FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would allow certain members who are employed in the Nassau County police department who perform police medic or police emergency ambulance related services to receive a performance of duty disability benefit if the member is impaired due to a condition of the heart, which shall be presumed to have been incurred in the performance of their duties, unless the contrary be proven by competent evidence. Such presumption will benefit the members who currently have the 50% of final average salary benefit available pursuant to Section 607-j of the Retirement and Social Security Law (RSSL).

The provisions of Section 25 of the RSSL shall not apply.

If this legislation is enacted during the 2024 Legislative Session, it would likely lead to more disabilities being classified as "in performance of duty."

We anticipate that there will be a total increase of approximately \$27,000 in the annual contributions of Nassau County for the fiscal year ending March 31, 2025. In future years this cost will vary as the billing rates and salary of the affected members change, but is expected to average 0.2% of salary annually.

In addition to the annual contributions discussed above, there will be an immediate past service cost of approximately \$48,200 which will be shared by the State of New York and the local participating employers in the NYSLERS. This estimate assumes that payment will be made on February 1, 2025.

Further, we anticipate that there could be some administrative costs to implement the provisions of this legislation.

These estimated costs are based on 110 affected members employed by Nassau County, with annual salary of approximately \$15 million as of March 31, 2023.
