IMPACT ON MEMBER BENEFITS: This proposed legislation would provide to NYCERS correction officers who continue to work beyond their earliest service retirement eligibility date a lump sum DROP payment consisting of the annual COVSF payment each year beyond the later of their earliest service retirement date or January 1, 2024 (i.e., the COVSF payments the retiree would have received if he or she had retired at his or her earliest service retirement eligibility date or January 1, 2024, whichever is later) without any adjustment for interest.

The DROP would not apply to deaths or to disability retirement, even if those events occur after the earliest service retirement eligibility date.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement systems. In addition:

\* New entrants were assumed to replace exiting members so that total payroll increases by 3% each year for impacted groups. New entrant demographics were developed based on data for recent new hires and actuarial judgement.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions, methods, and models used, demographics of the impacted population, and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits).
