AN ACT making appropriations for the support of government

AID TO LOCALITIES BUDGET

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. a) The several amounts specified in this chapter for aid to localities, or so much thereof as shall be sufficient to accomplish the purposes designated by the appropriations, are hereby appropriated and authorized to be paid as hereinafter provided, to the respective public officers and for the several purposes specified.

b) Where applicable, appropriations made by this chapter for expenditures from federal grants for aid to localities may be allocated for spending from federal grants for any grant period beginning, during, or prior to, the state fiscal year beginning on April 1, 2024 except as otherwise noted.

c) The several amounts named herein, or so much thereof as shall be sufficient to accomplish the purpose designated, being the undisbursed and/or unexpended balances of the prior year's appropriations, are hereby reappropriated from the same funds and made available for the same purposes as the prior year's appropriations, unless herein amended, for the fiscal year beginning April 1, 2024. Certain reappropriations in this chapter are shown using abbreviated text, with three leader dots (an ellipsis) followed by three spaces (... ) used to indicate where existing law that is being continued is not shown. However, unless a change is clearly indicated by the use of brackets [ ] for deletions and underscores for additions, the purposes, amounts, funding source and all other aspects pertinent to each item of appropriation shall be as last appropriated.

EXPLANATION--Matter in italics (underscored) is new; matter in brackets [ ] is old law to be omitted.
For the purpose of complying with the state finance law, the year, chapter and section of the last act reappropriating a former original appropriation or any part thereof is, unless otherwise indicated, chapter 53, section 1, of the laws of 2023.

d) No moneys appropriated by this chapter shall be available for payment until a certificate of approval has been issued by the director of the budget, who shall file such certificate with the department of audit and control, the chairperson of the senate finance committee and the chairperson of the assembly ways and means committee.

e) Notwithstanding any provision of law to the contrary, for purposes of any appropriation made by this chapter which authorizes spending in an amount net of refunds, rebates, reimbursements, credits, repayments, and/or disallowances, "refunds" shall mean funds received to the state resulting from the overpayment of monies, "rebates" shall mean funds received to the state resulting from a return of a full or partial amount previously paid, as for goods or services, serving as a reduction, discount or rebate to the original payment amount, "reimbursements" shall mean funds received to the state as repayment in an equivalent amount for goods or services, including but not limited to personal service costs, incurred by the state in the first instance being provided to a third party for their benefit and partially or in full financed by such third party, "credit" shall mean monies made available to the state that reduce the amount owed to a third party, including but not limited to billing errors, rebates, and prior overpayments, "repayment" shall mean the return of monies as pay back for expenses incurred, and "disallowance" shall mean monies made available to the state that were not allowed or accepted officially by the intended recipient, based on a determination the payment is not acceptable and/or valid. When the office of the state comptroller receives any such refunds, rebates, reimbursements, credits, repayments, and/or disallowances, he or she shall credit the refunded, rebated, reimbursed, credited, repaid, and disallowed amount back to the original appropriation and reduce expenditures in the year which such credit is received regardless of the timing of the initial expenditure.

f) Notwithstanding any provision of law to the contrary, upon enactment of the laws of 2024 containing the aid to localities budget bill for the state fiscal year 2024-2025, all appropriations and reappropriations contained in chapter 53 of the laws of 2023, which would otherwise lapse by operation of law on March 31, 2025 are hereby repealed.

Notwithstanding any provision of law to the contrary, funds not other-

(3) The "modified EN index" shall be equal to the modified EN percent
divided by the statewide average modified EN percent, provided that

percent shall be equal to 0.5565.
(4) The "modified EN percent" shall be equal to the modified EN count

(5) The "modified EN count" shall equal the sum of (a) the product of 0.5 multiplied by the English language learner count computed pursuant to paragraph o of subdivision 1 of section 3602 of education law, plus (b) the sparsity count computed pursuant to paragraph r of subdivision 1 of section 3602 of education law, plus (c) the product of 0.65 multiplied by the 3-year average small area income and poverty estimate rate computed pursuant to paragraph mm of subdivision 1 of section 3602 of education law and multiplied further by public school district enrollment for the base year as computed pursuant to paragraph n of subdivision 1 of section 3602 of education law, plus (d) the product of 0.65 multiplied by the 3-year average economically disadvantaged rate defined pursuant to paragraph ll of subdivision 1 of section 3602 of education law and multiplied further by public school district enrollment for the base year as computed pursuant to paragraph n of subdivision 1 of section 3602 of education law.

Provided further that districts receiving learning loss grants shall use (a) 14.286 percent of such grants for implementation of evidence-based summer enrichment programs; (b) 14.286 percent for implementation of evidence-based comprehensive after-school programs; and (c) the remaining funds for activities to address learning loss by supporting the implementation of evidence-based interventions, such as summer learning or summer enrichment, extended day, comprehensive afterschool programs, or extended school year programs. Grantees awarded funds from this appropriation shall comply with all of the same rules and requirements as the universal prekindergarten programs pursuant to section 3602-e of education law. Provided further that, for purposes of this appropriation:

(1) For eligible school districts, the preliminary slot count shall be equal to the positive difference of (1) the product of 0.3504 and unserved 4-year-old prekindergarten pupils calculated pursuant to subparagraph iv of paragraph b of subdivision 10 of section 3602-e of education law less (2) the sum of (a) full day 4-year-old prekindergarten pupils served in the 2019-20 school year served pursuant to section 3602-e of education law plus (b) students served in full-
day prekindergarten programs funded by grants pursuant to section 3602-ee of education law in the 2019-20 school year. If such preliminary slot count is less than 10, the expansion slots shall be 0; if such preliminary slot count is greater than or equal to 10 but less than 20, the expansion slots shall be 20; for all other eligible districts, the expansion slots shall equal the preliminary slot count.

(2) For the 2021-22 school year, school districts shall be eligible for a grant amount if (1) the combined wealth ratio computed pursuant to subparagraph 1 of paragraph c of subdivision 3 of section 3602 of education law is less than 2.0 and (2) the quotient arrived at when dividing (i) the sum of (a) full day and half day 4-year-old prekindergarten pupils served in the 2019-20 school year served pursuant to section 3602-e of education law plus (b) students served in full-day prekindergarten programs funded by grants pursuant to section 3602-ee of education law in the 2019-20 school year by (ii) unserved four-year-old prekindergarten pupils calculated pursuant to subparagraph iv of paragraph b of subdivision 10 of section 3602-e of education law is less than 0.5.

(3) Maintenance of Effort. Where a school district serves fewer 4-year-old prekindergarten pupils in full-day programs funded by the Full-day 4-year-old universal prekindergarten expansion pursuant to this appropriation than the number of expansion slots as defined in this appropriation, the school district shall have its current year Full-day 4-year-old universal prekindergarten expansion payment reduced to an amount equal to the product of (i) the Full-day 4-year-old universal prekindergarten expansion multiplied by (ii) the quotient of 4-year-old prekindergarten pupils served in programs funded by the Full-day 4-year-old universal prekindergarten expansion divided by the number of expansion slots. Provided that funds provided pursuant to this appropriation shall only be used to supplement and not supplant current local expenditures of state or local funds on prekindergarten programs.

(4) Notwithstanding any inconsistent provision of law, for the purposes of determining the prekindergarten allocation on the electronic data file prepared by the commissioner pursuant to subdivision 21 of section 305 of education law for the 2021-22 school year, the commissioner is directed to include the grant amounts awarded pursuant to this appropriation in the amount set forth for such school district as "UNIVERSAL PRE-KINDERGARTEN."

section 1, of the laws of 2023:
For services and assistance to nonpublic schools through the emergency assistance to nonpublic schools program, funded through the coronavirus response and relief supplemental appropriations act, 2021, P.L. 116-260 ("CRRSA act").

Notwithstanding any inconsistent provision of law, funds appropriated herein shall be available subject to a plan developed by the commissioner of education and approved by the director of the budget. Provided that such plan shall comport with any minimum federal requirements for the expenditure of such funds and shall include at a minimum (1) an allocation methodology which shall consider total student enrollment, low-income student enrollment, and the degree to which each school seeking services and assistance through this program has been impacted by the COVID-19 pandemic, and (2) application materials to be completed by schools seeking services and assistance through this program.

Provided that prior to development of such plan, the state education department shall require nonpublic schools to submit a notice of intent to seek services and assistance through this program, based on a form developed by the commissioner of education and approved by the director of the budget. Initial allocations shall be determined based on notices of intent submitted by nonpublic schools, and only those schools that submit such notice shall be eligible for an allocation. In the event that not all schools that submitted a notice of intent submit an application by the deadline established in such plan, allocations may be revised based on the approved allocation methodology after all applications are received.

Notwithstanding any inconsistent provision of law, rule, or regulation, the state education department shall be authorized to reimburse each participating eligible nonpublic school for approved expenses of any eligible services or assistance requested by the school, and to provide eligible services or assistance to a nonpublic school either directly or through one or more non-competitive agreements, subject to the approval of the director of the budget, provided that any services and assistance purchased by the state education department on behalf of a nonpublic school through this program shall be exempt from the requirements of sections 112 and 163 of the state finance law, and section 142 of the economic development law.

Notwithstanding any inconsistent provision of law, rule or regulation, subject to the approval of the director of the budget, a portion of this appropriation may be interchanged with any other appropriation within the education stabilization fund to accomplish the intent of the CRRSA act, or to any other program or fund within the state education department for purposes of administration of this program, provided that within amounts transferred for program administration, a portion may be used to enter into non-competitive contracts with one or more boards of cooperative educational services to assist the state education department in administering this program, provided that such noncompetitive contracts shall be exempt from the requirements of sections 163 and 112 of the state finance law and section 142 of the economic development law, and provided further that any eligible services or assistance provided to a nonpublic school by
any board of cooperative educational services or through a thirdpar-
yy contractor with a board of cooperative educational services
shall, due to the tight time constraints established under federal
law to enter into such contracts for services and/or assistance, if
deemed necessary by any board of cooperative educational services,
be provided pursuant to a non-competitive contract and such non-com-
petitive contract shall be exempt from the requirements of sections
112 and 163 of the state finance law, section 142 of the economic
development law, and sections 103, 104, 104-a, and 104-b of the
general municipal law.

Provided further that, notwithstanding any inconsistent provision of
law, rule, or regulation, any unobligated funds that revert from the
emergency assistance to nonpublic schools program to the governor's
emergency education relief fund, as authorized by the federal
department of education, shall be made available to provide support
to nonpublic schools in preventing, preparing for, and responding to
the COVID-19 public health emergency pursuant to a plan developed by
the commissioner of education and approved by the director of the
budget. Provided that such funds shall not be used to provide goods
or services that have already been reimbursed or provided through
another state or federal program, and provided further that the
state's liability shall be limited to the total amount of governor's
emergency education relief funds available for such purpose. Funds
appropriated herein shall be subject to all applicable federal
reporting and accountability requirements (23339) .................

Notwithstanding any inconsistent provision of law, funds appropriated
herein shall be available subject to a plan developed by the commis-
sioner of education and approved by the director of the budget.

Provided that such plan shall comport with any minimum federal
requirements for the expenditure of such funds and shall include at
a minimum (1) an allocation methodology which, to the extent permi-
ted by federal law, shall consider total student enrollment, low-in-

Notwithstanding any inconsistent provision of law, the amount appropriated herein, shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents placed in residential programs operated by authorized agencies and in out-of-state residential programs; for the provision and administration of the kinship guardian assistance program including kinship guardianship assistance payments and payments for non-recurring guardianship expenses and eligible expenditures associated with local compliance with the federal Family First Prevention Services Act (P.L. 115-123); except that, reimbursement from the amount appropriated herein shall not be available for tuition expenditures for foster children, including persons in need of supervision and adjudicated juvenile delinquents, made by a social services district located within a city having a population of one million or more.
Notwithstanding any other provision of law,
a portion of the funds are available to
reimburse social services districts for
the change in the maximum state aid rates
established by the office of children and
family services for the 2024-25 rate year
pursuant to section 398-a of the social
services law and sections 4003 and 4405 of
the education law to reflect the continuation of the cost of living adjustments
that became effective April 1, 2008 for
payments made to foster parents and for
salary and fringe benefit costs and other
critical nonpersonal services costs for
foster care programs as determined by the
office. Social services districts must
adjust the amount of payments made for
care provided by congregate care and
foster boarding home programs and to
foster parents to reflect the cost of
living adjustments in the manner specified
by the office. Each authorized agency
operating a congregate care or foster
boarding home program in New York state
for which the office sets a maximum state
aid rate pursuant to section 398-a of the
social services law or section 4003 or
4405 of the education law shall submit, at
the time and in a manner to be determined
by the office, a written certification,
attesting that the funds received for the
continuation of the cost of living adjustment
to the maximum state aid rate that
became effective April 1, 2008 for that
program will be or were used solely in
accordance with the requirements of the
cost of living adjustment established by
the office.

Notwithstanding any inconsistent provision
of law including, but not limited to, any
chapter of the laws of 2024 which enacts a
cost of living adjustment for the state
fiscal year beginning on April 1, 2024,
the commissioner shall continue to apply
any cost of living adjustment increase in
effect on March 31, 2024 for the entire
rate year that began when such cost of
living adjustment increase was in effect.
Notwithstanding any inconsistent provision
of law, the commissioner shall apply a 1.5
percent cost of living adjustment for the
rate year that begins on July 1, 2024 for
the purposes of establishing rates of
payments, contracts, or any other form of
reimbursement, provided that this shall
not prevent the commissioner from applying
additional trend or staff retention
factors for this program.
Within the amounts appropriated herein,
state reimbursement to each social
services district for services identified
herein that are otherwise reimbursable by
the state from April 1, 2024 through March
31, 2025 shall be limited to a district
allocation, hereinafter referred to as the
district's block grant allocation.
Notwithstanding any other provision of
law, such block grant allocation shall be
based, in part, on each district's claims
for such costs, adjusted by the applicable
cost allocation methodology and net of any
retroactive payments for the 12 month
period ending June 30, 2023 that are
submitted on or before January 2, 2024
and, in part, on such other factors as
determined by the office of children and
family services and approved by the direc-
tor of the budget. Any portion of a social
services district's allocation from funds
appropriated herein not claimed by such
district during the state fiscal year may
be used by such district for expenditures
on preventive services provided pursuant
to section 409-a of the social services
law, independent living services and
aftercare services provided pursuant to
regulations of the department of family
assistance, claimed by such district
during the next state fiscal year up to
the amount remaining from the district's
foster care block grant allocation,
provided however, that any claims for such
services during the next state fiscal year
in excess of such amount shall be subject
to 62 percent state reimbursement exclu-
sive of any federal funds made available
for such purposes, in accordance with
directives of the department of family
assistance and subject to the approval of
the director of the budget. Any claims
submitted by a social services district
for reimbursement for a particular state

fiscal year for which the social services
district does not receive state or federal
reimbursement during that state fiscal
year may not be claimed against that
district's block grant apportionment for
the next state fiscal year.
The office of children and family services,
with the approval of the director of the
budget, may reduce a district's block
grant allocation by the state share
decrease related to federal retroactive
reimbursement for such foster care
services identified herein. The office,
with the approval of the director of the
budget, may reduce a district's block
grant allocation by the state share of
disallowances or sanctions taken against
the district pursuant to the social
services law or federal law.
Notwithstanding any other provision of law,
the state shall not be responsible for
reimbursing a social services district and
a district shall not seek state reimburse-
ment for any portion of any state disal-
lowance or sanction taken against the
social services district, or any federal
disallowance attributable to final federal
agency decisions or to settlement made, on
or after July 1, 1995, when such disallow-
ance or sanction results from the failure
of the social services district to comply
with federal or state requirements,
including, but not limited to, failure to
document eligibility for federal or state
funds in the case record; provided, howev-
er, if the office determines that any
federal disallowance for services provided
between January 1, 1999 and May 31, 1999
results solely from the late enactment of
the state legislation implementing the
federal adoption and safe families act,
the state shall be solely responsible for
the full amount of the disallowance or
sanction; provided, further, however, this
provision shall be deemed to apply both
prospectively and retroactively regardless
of whether such sanctions or disallowances
are for services provided or claims made
prior to or after April 1, 2024.
Notwithstanding any other provision of law,
any federal disallowance resulting from a
federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services. Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York. In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total
disallowed costs based on the percentage
of applicable federal title IV-E claims
made by that district for the relevant
time period as compared to the total
applicable statewide title IV-E claims.
The amount of the offset against each
district will be adjusted, if necessary,
upon completion of the disallowance allo-
cation process. The final allocation of
the amount of any federal disallowance
resulting from a title IV-E secondary
eligibility review shall be allocated
among the districts so that each district
shall be responsible for the amount
attributable to each of the district's
children or cases that are determined by
the federal review to be unallowable. Each
district shall also be responsible for a
portion of the federal extrapolated disal-
lowance amount based on the relative error
rate for the district. The city of New
York's error rate will be based on the
federal sample and federal statistics. For
all social services districts other than
the city of New York, the error rate will
be based on a review conducted by the
district of a sample of children and/or
cases determined by the office of children
and family services and a re-review of a
sub-sample by the office of those children
and/or cases determined by the office. The
office of children and family services
will determine what is reasonable in
establishing the size of the sample and
sub-sample for each district. The office
of children and family services shall
notify each social services district of
the sample of children and/or cases from
the federal audit period that the social
services district must review. Any child
or case from the social services district
that was included in the federal sample
will automatically be included in the
social services district's review sample
and the determination made at the federal
review regarding that child or case will
govern for the purposes of the social
services district's review. The social
services district must complete and submit
the results of its review to the office of
children and family services within 60
days of receipt of the sample. The error rate for the district will be based on the findings of the district's review and the office of children and family services' re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other circumstances that the office of children and family services may consider in order to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount of the district's title IV-E claims deemed to be in error will be divided by the amount of statewide title IV-E claims deemed to be in error. The resulting disallowance percentage for each district will be applied to the entire title IV-E extrapolated disallowance calculated by the federal review to determine the amount of the extrapolated disallowance for which the district is responsible. Each district will be credited for the amount already disallowed for any individual children or cases found to be in error during the federal review. The exclusive appeal rights for the review of the amount of the federal disallowance assigned to each social services district shall be pursuant to article 78 of the civil practice law and rules; provided, however, that in any such action all of the social services districts shall be joined as necessary.
parties and the venue of any such action
shall be in Rensselaer county. Any social
services district that fails to complete
its sample review in the required time
frames shall have no right to appeal and
shall not be a necessary party to any
action brought by another social services
district.
The money hereby appropriated is to be
available for payment of state aid hereto-
fore accrued or hereafter to accrue to
municipalities. Subject to the approval of
the director of the budget, such funds
shall be available to the office net of
disallowances, refunds, reimbursements,
and credits.
Notwithstanding any inconsistent provision
of law, the amount herein appropriated may
be transferred to any other appropriation
within the office of children and family
services and/or the office of temporary
and disability assistance and/or suballo-
cated to the office of temporary and disa-
bility assistance for the purpose of
paying local social services districts' costs of the above program and may be
increased or decreased by interchange with
any other appropriation or with any other
item or items within the amounts appropri-
ated within the office of children and
family services general fund - local
assistance account with the approval of
the director of the budget who shall file
such approval with the department of audit
and control and copies thereof with the
chairman of the senate finance committee
and the chairman of the assembly ways and
means committee.
Notwithstanding any inconsistent provision
of law, in lieu of payments authorized by
the social services law, or payments of
federal funds otherwise due to the local
social services districts for programs
provided under the federal social security
act or the federal food stamp act, funds
herein appropriated, in amounts certified
by the state comptroller or the state
commissioner of health as due from local
social services districts each month as
their share of payments made pursuant to
section 367-b of the social services law
may be set aside by the state comptroller in an interest bearing account with such interest accruing to the credit of the locality in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an estimate provided by the commissioner of health of each local social services district's share of payments made pursuant to section 367-b of the social services law.

Notwithstanding the provisions of any other law to the contrary, the office of children and family services may, on behalf of social services districts, make payments to foster boarding homes paid directly by social services districts by direct deposit or debit card. Local social services districts shall reimburse the office for the costs of administering such direct deposit or debit card payments.

Notwithstanding any inconsistent provision of the social services law or the state finance law, the office of children and family services shall, on a quarterly basis, request that the office of temporary and disability assistance reimburse the office of children and family services for the non-federal share of the costs of administering such direct deposit or debit card payments to capture the local share of such costs.

Notwithstanding any other provision of law to the contrary, amounts due and owing to a social services district under this appropriation, may be reduced up to such amounts due and owing to the state under section 529 of the executive law (13997) ... 401,279,000

Notwithstanding any inconsistent provision of law, the amount appropriated herein shall be made available to reimburse 65 percent of eligible social services district expenditures that are claimed by March 31, 2026 for child welfare services which shall include and be limited to preventive services provided pursuant to section 409-a of the social services law other than community optional preventive services, child protective services, independent living services, after-care services as defined in regulations of the
department of family assistance, and
adoption administration and services,
other than adoption subsidies provided
pursuant to title 9 of article 6 of the
social services law and regulations of the
department of family assistance incurred
on or after October 1, 2024 and before
October 1, 2025 and that are otherwise
reimbursable by the state on or after
April 1, 2024, after first deducting ther-
efrom any federal funds properly received
or to be received on account thereof upon
certification by the social services
district that it will not be using these
funds to supplant other state and local
funds and that the district will not
submit claims for reimbursement under this
appropriation for the same type and level
of services that the county previously
provided and claimed under any contract in
existence on October 1, 2002 as other than
child protective, preventive, independent
living, after care or adoption services or
adoption administration.
The money hereby appropriated is to be
available for payment of state aid hereto-
fore accrued or hereafter to accrue to
municipalities. Subject to the approval of
the director of the budget, such funds
shall be available to the office net of
disallowances, refunds, reimbursements,
and credits; provided, however, that
notwithstanding any other provision of
law, for a district to receive reimburse-
ment for such services, the amount of
funds that the district expends on such
services from its flexible fund for family
services allocation and any flexible fund
for family services funds transferred at
the district's request to the title XX
social services block grant must, to the
extent that families are eligible there-
fore, be equal to or greater than the
district's portion of the $457,322,341
statewide child welfare threshold amount,
which shall be established pursuant to a
formula developed by the office of tempo-
rary and disability assistance and the
office of children and family services and
approved by the director of the budget.
Notwithstanding any other provision of law, selected social services districts may authorize the office of temporary and disability assistance to intercept a portion of the funds on behalf of the office of children and family services otherwise due to the districts under this appropriation and/or under any other general fund - aid to localities appropriation available to such districts to suballocate to the office of mental health and subsequently for suballocation from the office of mental health to the department of health to use for the 38.9 percent of the non-federal share of the medical assistance payments for home and community based waiver services provided in accordance with subdivision 9 of section 366 of the social services law as authorized by such selected social services districts which choose to use preventive services funds to support such costs.

8 shall be available to the office net of disallowances, refunds,
9 reimbursements, and credits.

authorized by the social services law, or payments of federal funds
otherwise due to the local social services districts for programs
provided under the federal social security act or the federal food
stamp act, funds herein appropriated, in amounts certified by the
state commissioner or the state commissioner of health as due from
local social services districts each month as their share of
payments made pursuant to section 367-b of the social services law
may be set aside by the state comptroller in an interest-bearing
account with such interest accruing to the credit of the locality in
order to ensure the orderly and prompt payment of providers under
section 367-b of the social services law pursuant to an estimate
provided by the commissioner of health of each local social services
district's share of payments made pursuant to section 367-b of the
social services law.

appropriated may be transferred to any other appropriation within

FAMILY AND CHILDREN'S SERVICES PROGRAM

General Fund
Local Assistance Account - 10000

By chapter 53, section 1, of the laws of 2023:
Notwithstanding any inconsistent provision of law, the amount appropriated herein, shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents placed in residential programs operated by authorized agencies and in out-of-state residential programs; for the provision and administration of the kinship guardian assistance program including kinship guardianship assistance payments and payments for non-recurring guardianship expenses and eligible expenditures associated with local compliance with the federal Family First Prevention Services Act (P.L. 115-123); except that, reimbursement from the amount appropriated herein shall not be available for tuition expenditures for foster children, including persons in need of supervision and adjudicated juvenile delinquents, made by a social services district located within a city having a population of one million or more.

Notwithstanding any other provision of law, a portion of the funds are available to reimburse social services districts for the change in the maximum state aid rates established by the office of children and family services for the 2023-24 rate year pursuant to section 398-a of the social services law and sections 4003 and 4405 of the education law to reflect the continuation of the cost of living adjustments that became effective April 1, 2008 for payments made to
foster parents and for salary and fringe benefit costs and other
critical nonpersonal services costs for foster care programs as
determined by the office. Social services districts must adjust the
amount of payments made for care provided by congregate care and
foster boarding home programs and to foster parents to reflect the
cost of living adjustments in the manner specified by the office.
Each authorized agency operating a congregate care or foster board-
ing home program in New York state for which the office sets a maxi-
mum state aid rate pursuant to section 398-a of the social services
law or section 4003 or 4405 of the education law shall submit, at
the time and in a manner to be determined by the office, a written
certification, attesting that the funds received for the continua-
tion of the cost of living adjustment to the maximum state aid rate
that became effective April 1, 2008 for that program will be or were
used solely in accordance with the requirements of the cost of
living adjustment established by the office.
Notwithstanding any inconsistent provision of law except a chapter of
the laws of 2023 authorizing a 4.0 percent cost of living adjustment
increase for the period commencing on April 1, 2023 and ending March
31, 2024, the commissioner shall not apply any other cost of living
adjustment for the purpose of establishing rates of payments,
contracts or any other form of reimbursement, provided that this
shall not prevent the commissioner from applying additional trend or
staff retention factors for this program.
Within the amounts appropriated herein, state reimbursement to each
social services district for services identified herein that are
otherwise reimbursable by the state from April 1, 2023 through March
31, 2024 shall be limited to a district allocation, hereinafter
referred to as the district's block grant allocation. Notwithstand-
ing any other provision of law, such block grant allocation shall be
based, in part, on each district's claims for such costs, adjusted
by the applicable cost allocation methodology and net of any retro-
active payments for the 12 month period ending June 30, 2022 that
are submitted on or before January 2, 2023 and, in part, on such
other factors as determined by the office of children and family
services and approved by the director of the budget. Any portion of
a social services district's allocation from funds appropriated
herein not claimed by such district during the state fiscal year may
be used by such district for expenditures on preventive services
provided pursuant to section 409-a of the social services law, inde-
pendent living services and aftercare services provided pursuant to
regulations of the department of family assistance, claimed by such
district during the next state fiscal year up to the amount remain-
ing from the district's foster care block grant allocation, provided
however, that any claims for such services during the next state
fiscal year in excess of such amount shall be subject to 62 percent
state reimbursement exclusive of any federal funds made available
for such purposes, in accordance with directives of the department
of family assistance and subject to the approval of the director of
the budget. Any claims submitted by a social services district for
reimbursement for a particular state fiscal year for which the
social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed against that district's block grant apportionment for the next state fiscal year.

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against the district pursuant to the social services law or federal law.

Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure of the social services district to comply with federal or state requirements, including, but not limited to, failure to document eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results solely from the late enactment of the state legislation implementing the federal adoption and safe families act, the state shall be solely responsible for the full amount of the disallowance or sanction; provided, further, however, this provision shall be deemed to apply both prospectively and retroactively regardless of whether such sanctions or disallowances are for services provided or claims made prior to or after April 1, 2023.

Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services.

Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or
AID TO LOCALITIES - REAPPROPRIATIONS 2024-25

payment errors occurred, or the filing date of any federal claims
for reimbursement; provided, however, that the state shall be
responsible for the disallowed costs and expenditures related to the
placement of children in a facility operated by the office of chil-
dren and family services, which shall be determined in the same
manner as the disallowed costs and expenditures for social services
districts other than the city of New York. In order to reimburse the
federal government for the full amount of any disallowance imposed
on the state by the federal administration for children and families
within the timeframes necessary to avoid any potential interest
payments on such amount, the office of children and family services
is authorized to immediately offset funds otherwise due to each
district for a pro rata share of the total disallowed costs based on
the percentage of applicable federal title IV-E claims made by that
district for the relevant time period as compared to the total
applicable statewide title IV-E claims. The amount of the offset
against each district will be adjusted, if necessary, upon
completion of the disallowance allocation process. The final allo-
cation of the amount of any federal disallowance resulting from a
title IV-E secondary eligibility review shall be allocated among the
districts so that each district shall be responsible for the amount
attributable to each of the district's children or cases that are
determined by the federal review to be unallowable. Each district
shall also be responsible for a portion of the federal extrapolated
disallowance amount based on the relative error rate for the
district. The city of New York's error rate will be based on the
federal sample and federal statistics. For all social services
districts other than the city of New York, the error rate will be
based on a review conducted by the district of a sample of children
and/or cases determined by the office of children and family
services and a re-review of a sub-sample by the office of those
children and/or cases determined by the office. The office of chil-
dren and family services will determine what is reasonable in estab-
lishing the size of the sample and sub-sample for each district. The
office of children and family services shall notify each social
services district of the sample of children and/or cases from the
federal audit period that the social services district must review.
Any child or case from the social services district that was
included in the federal sample will automatically be included in the
social services district's review sample and the determination made
at the federal review regarding that child or case will govern for
the purposes of the social services district's review. The social
services district must complete and submit the results of its review
to the office of children and family services within 60 days of
receipt of the sample. The error rate for the district will be based
on the findings of the district's review and the office of children
and family services' re-review. If a social services district does
not complete its review within 60 days of receiving the sample from
the office of children and family services, the office of children
and family services shall assign an error rate to the social
services district based on the relative percentage of the district's
applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other circumstances that the office of children and family services may consider in order to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount of the district's title IV-E claims deemed to be in error will be divided by the amount of statewide title IV-E claims deemed to be in error. The resulting disallowance percentage for each district will be applied to the entire title IV-E extrapolated disallowance calculated by the federal review to determine the amount of the extrapolated disallowance for which the district is responsible. Each district will be credited for the amount already disallowed for any individual children or cases found to be in error during the federal review. The exclusive appeal rights for the review of the amount of the federal disallowance assigned to each social services district shall be pursuant to article 78 of the civil practice law and rules; provided, however, that in any such action all of the social services districts shall be joined as necessary parties and the venue of any such action shall be in Rensselaer county. Any social services district that fails to complete its sample review in the required time frames shall have no right to appeal and shall not be a necessary party to any action brought by another social services district.

properly received or to be received on account thereof upon certif-
ication by the social services district that it will not be using
these funds to supplant other state and local funds and that the
district will not submit claims for reimbursement under this appro-

The money hereby appropriated is to be available for payment of state
aid heretofore accrued or hereafter to accrue to municipalities.
Subject to the approval of the director of the budget, such funds
shall be available to the office net of disallowances, refunds,
reimbursements, and credits; provided, however, that notwithstanding
any other provision of law, for a district to receive reimbursement
for such services, the amount of funds that the district expends on
such services from its flexible fund for family services allocation
and any flexible fund for family services funds transferred at the

assistance to intercept a portion of the funds on behalf of the
office of children and family services otherwise due to the
districts under this appropriation and/or under any other general
fund - aid to localities appropriation available to such districts

Funds appropriated herein shall be made available in accordance with a plan to be developed by the commissioner of the office of children and family services and approved by the director of the budget. Funds appropriated herein shall be available for 94 percent of 98 percent of one-half of the non-federal share of the national and state fees for fingerprinting foster care parents,

Notwithstanding any inconsistent provision of law, and pursuant to
chapter 7 of the laws of 1999 and chapter 668 of the laws of 2006,

children and family services shall request that the commissioner of
the office of temporary and disability assistance reimburse the
commissioner of the office of children and family services in an
amount equal to 53.94 percent of the nonfederal share of such

al expenditures made on behalf of each local social services
district to capture the local share of such costs.
Notwithstanding any inconsistent provision of the social services law
or the state finance law, the commissioner shall, on a quarterly
basis, request that the commissioner of the office of temporary and
disability assistance reimburse the commissioner of the office of
children and family services in an amount equal to 53.94 percent of

hundred and twentieth day following the close of the preceding quar-
ter and shall be charged among districts based on the number of
children currently placed in foster care in each local social
services district provided that this methodology is revised quarter-
ly to reflect most current available data. Amounts appropriated
herein may, subject to the director of the budget, be interchanged
or transferred with any other appropriation of the office of chil-

assistance as necessary to reimburse the state share of local social
services district costs appropriated herein (14002) ..............

   Notwithstanding any inconsistent provision of law, the amount appropriated herein shall be available under the supervision and treatment services for juveniles program for 62 percent state reimbursement to counties and the city of New York for eligible expenditures for the provision and administration of eligible supervision and
treatment services for juveniles programs during the period of April
1, 2014 through March 31, 2015 that have been approved by the office
of children and family services pursuant to a plan approved by the
director of the budget; provided, however, if a municipality is
unable to use or claim all of its allocation for such program period
within the required time frames, the municipality may apply to the
office of children and family services for a waiver to permit the
municipality to continue to have the funds available to it for an
additional one-year program period upon a showing and certification
by the municipality that such funds will be used only to reimburse
the municipality for eligible expenditures for eligible services
provided during the period of April 1, 2014 through March 31, 2015
for which the municipality was unable to claim within the required
timeframes and for non-recurring eligible services or expenses that

proportionately to the amount each such district transferred.
Notwithstanding paragraph (a) of subdivision 1 of section 529-b of the

local share requirement for the program funds for state fiscal year

and that providing the program funds to the municipality without a
local share will enable the municipality to implement services
designed to decrease the use of detention or residential care for
such youth.
Within the amounts appropriated herein, state reimbursement shall be
limited to the amount of such municipality's distribution. The
office of children and family services shall not reimburse any
claims unless they are submitted within 12 months of the calendar

that has been developed in consultation with the applicable munici-

28 individuals and families without children.
29 Provided, however, that in social services
30 districts with a population over five
31 million, funds allocated to such district
32 shall be used in the first instance to
33 reimburse rental costs above the maximum
34 rent levels in place as of January 1, 2021
35 up to the United States department of
36 housing and urban development's fair
37 market rent level for the family homeless-

39 program pursuant to section 131-bb of the
40 social services law, then adjusted
41 consistent with the annual year-over-year
42 percentage changes in fair market rent,
43 provided, however, in the event of a
44 decrease in fair market rent the value of

Funds appropriated herein shall be used to
reimburse up to 100 percent of the addi-

Supplements provided herein shall not be
part of the standard of need pursuant to

law, then adjusted consistent with the annual year-over-year percentage changes in fair market rent, provided, however, in the event of a decrease in fair market rent the value of the maximum rent levels reimbursed with funds appropriated herein shall not decrease and shall be set at the maximum rent levels established during the prior year, and any remaining funds for such district may be used to provide shelter supplements pursuant to the purposes appropriated herein.

Such supplements shall be provided to households who earn no more than 30 percent of area median income at the time of application, provided however, that if sufficient demand does not exist for households who earn no more than 30 percent of area median income, supplements may be provided for households earning up to 50 percent of area median income.

director of budget, up to $23,000,000 of
the amount appropriated herein shall be
available for the purpose of providing
payments to local social services
districts for medical assistance adminis-

Notwithstanding any inconsistent provision of law and subject to the approval of the director of budget, moneys hereby appropriated may be increased or decreased by transfer or interchange between these appropriated amounts and appropriations of the medical assistance administration program, the medical assistance program, and the office of health insurance programs. Funding authority from this account used for state administration of the medical assistance program may be transferred to state operations appropriations within the aforementioned programs at amounts agreed upon by the commissioner of health, and the New York state division of the budget.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2024 through March 31, 2025, shall not exceed $31,284,010,000 except as provided below provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds
The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably
expected to become available, in the
discretion of the commissioner, under the
Affordable Care Act; (4) reductions shall
be made uniformly among categories of
services and geographic regions of the
state, to the extent practicable, and
shall be made uniformly within a category
of service, to the extent practicable,
except where the commissioner determines
that there are sufficient grounds for
non-uniformity, including but not limited
to: the extent to which specific catego-
ries of services contributed to department
of health medicaid state funds spending in
excess of the limits specified herein; the
need to maintain safety net services in
underserved communities; or the potential
benefits of pursuing innovative payment
models contemplated by the Affordable Care
Act, in which case such grounds shall be
set forth in the medicaid savings allo-
cation adjustment; and (5) reductions
shall be made in a manner that does not
unnecessarily create administrative
burdens to medicaid applicants and recipi-
ents or providers.

The commissioner shall seek the input of the
legislature, as well as organizations
representing health care providers,
consumers, businesses, workers, health
insurers, and others with relevant exper-
tise, in developing such medicaid savings
allocation adjustment, to the extent that
all or part of such adjustment, in the
discretion of the commissioner, is likely
to have a material impact on the overall
medicaid program, particular categories of
service or particular geographic regions
of the state.

(a) The commissioner shall post the medicaid
savings allocation adjustment on the
department of health's website and shall
provide written copies of such adjustment
to the chairs of the senate finance and
the assembly ways and means committees at
least 30 days before the date on which
implementation is expected to begin.

(b) The commissioner may revise the medicaid
savings allocation adjustment subsequent
to the provisions of notice and prior to
implementation but needs to provide a new
notice pursuant to subparagraph (i) of
this paragraph only if the commissioner
determines, in his or her discretion, that
such revisions materially alter the
adjustment.
Notwithstanding the provisions of paragraphs
(a) and (b) of this subdivision, the
commissioner need not seek the input
described in paragraph (a) of this subdi-
vision or provide notice pursuant to para-
graph (b) of this subdivision if, in the
discretion of the commissioner, expedited
development and implementation of a medi-
caid savings allocation adjustment is
necessary due to a public health emergen-
cy.
For purposes of this section, a public
health emergency is defined as: (i) a
disaster, natural or otherwise, that
significantly increases the immediate need
for health care personnel in an area of
the state; (ii) an event or condition that
creates a widespread risk of exposure to a
serious communicable disease, or the
potential for such widespread risk of
exposure; or (iii) any other event or
condition determined by the commissioner
to constitute an imminent threat to public
health.
Nothing in this paragraph shall be deemed to
prevent all or part of such medicaid
savings allocation adjustment from taking
effect retroactively to the extent permi-
ted by the federal centers for medicare
and medicaid services.
In accordance with the medicaid savings
allocation adjustment, the commissioner of
the department of health shall reduce
department of health state funds medicaid
spending by the amount of the projected
overspending through, actions including,
but not limited to modifying or suspending
reimbursement methods, including but not
limited to all fees, premium levels and
rates of payment, notwithstanding any
provision of law that sets a specific
amount or methodology for any such
payments or rates of payment; modifying
medicaid program benefits; seeking all
necessary federal approvals, including,
but not limited to waivers, waiver amend-

The department of health shall prepare a
quarterly report that sets forth: (a)
known and projected department of health
medicaid expenditures as described in
subdivision (1) of this section, and
factors that could result in medicaid
disbursements for the relevant state
fiscal year to exceed the projected
department of health state funds disburse-

pursuant to subdivision 3 of section 23 of
the state finance law, including spending
increases or decreases due to: enrollment

Notwithstanding section 40 of the state

finance law or any provision of law to the

contrary, subject to federal approval,

department of health state funds medicaid

spending, excluding payments for medical

services provided at state facilities

operated by the office of mental health,

the office for people with developmental

disabilities and the office of addiction

services and supports and further exclud-
ing any payments which are not appropri-
ated within the department of health, in

the aggregate, for the period April 1, 2024 through March 31, 2025, shall not

exceed $31,284,010,000 except as provided

below provided, however, such aggregate

limits may be adjusted by the director of

the budget to account for any changes in

the New York state federal medical assist-

ance percentage amount established pursuant to the federal social security act,

increases in provider revenues, reductions

in local social services district payments

for medical assistance administration,

minimum wage increases, and beginning

April 1, 2012 the operational costs of the

New York state medical indemnity fund,
pursuant to chapter 59 of the laws of

2011, and state costs or savings from the

essential plan program. Such projections

may be adjusted by the director of the

budget to account for increased or expen-
dited department of health state funds

medicaid expenditures as a result of a

natural or other type of disaster, includ-
ing a governmental declaration of emergen-
cy.

Notwithstanding any inconsistent provision

of law to the contrary, the director of

the budget, in consultation with the

commissioner of health, is authorized to

reduce any appropriation under this

section other than other long term care

services by an amount of up to $200

million, and is further authorized to take

any action necessary to implement such

reductions.

The director of the budget, in consultation

with the commissioner of health, shall
assess on a quarterly basis known and
projected medicaid expenditures by category of service and by geographic region, as
defined by the commissioner, incurred both
prior to and subsequent to such assessment
for each such period, and if the director
of the budget determines that such expend-
itures are expected to cause medicaid
spending for such period to exceed the
aggregate limit specified herein for such
period, the state medicaid director, in
consultation with the director of the
budget and the commissioner of health,
shall develop a medicaid savings allo-
cation adjustment to limit such spending
to the aggregate limit specified herein
for such period.

Such medicaid savings allocation adjustment
shall be designed, to reduce the expendi-
tures authorized by the appropriations
herein in compliance with the following
guidelines: (1) reductions shall be made
in compliance with applicable federal law,
including the provisions of the Patient
Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and
Education Reconciliation Act of 2010,
Public Law No. 111-152 (collectively
"Affordable Care Act") and any subsequent
amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be
made in a manner that complies with the
state medicaid plan approved by the feder-
al centers for medicare and medicaid
services, provided, however, that the
commissioner of health is authorized to
submit any state plan amendment or seek
other federal approval, including waiver
authority, to implement the provisions of
the medicaid savings allocation adjustment
that meets the other criteria set forth
herein; (3) reductions shall be made in a
manner that maximizes federal financial
participation, to the extent practicable,
including any federal financial partic-
ipation that is available or is reasonably
expected to become available, in the
discretion of the commissioner, under the
Affordable Care Act; (4) reductions shall
be made uniformly among categories of
services and geographic regions of the
state, to the extent practicable, and
shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the
commissioner need not seek the input
described in paragraph (a) of this subdi-
vision or provide notice pursuant to para-
graph (b) of this subdivision if, in the
discretion of the commissioner, expedited
development and implementation of a medi-
caid savings allocation adjustment is
necessary due to a public health emergen-
cy.

For purposes of this section, a public
health emergency is defined as: (i) a
disaster, natural or otherwise, that
significantly increases the immediate need
for health care personnel in an area of
the state; (ii) an event or condition that
creates a widespread risk of exposure to a
serious communicable disease, or the
potential for such widespread risk of
exposure; or (iii) any other event or
condition determined by the commissioner
to constitute an imminent threat to public
health.

Nothing in this paragraph shall be deemed to
prevent all or part of such medicaid
savings allocation adjustment from taking
effect retroactively to the extent permit-
ted by the federal centers for medicare
and medicaid services.

In accordance with the medicaid savings
allocation adjustment, the commissioner of
the department of health shall reduce
department of health state funds medicaid
spending by the amount of the projected
overspending through, actions including,
but not limited to modifying or suspending
reimbursement methods, including but not
limited to all fees, premium levels and
rates of payment, notwithstanding any
 provision of law that sets a specific
amount or methodology for any such
payments or rates of payment; modifying or
discontinuing medicaid program benefits;
seeking all necessary federal approvals,
including, but not limited to waivers,
waiver amendments; and suspending time
frames for notice, approval or certif-
ication of rate requirements, notwith-
standing any provision of law, rule or
regulation to the contrary, including but
not limited to sections 2807 and 3614 of
the public health law, section 18 of chap-
DEPARTMENT OF HEALTH

Notwithstanding any inconsistent provision of law, funding made available by these appropriations shall support direct salary costs and related fringe benefits within the medical assistance program associated with any minimum wage increase that takes effect during the timeframe of these appropriations, pursuant to section 652 of the labor law. Each eligible organization in receipt of funding made available by these appropriations may be required to submit written certification, in such form and at such time the commissioner may prescribe, attesting to the total amount of funds used by the eligible organization, how such funding will be or was used for purposes eligible under these appropriations and any other reporting deemed necessary by the commissioner. The amounts appropriated herein may include advances to organizations authorized to receive such funds to accomplish this purpose.
Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange or transfer, with any appropriation of the
department of health and the office of medicaid inspector general and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the department of health state purpose account, the office of mental health, office for people with developmental disabilities, the office of addiction services and supports, the department of family assistance office of temporary and disability assistance, the department of corrections and community supervision, the office of information technology services, the state university of New York, and office of children and family services, the office of medicaid inspector general, the state education department, and the state office for the aging with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

3  Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2024 through March 31, 2025, shall not exceed $31,284,010,000 except as provided below provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

4  The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to exceed the aggregate limit specified herein for such period, the state medicaid
director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period. Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential
benefits of pursuing innovative payment
models contemplated by the Affordable Care
Act, in which case such grounds shall be
set forth in the medicaid savings allo-
cation adjustment; and (5) reductions
shall be made in a manner that does not
unnecessarily create administrative
burdens to medicaid applicants and recipi-
ents or providers.

The commissioner shall seek the input of the
legislature, as well as organizations
representing health care providers,
consumers, businesses, workers, health
insurers, and others with relevant exper-
tise, in developing such medicaid savings
allocation adjustment, to the extent that
all or part of such adjustment, in the
discretion of the commissioner, is likely
to have a material impact on the overall
medicaid program, particular categories of
service or particular geographic regions
of the state.

(a) The commissioner shall post the medicaid
savings allocation adjustment on the
department of health's website and shall
provide written copies of such plan to the
chairs of the senate finance and the
assembly ways and means committees at
least 30 days before the date on which
implementation is expected to begin.

(b) The commissioner may revise the medicaid
savings allocation adjustment subsequent
to the provisions of notice and prior to
implementation but needs to provide a new
notice pursuant to subparagraph (i) of
this paragraph only if the commissioner
determines, in his or her discretion, that
such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs
(a) and (b) of this subdivision, the
commissioner need not seek the input
described in paragraph (a) of this subdi-
vision or provide notice pursuant to para-
graph (b) of this subdivision if, in the
discretion of the commissioner, expedited
development and implementation of a medi-
caid savings allocation adjustment is
necessary due to a public health emergen-
cy.

For purposes of this section, a public
health emergency is defined as: (i) a
disaster, natural or otherwise, that
significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending
increases or decreases due to: enrollment
fluctuations, rate changes, utilization
changes, MRT investments, and shift of
beneficiaries to managed care; and vari-
atations in offline medicaid payments; and
(b) the actions taken to implement any
medicaid savings allocation adjustment
implemented pursuant to subdivision (4) of
this section, including information
concerning the impact of such actions on
each category of service and each
geographic region of the state. Each such
quarterly report shall be provided to the
chairs of the senate finance and the
assembly ways and means committees and
shall be posted on the department of
health’s website in a timely manner.

man of the senate finance committee and
the chairman of the assembly ways and

distribution pursuant to subdivision 5-d
of section 2807-k of the public health law
shall be distributed in accordance with
the provisions below.

The commissioner of the department of health

42  the aggregate, for the period April 1, 43 2024 through March 31, 2025, shall not
44  exceed $31,284,010,000 except as provided
45  below provided, however, such aggregate
46 limits may be adjusted by the director of
47 the budget to account for any changes in
48  the New York state federal medical assist-
49  ance percentage amount established pursu-
ant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.
(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

For the purpose of making payments, the money hereby appropriated is available for payment of aid heretofore accrued or hereafter accrued, to providers of medical care pursuant to section 367-b of the
social services law, and for payment of
state aid to municipalities and the feder-
al government where payment systems

operational, to reimburse such providers
for costs attributable to the provision of

administration program, the medical assistance program, and the office of health insurance programs. Funding authority from this account used for state administration of the medical assistance program may be transferred to state operations appropriations within the aforementioned programs at amounts agreed upon by the commissioner of health, and the New York state division of the budget. Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2023 to March 31, 2024 and the remaining amount for the period April 1, 2024 to September 15, 2025.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2023 through March 31, 2024, shall not exceed $28,109,771,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2024 through September 15, 2025, shall not exceed $59,393,781,000 but in no event $31,020,880,000 shall department of health state funds medicaid spending for the period April 1, 2023 through [March 31, 2025] exceed $59,130,651,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation
adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subpar-

AID TO LOCALITIES - REAPPROPRIATIONS 2024-25

agraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:

(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the

excluding any payments which are not appropriated within the depart-
ment of health, in the aggregate, for the period April 1, 2023
through March 31, 2024, shall not exceed $28,109,771,000 except as
provided below and state share medicaid spending, in the aggregate,
for the period April 1, 2024 through [March 31] September 15,
2025, shall not exceed [$31,020,880,000] $31,284,010,000 but in no event
shall department of health state funds medicaid spending for the
period April 1, 2023 through [March 31] September 15, 2025 exceed
[$59,130,651,000] $59,393,781,000. Provided, however, such aggregate
limits may be adjusted by the director of the budget to account for
any changes in the New York state federal medical assistance
percentage amount established pursuant to the federal social securi-
ty act, increases in provider revenues, reductions in local social
services district payments for medical assistance administration,
minimum wage increases, and beginning April 1, 2012 the operational
costs of the New York state medical indemnity fund, pursuant to
chapter 59 of the laws of 2011, and state costs or savings from the
essential plan program. Such projections may be adjusted by the
director of the budget to account for increased or expedited depart-
ment of health state funds medicaid expenditures as a result of a
natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to
the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:

(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying or discontinuing medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors...
that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

The money hereby appropriated is to be available for payment of aid heretofore accrued or hereafter accrued to municipalities, and to providers of medical services pursuant to section 367-b of the social services law, and for payment of state aid to municipalities and to providers of family care where payment systems through the fiscal intermediaries are not operational.

Notwithstanding any inconsistent provision of law to the contrary, funds may be used by the department for outside legal assistance on issues involving the federal government, the conduct of preadmission screening and annual resident reviews required by the state's medicaid program, computer matching with insurance carriers to insure that medicaid is the payer of last resort and activities related to the management of the pharmacy benefit available under the medicaid program.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state commissioner of temporary and disability assistance or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an interest-bearing account in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an estimate provided by the commissioner of health of each local social services district's share of payments made pursuant to section 367-b of the social services law.

Notwithstanding any inconsistent provision of law, funding made available by these appropriations shall support direct salary costs and related fringe benefits within the medical assistance program associated with any minimum wage increase that takes effect during the timeframe of these appropriations, pursuant to section 652 of the labor law. Each eligible organization in receipt of funding made available by these appropriations may be required to submit written certification, in such form and at such time the commissioner may

ble organization, how such funding will be or was used for purposes
eligible under these appropriations and any other reporting deemed
necessary by the commissioner. The amounts appropriated herein may
include advances to organizations authorized to receive such funds
to accomplish this purpose.

Notwithstanding any other provision of law, the money hereby appropri-
ated may be increased or decreased by interchange or transfer, with
any appropriation of the department of health and the office of
medicaid inspector general and may be increased or decreased by
transfer or suballocation between these appropriated amounts and
appropriations of the department of health state purpose account,

the budget, who shall file such approval with the department of
audit and control and copies thereof with the chairman of the senate
finance committee and the chairman of the assembly ways and means
committee.

Notwithstanding any inconsistent provision of law to the contrary, the
moneys hereby appropriated may be used for payments to the centers
for medicaid and medicare services for obligations incurred related
to the pharmaceutical costs of dually eligible medicare/medicaid
beneficiaries participating in the medicare drug benefit authorized
by P.L. 108-173.

Notwithstanding any inconsistent provision of law, the moneys hereby
appropriated shall not be used for any existing rates, fees, fee
schedule, or procedures which may affect the cost of care and
services provided by personal care providers, case managers, health
maintenance organizations, out of state medical facilities which
provide care and services to residents of the state, providers of
transportation services, that are altered, amended, adjusted or
otherwise changed by a local social services district unless previ-
ously approved by the department of health and the director of the
budget.

Notwithstanding any inconsistent provision of law to the contrary,
funds shall be made available to the commissioner of the office of
mental health or the commissioner of the office of addiction
services and supports, in consultation with the commissioner of
health and approved by the director of the budget, and consistent
with appropriations made therefor, to implement allocation adjust-
ment developed by each such commissioner which shall describe mental
health or substance use disorder services that should be developed
to meet service needs resulting from the reduction of inpatient
behavioral health services provided under the medicaid program, by
programs licensed pursuant to article 31 or 32 of the mental hygiene

The appropriation made by chapter 53, section 1, of the laws of 2023, is
hereby amended and reappropriated to read:
Notwithstanding section 40 of the state finance law or any other law
to the contrary, all medical assistance appropriations made from
this account shall remain in full force and effect in accordance, in
the aggregate, with the following schedule: not more than 50 percent
for the period April 1, 2023 to March 31, 2024; and the remaining
amount for the period April 1, 2024 to [March 31] September 15,
2025.
Notwithstanding section 40 of the state finance law or any provision
of law to the contrary, subject to federal approval, department of
health state funds medicaid spending, excluding payments for medical
services provided at state facilities operated by the office of
mental health, the office for people with developmental disabilities
and the office of addiction services and supports and further
excluding any payments which are not appropriated within the depart-
ment of health, in the aggregate, for the period April 1, 2023
through March 31, 2024, shall not exceed $28,109,771,000 except as
provided below and state share medicaid spending, in the aggregate,
for the period April 1, 2024 through [March 31] September 15, 2025,
shall not exceed $31,020,880,000 but in no event shall department of health state funds medicaid spending for the
period April 1, 2023 through [March 31] September 15, 2025 exceed
$59,130,651,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for
any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social securi-
ty act, increases in provider revenues, reductions in local social services district payments for medical assistance administration,
minimum wage increases and beginning April 1, 2012 the operational
costs of the New York state medical indemnity fund, pursuant to
chapter 59 of the laws of 2011, and state costs or savings from the
essential plan program. Such projections may be adjusted by the
director of the budget to account for increased or expedited depart-
ment of health state funds medicaid expenditures as a result of a
natural or other type of disaster, including a governmental declara-
tion of emergency.
The director of the budget, in consultation with the commissioner of
health, shall assess on a quarterly basis known and projected medi-
caid expenditures by category of service and by geographic region,
as determined by the commissioner of health, incurred both prior to
and subsequent to such assessment for each such period, and if the
director of the budget determines that such expenditures are
expected to cause medicaid spending for such period to exceed the
aggregate limit specified herein for such period, the state medical
director, in consultation with the director of the budget and the
commissioner of health, shall develop a medicaid savings allocation
adjustment to limit such spending to the aggregate limit specified
herein for such period.
Such medicaid savings allocation adjustment shall be designed, to
reduce the expenditures authorized by the appropriations herein in
compliance with the following guidelines: (1) reductions shall be
made in compliance with applicable federal law, including the
provisions of the Patient Protection and Affordable Care Act, Public
Law No. 111–148, and the Health Care and Education Reconciliation
Act of 2010, Public Law No. 111–152 (collectively "Affordable Care
Act") and any subsequent amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be made in a manner that
complies with the state medical plan approved by the federal
centers for medicare and medicaid services, provided, however, that
the commissioner of health is authorized to submit any state plan
amendment or seek other federal approval, including waiver authori-
ty, to implement the provisions of the medicaid savings allocation
adjustment that meets the other criteria set forth herein; (3) reductions
shall be made in a manner that maximizes federal finan-
cial participation, to the extent practicable, including any federal
financial participation that is available or is reasonably expected
to become available, in the discretion of the commissioner, under
the Affordable Care Act; (4) reductions shall be made uniformly
among categories of services and geographic regions of the state, to
the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers. The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:

(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of
health state funds medicaid spending by the amount of the projected
overspending through, actions including, but not limited to modify-
ing or suspending reimbursement methods, including but not limited
to all fees, premium levels and rates of payment, notwithstanding
any provision of law that sets a specific amount or methodology for
any such payments or rates of payment; modifying medicaid program
benefits; seeking all necessary federal approvals, including, but
not limited to waivers, waiver amendments; and suspending time
frames for notice, approval or certification of rate requirements,
notwithstanding any provision of law, rule or regulation to the
contrary, including but not limited to sections 2807 and 3614 of the
public health law, section 18 of chapter 2 of the laws of 1988, and
18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets
forth: (a) known and projected department of health medicaid expend-
itures as described in subdivision (1) of this section, and factors
that could result in medicaid disbursements for the relevant state
fiscal year to exceed the projected department of health state funds
disbursements in the enacted budget financial plan pursuant to
subdivision 3 of section 23 of the state finance law, including
spending increases or decreases due to: enrollment fluctuations,
rate changes, utilization changes, MRT investments, and shift of
beneficiaries to managed care; and variations in offline medicaid
payments; and (b) the actions taken to implement any medicaid
savings allocation adjustment implemented pursuant to subdivision
(4) of this section, including information concerning the impact of
such actions on each category of service and each geographic region
of the state. Each such quarterly report shall be provided to the
chairs of the senate finance and the assembly ways and means commit-
tees and shall be posted on the department of health's website in a
timely manner.

For the purpose of making payments to providers of medical care pursu-
ant to section 367-b of the social services law, and for payment of
state aid to municipalities where payment systems through fiscal
intermediaries are not operational, to reimburse such providers for
costs attributable to the provision of care to patients eligible for
medical assistance. Payments from this appropriation to general
hospitals related to indigent care pursuant to article 28 of the
public health law respectively, when combined with federal funds for
services and expenses for the medical assistance program pursuant to
title XIX of the federal social security act or its successor
program, shall equal the amount of the funds received related to
health care reform act allowances and surcharges pursuant to article
28 of the public health law and deposited to this account less any
such amounts withheld pursuant to subdivision 21 of section 2807-c
of the public health law. Notwithstanding any inconsistent
 provision of law, the moneys hereby appropriated may be increased or
decreased by interchange or transfer with any appropriation of the
department of health with the approval of the director of the budget,
who shall file such approval with the department of audit and
control and copies thereof with the chairman of the senate finance
committee and the chairman of the assembly ways and means committee.
Notwithstanding section 2807-k of the Public Health Law, or any inconsistent provision of law, and subject to the availability of federal financial participation, for periods on and after January 1, 2020 through March 31, 2025, all funds available for distribution pursuant to subdivision 5-d of section 2807-k of the public health law shall be distributed in accordance with the provisions below.

The commissioner of the department of health shall establish methodologies for determining each facility's relative uncompensated care need amount based on uninsured inpatient and outpatient units of service from the cost reporting year two years prior to the distribution year, multiplied by the applicable medicaid rates in effect January first of the distribution year, as summed and adjusted by a statewide cost adjustment factor and reduced by the sum of all payment amounts collected from such uninsured patients, and as further adjusted by application of a nominal need computation that shall take into account each facility's medicaid inpatient share.

Annual distributions pursuant to such regulations for the 2023-2025 calendar years shall be in accord with the following: $139,400,000 shall be distributed as Medicaid DSH payments to major general public hospitals, and $969,900,000 shall be distributed as Medicaid DSH payments to eligible general hospitals, other than major public general hospitals, for each of the calendar years 2023-2025, provided that the total distributions to eligible general hospitals, other than major public general hospitals, shall be subject to a reduction of $235,400,000 annually, and further provided that eligible general hospitals other than public general hospitals who qualify as enhanced safety net hospitals under section 2807-k of the public health law shall not be subject to such reduction.

Such reduction shall be determined by a methodology to be established by the department of health which may take into account the payor mix of each non-public general hospital, including the percentage of inpatient days paid by the medical assistance program.

For calendar years 2023-2025, eligible general hospitals other than major public general hospitals that qualify as enhanced safety net hospitals under sections 2087-c and section 2807-k of the public health law which experience a reduction in payments pursuant to section 2807-k of the public health law shall receive a distribution of $64,600,000 annually proportional to the reduction experienced by the facility and pursuant to a methodology determined to the commissioner.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2023-24 shall supersede and replace any duplicative (i)reappropriation for this item covering fiscal year 2023-24, and (ii) appropriation for this item covering fiscal year 2023-24 set forth in chapter 53 of the laws of 2022 (29797) ... 1,262,200,000 ..................... Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2023 through March 31, 2024, shall not exceed $28,109,771,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2024 through [March 31] September 15, 2025, shall not exceed [$31,020,880,000] $31,284,010,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2023 through [March 31] September 15, 2025 exceed [$59,130,651,000] $59,393,781,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to

La disposition faite par le chapitre 53, section 1, de la loi de 2023, est
ici modifiée et réappropriée pour lire :

Notwithstanding section 40 of the state finance law or any other law
to the contrary, all medical assistance appropriations made from
this account shall remain in full force and effect in accordance, in
the aggregate, with the following schedule: not more than 53 percent
for the period April 1, [2023] 2023 to March 31, [2023] 2024; and
the remaining amount for the period April 1, [2023] 2024 to March
31, [2024] 2025.

Notwithstanding section 40 of the state finance law or any provision
of law to the contrary, subject to federal approval, department of
health state funds medicaid spending, excluding payments for medical
services provided at state facilities operated by the office of
mental health, the office for people with developmental disabilities
and the office of addiction services and supports and further
excluding any payments which are not appropriated within the depart-
ment of health, in the aggregate, for the period April 1, 2023
through March 31, 2024, shall not exceed $28,109,771,000 except as
provided below and state share medicaid spending, in the aggregate,
for the period April 1, 2024 through [March 31] September 15, 2025,
shall not exceed $31,284,010,000, but in no event
shall department of health state funds medicaid spending for the
period April 1, 2023 through [March 31] September 15, 2025 exceed
$59,393,781,000

The director of the budget, in consultation with the commissioner of
health, shall assess on a quarterly basis known and projected med-
icaid expenditures by category of service and by geographic region,
as determined by the commissioner of health, incurred both prior to
and subsequent to such assessment for each such period, and if the
director of the budget determines that such expenditures are
expected to cause medicaid spending for such period to exceed the
aggregate limit specified herein for such period, the state medicaid
director, in consultation with the director of the budget and the
commissioner of health, shall develop a medicaid savings allocation
adjustment to limit such spending to the aggregate limit specified
herein for such period.
Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in
his or her discretion, that such revisions materially alter the

plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this

subdivision, the commissioner need not seek the input described in

paragraph (a) of this subdivision or provide notice pursuant to

paragraph (b) of this subdivision if, in the discretion of the

commissioner, expedited development and implementation of a medicaid

savings allocation adjustment is necessary due to a public health

emergency.

For purposes of this section, a public health emergency is defined as:

(i) a disaster, natural or otherwise, that significantly increases

the immediate need for health care personnel in an area of the

state; (ii) an event or condition that creates a widespread risk of

exposure to a serious communicable disease, or the potential for

such widespread risk of exposure; or (iii) any other event or condi-

tion determined by the commissioner to constitute an imminent threat

to public health.

Nothing in this paragraph shall be deemed to prevent all or part of

such medicaid savings allocation adjustment from taking effect

retroactively to the extent permitted by the federal centers for

medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the

commissioner of the department of health shall reduce department of

health state funds medicaid spending by the amount of the projected

overspending through, actions including, but not limited to modify-
ing or suspending reimbursement methods, including but not limited

to all fees, premium levels and rates of payment, notwithstanding

any provision of law that sets a specific amount or methodology for

any such payments or rates of payment; modifying medicaid program

benefits; seeking all necessary federal approvals, including, but

not limited to waivers, waiver amendments; and suspending time

frames for notice, approval or certification of rate requirements,

notwithstanding any provision of law, rule or regulation to the

contrary, including but not limited to sections 2807 and 3614 of the

public health law, section 18 of chapter 2 of the laws of 1988, and

18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets

forth: (a) known and projected department of health medicaid expend-

itures as described in subdivision (1) of this section, and factors

that could result in medicaid disbursements for the relevant state

fiscal year to exceed the projected department of health state funds

disbursements in the enacted budget financial plan pursuant to

subdivision 3 of section 23 of the state finance law, including

spending increases or decreases due to: enrollment fluctuations,

rate changes, utilization changes, MRT investments, and shift of

beneficiaries to managed care; and variations in offline medicaid

payments; and (b) the actions taken to implement any medicaid

savings allocation adjustment implemented pursuant to subdivision

(4) of this section, including information concerning the impact of

such actions on each category of service and each geographic region

of the state. Each such quarterly report shall be provided to the

chairs of the senate finance and the assembly ways and means commit-
