## IN SENATE

April 30, 2024

Introduced by Sen. STAVISKY -- read twice and ordered printed, and when printed to be committed to the Committee on Higher Education

AN ACT to amend the education law and the social services law, in relation to the licensure of dietitians and nutritionists; and to repeal certain provisions of the education law relating thereto

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Legislative findings and declaration of purpose. The legis-  
2 lature finds that the application of scientific knowledge relating to  
3 dietetics and nutrition is important in effective care, treatment and  
4 prevention of disease or trauma and in the attainment and maintenance of  
5 health, and acknowledges that the rendering and communication of sound  
6 dietetic and nutrition services in hospitals, nursing homes, extended  
7 care and ambulatory care settings, school districts, health departments,  
8 private practice and consultation, and in other settings requires  
9 trained and competent professionals. The legislature further finds that  
10 it is necessary in the provision of medical nutrition therapy, and ther-  
11 apeutic diets, for such professionals to be licensed under article 157  
12 of the education law to ensure quality nutrition care, consisting of a  
13 nutrition assessment, nutrition diagnosis, nutrition intervention and  
14 the monitoring and evaluation of outcomes directly related to the nutri-  
15 tion care process. Therefore, it is hereby declared to be the purpose of  
16 this act to protect the health, safety, and welfare of the public by  
17 providing for the licensure and regulation of the activities of persons  
18 engaged in the practice of dietetics and nutrition.

19 § 2. Section 8000 of the education law, as added by chapter 635 of the  
20 laws of 1991, is amended to read as follows:

21 § 8000. Introduction. This article applies to the use of the titles  
22 [~~"certified dietitian" and "certified nutritionist"~~] "licensed nutri-  
23 tionist" or "LN" and "licensed dietitian nutritionist" or "LDN" and the  
24 practice of dietetics and nutrition. The general provision for all  
25 professions contained in article one hundred thirty of this title shall  
26 apply to this article.

39 that individual or group.

40 10. "Nutrition assessment" means the ongoing, dynamic, and systematic  
41 process of ordering, obtaining, verifying, and interpreting biochemical,  
42 anthropometric, physical, nutrigenomic, and dietary data to make deci-  
43 sions about the nature and cause of nutrition-related problems relative  
44 to patient or community needs. It involves not only initial data  
45 collection, but also reassessment and analysis of patient or community  
46 needs and provides the foundation for nutrition diagnosis and nutri-  
47 tional recommendations and orders. Nutrition assessment may require  
48 ordering laboratory tests to check and track nutritional status. The  
49 collection of data does not, by itself, constitute nutrition assessment.

50 11. "Nutrition care process" means the systematic problem-solving  
51 method that dietitian nutritionists use to critically think and make

21 by a collaborative counselor-patient relationship with individuals or  
22 groups, to establish food and nutrition priorities, goals, individual-  
23 ized action plans and general physical activity guidance, that acknowl-  
24 edge and foster responsibility for self-care, to promote health and  
25 wellness or to treat or manage an existing disease or medical condition.

26 14. "Nutrition diagnosis" in the context of dietetics and nutrition  
27 practice means identifying and labeling nutritional problems managed and

40 outcomes relevant to a nutrition diagnosis, intervention plans, and  
41 goals and comparing those outcomes with a patient's previous health

43 progress made in achieving desired outcomes of nutrition care and wheth-  
44 er planned interventions should be continued or revised.

20 and is authorized to perform.

21 (c) Unless exempt under section eight thousand seven of this article,

41 supervisor and the supervisee. If the qualified supervisor assigns a  
42 nutrition care service to a supervisee that is to be provided in a  
43 setting where the qualified supervisor is not routinely present, the  
44 qualified supervisor shall ensure that the means and methods of super-  
45 vision are adequate to ensure appropriate patient care, which may  
46 include synchronous videoconferencing, or another method of communi-  
47 cation and oversight that is appropriate to the care setting and the  
48 education and experience of the supervisee.

49 (g) A qualified supervisor shall review on a regular basis the charts,  
50 records, and clinical notes of the persons supervised, and maintain  
51 responsibility for the supervisee's clinical record keeping.
