from 50% to 100% the percentage of COLA a surviving spouse receives after the death of the retired member.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement systems. In addition:

* Assumptions for active members electing a form of pension at retirement that would continue a payment to a surviving spouse (ranging from 15% to 30%) were made based on the distribution of current elections and an estimate of future elections.

* New entrants were assumed to replace exiting members so that total payroll increases by 3% each year for impacted groups. New entrant demographics were developed based on data for recent new hires and actuarial judgement.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions, methods, and models used, demographics of the impacted population; and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits). This Fiscal Note does not reflect any chapter laws that may have been enacted during the current legislative session.

STATEMENT OF ACTUARIAL OPINION: Marek Tyszkiewicz and Gregory Zelikovsky are members of the Society of Actuaries and the American Academy of Actuaries. We are members of NYCERS but do not believe it impairs our objectivity and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. To the best of our knowledge, the results contained herein have been prepared in accordance with generally accepted actuarial principles and procedures and with the Actuarial Standards of Practice issued by the Actuarial Standards Board.

FISCAL NOTE IDENTIFICATION: This Fiscal Note 2024-74 dated June 5, 2024 was prepared by the Chief Actuary for the New York City Retirement Systems and Pension Funds. This estimate is intended for use only during the 2024 Legislative Session.
