FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would change the benefit fraction for a Tier 6 Article 15
member for service greater than 20 years to 40% of FAS plus 2% per year
of service greater than 20. Currently the benefit for service greater
than 20 years is 35% of FAS plus 2% per year of service greater than 20.

Insofar as this bill affects the New York State and Local Employees'
Retirement System (NYSLERS), increased costs would be shared by the
State of New York and all participating employers in the NYSLERS. If
this bill is enacted during the 2023 legislative session, there will be
an increase in the present value of future costs of approximately \$1.41
billion.

NYSLERS	Increase in present value benefits	Increase in future contributions
Tiers 1 - 5	\$0	\$280 million
Tier 6	\$1.41 billion	\$1.13 billion
Total	\$1.41 billion	\$1.41 billion

In the NYSLERS, this benefit improvement will be funded by increasing the billing rates charged annually. The annual contribution required of all participating employers in the NYSLERS is approximately 0.5% of billable salary, or approximately \$61 million to the State of New York and \$89 million to the local participating employers in the fiscal year ending March 31, 2025. This permanent annual cost will vary in subsequent billing cycles with changes in the billing rate and salary of the affected members.

Membership data as of March 31, 2022 was used in measuring the impact of the proposed change, the same data used in the April 1, 2022 actuarial valuation. Distributions and other statistics can be found in the 2022 Report of the Actuary and the 2022 Annual Comprehensive Financial Report.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would amend Section 604 of the Retirement and Social Security Law to improve the retirement benefit formula for Tiers 5 and 6 members of the New York State Teachers' Retirement System. The Tier 5 benefit formula would match the Tier 4 formula with eligibility for the 2.0% multiplier at 20 years of service instead of 25 years as it is currently. The retirement benefit formula for Tier 6 members with 20 or more years of service would be 40% of final average salary plus 2% for each year of service in excess of 20 years. Currently, the benefit formula for Tier 6 members with 20 or more years of service is 35% of final average salary plus 2% for each year of service in excess of 20 years.

The annual cost to the employers of members of the New York State Teachers' Retirement System for this benefit is estimated to be \$60.3 million or 0.33% of payroll if this bill is enacted.

The System's "new entrant rate", a hypothetical employer contribution rate that would occur if we started a new Retirement System without any assets, is equal to 5.15% of pay under the current Tier 6 benefit structure. This can be thought of as the long-term expected employer cost of Tier 6, based on the current actuarial assumptions. For the proposed change to the Tier 6 benefit structure under this bill, this new entrant

rate is estimated to increase to 5.84% of pay, an increase of 0.69% of pay.

Member data is from the System's most recent actuarial valuation files, consisting of data provided by the employers to the Retirement System. Data distributions and statistics can be found in the System's Annual Report. System assets are as reported in the System's financial statements and can also be found in the System's Annual Report. Actuarial assumptions and methods are provided in the System's Actuarial Valuation Report.
