FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

SUMMARY: This proposed legislation would extend the eligibility for the payment of Transit Police Officers' and Transit Police Superior Officers' Variable Supplements Funds (VSF) benefits to former NYCERS members who retired for service from the New York City Transit Police between October 1, 1968 and June 30, 1987 with 20 or more years of service.

The entire increase in employer contributions will be allocated to New York City. There are no active Transit Police members of NYCERS and

therefore a transfer from NYCERS, via a City payment, to the impacted VSFs would be necessary to fund the additional VSF benefit obligations.

EXPECTED INCREASE (DECREASE) IN ACTUARIAL LIABILITIES

Since those that would benefit are retired, and therefore have no remaining working lifetime, the entire increase in Unfunded Accrued Liabilities would be recognized immediately.

IMPACT ON RETIREE BENEFITS: Currently, Transit Police Officers' and Transit Police Superior Officers' VSFs provide supplemental non-pension benefits to former NYCERS members who retired for service on or after July 1, 1987 from New York City Transit Police with 20 or more years of service.

The amount of VSF benefits paid is currently \$12,000 per Calendar Year. These VSF benefits are payable on an annual basis around December 15th to eligible former NYCERS members for their lifetimes. Upon the death of the NYCERS retiree, VSF payments cease.

Under the proposed legislation, former NYCERS members who retired for service from New York City Transit Police between October 1, 1968 and June 30, 1987 with 20 or more years of service would become immediately eligible for VSF benefits on the December 15th following the Effective Date and for each year thereafter. For the purposes of this Fiscal Note, it has been assumed that benefits payable under this proposed legislation are prospective only.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement systems.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions, methods, and models used, demographics of the impacted population, and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits).

STATEMENT OF ACTUARIAL OPINION: Marek Tyszkiewicz and Gregory Zelikovsky are members of the Society of Actuaries and the American Academy of Actuaries. We are members of NYCERS but do not believe it impairs our objectivity and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.
