FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would modify the service retirement benefit for members of the New York State and Local Employees' Retirement System (NYSLERS) covered by the provisions of Retirement and Social Security Law section 89-p. The modified service retirement benefit will be one-half of final average salary (FAS) upon completion of twenty-five years of creditable service with additional sixtieths for each year of creditable service in excess of twenty-five years but not more than fifteen such years. The current service retirement benefit is one-half of FAS upon completion of twenty-five years of creditable service.

If this bill is enacted during the 2024 Legislative Session, we anticipate that there will be an increase of approximately \$3.8 million in the annual contributions of the affected counties for the fiscal year ending March 31, 2025. In future years this cost will vary but is expected to average 1.1% of salary annually.

In addition to the annual contributions discussed above, there will be an immediate past service cost of approximately \$34.9 million which will be shared by the affected counties and will be borne as a one-time payment. This estimate assumes that payment will be made on February 1, 2025.
