

STATE OF NEW YORK

10503

IN ASSEMBLY

May 29, 2024

Introduced by COMMITTEE ON RULES -- (at request of M. of A. Otis) --
read once and referred to the Committee on Corporations, Authorities
and Commissions

AN ACT to amend the financial services law, in relation to requiring
certain corporations to annually prepare a climate-related financial
risk report for submission to the secretary of state and to make such
report available to the public

The People of the State of New York, represented in Senate and Assem-
bly, do enact as follows:

- 1 Section 1. Legislative intent. The legislature finds and declares all
2 of the following:
- 3 (a) Climate change is affecting New York's environment, communities,
4 and economy with impacts including wildfires, sea level rise, extreme
5 weather events, extreme droughts, and associated impacts to the global
6 economy.
- 7 (b) These impacts are expected to accelerate in coming decades unless
8 aggressive action is taken both to reduce greenhouse gas emissions and
9 to adapt New York's environments, communities and economy.
- 10 (c) Global economic and climate policy leaders have conclusively
11 established that the long-term strength of global and local economies
12 will depend on their ability to withstand the climate change-related
13 risks including physical impacts, economic transitions, and policy and
14 legal responses.
- 15 (d) Failure of economic actors to adequately plan for and adapt to
16 climate change-related risks to their businesses and to the economy will
17 result in significant harm to New York and to individual residents and
18 investors, in particular to financially vulnerable New York residents
19 who are employed by, live in communities reliant on or have invested in
20 or obtained financing from these institutions.
- 21 (e) New York is a global leader in addressing climate change causes
22 and impacts. In recent years, the state has enacted multiple legislative
23 measures, including enacting The Climate Leadership and Community
24 Protection Act of 2019 that limits statewide greenhouse gas emissions to
25 60% of 1990 levels by 2030 and 15% by 2050, the formation of the New

LBD09976-01-3

1 York state Climate Action Council and the Climate Justice Working Group
2 in 2019, and enacting the 2021 Soil Health and Climate Resiliency Act
3 that encourages management and optimization of soil health to mitigate
4 and adapt to climate change.

5 (f) Leading voluntary initiatives have begun to develop frameworks for
6 disclosure of climate change- and sustainability-related information,
7 including the Financial Stability Board's Task Force on Climate-Related
8 Financial Disclosures and the Sustainability Accounting Standards Board.

9 (g) Other jurisdictions have begun to require private and public enti-
10 ties to develop and disclose sustainability policies, including Illi-
11 nois' Sustainable Investing Act and France's Energy Transition Law Arti-
12 cle 173.

13 (h) Given business and financial institutions' contributions to
14 climate change and vulnerability to its impacts on New York and the
15 broader economy and the state's leadership in analyzing, addressing, and
16 mitigating climate risks, it is in the interest of the state to require
17 disclosure of climate-related risks and risk-reduction strategies.

18 § 2. The financial services law is amended by adding a new section 312
19 to read as follows:

20 § 312. Climate-related financial risk and required disclosures. 1. As
21 used in this section:

22 (a) "Climate-related financial risk" means material risk of harm to
23 immediate and long-term financial outcomes due to climate change,
24 including, but not limited to, risks to corporate operations, provision
25 of goods and services, real estate, supply chains, employee health and
26 safety, capital and financial investments, institutional investments,
27 financial standing of loan recipients and borrowers, shareholder value,
28 insured assets, consumer demand, and financial markets and economic
29 health.

30 (b) "Climate-related financial risk report" means a report required by
31 subdivision two of this section.

32 (c) "Covered entity" means a corporation, partnership, limited liabil-
33 ity company, or other business entity incorporated, formed, or issued a
34 license to operate or certificate of authority under the laws of the
35 state and subject to the supervision of the department that had annual
36 gross revenues of at least five hundred million dollars (\$500,000,000)
37 in the prior calendar year.

38 2. Each covered entity shall integrate the financial risks from
39 climate change in its risk management processes, governance frameworks
40 and business strategies. During this process, each covered entity
41 should take a proportionate approach that reflects its exposure to the
42 financial risks from climate change and the nature, scale and complexity
43 of its business.

44 (a) Department-regulated banking and depository institutions shall
45 designate a board member, a committee of the board, or members of senior
46 management as accountable for the organization's assessment and manage-
47 ment of the financial risks from climate change. Such entities shall
48 conduct an enterprise-wide risk assessment to evaluate climate change
49 and its impacts on risk factors, such as credit risk, market risk,
50 liquidity risk, operational risk, reputational risk, and strategy risk.
51 Each such covered entity shall develop its approach to climate-related
52 financial risk disclosure and consider engaging with the Task Force for
53 Climate-Related Financial Disclosures framework and other established
54 initiatives when doing so.

55 (b) Non-depository covered entities shall conduct a comprehensive risk
56 assessment of the physical and transition risks of climate change,

1 whether directly impacting the entity, or indirectly impacting it due to
2 the disruptive consequences of climate change in the communities it
3 serves and on its customers, such as business disruptions, out-migra-
4 tions, loss of income and higher default rates, supply chain
5 disruptions, and changes in investor and consumer sentiments, and start
6 developing strategic plans, including an outline of such risks, the
7 impact on their balance sheets, and steps to be taken to mitigate such
8 risks.

9 3. (a) On or before December thirty-first, two thousand twenty-four,
10 and annually thereafter, each covered entity shall prepare a climate-re-
11 lated financial risk report disclosing both of the following:

12 (1) its climate-related financial risk, in accordance with the recom-
13 ended framework and disclosures contained in the Final Report of Recom-
14 mendations of the Task Force on Climate-Related Financial Disclosures
15 (June 2017) or any successor thereto; and

16 (2) its measures adopted to reduce and adapt to climate-related finan-
17 cial risk disclosed pursuant to subparagraph one of this paragraph.

18 (b) On or before December thirty-first, two thousand twenty-four, and
19 annually thereafter, each covered entity shall do both of the following:

20 (1) submit to the secretary of state, and make available to the public
21 on its own internet website, a copy of the report required by this
22 section; and

23 (2) submit to the secretary of state a statement affirming, not under
24 penalty of perjury, that the report prepared and filed pursuant to this
25 section discloses climate-related financial risk in accordance with
26 subparagraph one of paragraph (a) of this subdivision.

27 4. The department shall make available to the public, on its internet
28 website, all climate-related financial risk reports obtained from
29 covered entities.

30 § 3. This act shall take effect immediately.
