AN ACT to amend the education law, in relation to requiring public and private colleges and universities to provide all incoming and current students with information about depression and suicide prevention and resources available to them on campus

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

The legislature hereby finds and Section 1. Legislative intent. 2 declares that there is a need to address the growing number of students at the collegiate level who are suffering from psychiatric stressors that may lead to suicide. The legislature further recognizes that such psychiatric stressors also contribute to difficulties in learning and success on the collegiate level. Early detection and identification of 7 at-risk individuals may not only prevent suicide, but may also allow such other students suffering from psychiatric stressors to get the support needed to be successful in their academic endeavors. The support 9 10 necessary to achieve these goals may often require collaboration between 11 college officials and parents and/or guardians in such a manner as to be 12 consistent with the needs of each student.

Therefore, to achieve the above-stated goals, the legislature hereby 14 finds and declares that every college within the state shall establish a suicide prevention program.

16 § 2. The education law is amended by adding a new section 6438-b to 17 read as follows:
