

STATE OF NEW YORK

3541

2023-2024 Regular Sessions

IN ASSEMBLY

February 3, 2023

Introduced by M. of A. PRETLOW -- read once and referred to the Committee on Health

AN ACT to amend the public health law, in relation to the preservation of access to health care services

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Subdivision 3 of section 2801-a of the public health law,
2 as amended by section 57 of part A of chapter 58 of the laws of 2010, is
3 amended to read as follows:

4 3. The public health and health planning council shall not approve a
5 certificate of incorporation, articles of organization or application
6 for establishment unless it is satisfied, insofar as applicable, as to
7 (a) the public need, determined in accordance with section twenty-eight
8 hundred one-i of this article, for the existence of the institution at
9 the time and place and under the circumstances proposed, provided,
10 however, that in the case of an institution proposed to be established
11 or operated by an organization defined in subdivision one of section one
12 hundred seventy-two-a of the executive law, the needs of the members of
13 the religious denomination concerned, for care or treatment in accordance
14 with their religious or ethical convictions, shall be deemed to be
15 public need; (b) the character, competence, and standing in the community,
16 of the proposed incorporators, directors, sponsors, stockholders,
17 members or operators; with respect to any proposed incorporator, director,
18 sponsor, stockholder, member or operator who is already or within
19 the past ten years has been an incorporator, director, sponsor, member,
20 principal stockholder, principal member, or operator of any hospital,
21 private proprietary home for adults, residence for adults, or non-profit
22 home for the aged or blind which has been issued an operating certificate
23 by the [state] department [~~of social services~~], or a halfway
24 house, hostel or other residential facility or institution for the care,
25 custody or treatment of the mentally disabled which is subject to

approval by the department of mental hygiene, no approval shall be granted unless the public health and health planning council, having afforded an adequate opportunity to members of health systems agencies, if any, having geographical jurisdiction of the area where the institution is to be located to be heard, shall affirmatively find by substantial evidence as to each such incorporator, director, sponsor, principal stockholder or operator that a substantially consistent high level of care is being or was being rendered in each such hospital, home, residence, halfway house, hostel, or other residential facility or institution with which such person is or was affiliated; for the purposes of this paragraph, the public health and health planning council shall adopt rules and regulations, subject to the approval of the commissioner, to establish the criteria to be used to determine whether a substantially consistent high level of care has been rendered, provided, however, that there shall not be a finding that a substantially consistent high level of care has been rendered where there have been violations of the state hospital code, or other applicable rules and regulations, that (i) threatened to directly affect the health, safety or welfare of any patient or resident, and (ii) were recurrent or were not promptly corrected; (c) the financial resources of the proposed institution and its sources of future revenues; and (d) such other matters as it shall deem pertinent.

§ 2. Subdivision 2 of section 2802 of the public health law, as amended by section 6 of part R of chapter 59 of the laws of 2016, is amended to read as follows:

2. The commissioner shall not act upon an application for construction of a hospital until the public health and health planning council and the health systems agency have had a reasonable time to submit their recommendations, and unless (a) the applicant has obtained all approvals and consents required by law for its incorporation or establishment (including the approval of the public health and health planning council pursuant to the provisions of this article) provided, however, that the commissioner may act upon an application for construction by an applicant possessing a valid operating certificate when the application qualifies for review without the recommendation of the council pursuant to regulations adopted by the council and approved by the commissioner, determined in accordance with section twenty-eight hundred one-i of this article, or as otherwise authorized by this section; and (b) the commissioner is satisfied as to the public need for the construction, at the time and place and under the circumstances proposed, provided however that, in the case of an application by a hospital established or operated by an organization defined in subdivision one of section ~~four hundred eighty-two-b of the social services~~ one hundred seventy-two-a of the executive law, the needs of the members of the religious denomination concerned, for care or treatment in accordance with their religious or ethical convictions, shall be deemed to be public need.

§ 3. The public health law is amended by adding a new section 2801-i to read as follows:

§ 2801-i. Preservation of access to health care services. 1. An application for establishment, incorporation or construction under section twenty-eight hundred one-a or twenty-eight hundred two of this article shall not be approved unless the commissioner affirmatively finds that:

(a) approving the application will not result in the reduction or elimination of a health care service necessary to provide comprehensive health care, including the relocation of a facility or service, in the affected community; or,

1 (b) approving the application will result in the reduction or elimi-
2 nation of a health care service necessary to provide comprehensive
3 health care, including the relocation of a facility or service, but the
4 need for the service will continue to be met in the affected community;
5 or,

6 (c) approving the application is the only feasible way to avoid a more
7 substantial reduction in, or elimination of, health care service more
8 essential to the provision of comprehensive health care in the affected
9 community; or,

10 (d) the reduction or elimination of the health care service necessary
11 to provide comprehensive health care in the affected area is reasonably
12 necessary because substantial reductions in levels of use of the service
13 are inconsistent with reasonably maintaining recognized standards of
14 care.

15 2. In making a finding under subdivision one of this section, the
16 commissioner shall consider:

17 (a) current utilization patterns for the affected services;

18 (b) geographic accessibility of proposed alternative service sites;

19 (c) the extent to which the applicant will provide timely referrals to
20 alternate service sites that assure access appropriate to the patient's
21 needs for comprehensive health care;

22 (d) the financial viability of any alternative service site with
23 respect to continued provision of the affected service; and

24 (e) the effect of the reduction, elimination or relocation of the
25 proposed service or facility on the ability of low income persons,
26 racial and ethnic minorities, women, persons with disabilities and other
27 underserved groups and the elderly to obtain needed health care.

28 § 4. This act shall take effect immediately and shall apply to any
29 determination of public need under section 2801-a or 2802 of the public
30 health law made on or after the effective date of this act.
