FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would amend subdivision 11 of Section 503 of the Education Law to allow a retired member of the New York State Teachers' Retirement System (NYSTRS), who returns to active service and suspends their pension benefit, to elect to combine their service credit earned prior to their retirement with the service credit earned after their restoration to active service, provided they have earned at least two years of service credit since restoration and they pay back their prior pension received or have the new benefit reduced for life based upon the actuarial equivalent of the prior pension received. Current law requires five years of service credit since restoration to combine all service credit

into one pension benefit. State employees and other members of the New York State and Local Retirement System (NYS&LRS) are eligible to combine their service credit after earning two years of service credit after restoration. This bill would make this eligibility the same for teachers as it is for state employees. This bill would take effect on the sixtieth day after it shall become a law.

The annual cost to the employers of members of the New York State Teachers' Retirement System would be negligible if this bill is enacted.

Member data is from the System's most recent actuarial valuation files, consisting of data provided by the employers to the Retirement System. Data distributions and statistics can be found in the System's Annual Report. System assets are as reported in the System's financial statements and can also be found in the System's Annual Report. Actuarial assumptions and methods are provided in the System's Actuarial Valuation Report.
