AN ACT to amend the civil rights law, in relation to privacy of electronic fare and toll records

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Statement of legislative intent. The legislature finds and declares that public entities increasingly are establishing electronic toll and electronic fare payment systems, which have the potential for great convenience to the general public. E-Z Pass, for example, allows motorists to have toll charges automatically deducted from pre-established accounts. Programs such as these have proven popular with consumers. But some consumers, public officials and public entities have raised legitimate questions about the extent to which records of individual travel created by such electronic toll and fare programs should be disclosed, and under what circumstances. This bill establishes reasonable, uniform provisions for maintaining the confidentiality of such records, while at the same time authorizing disclosure in cases of legitimate law enforcement need.

- 14 § 2. The civil rights law is amended by adding a new section 50-h to 15 read as follows:
- 16 § 50-h. Privacy of electronic toll and fare records. 1. Definitions.
 17 As used in this section:
- a. "Electronic toll information" shall mean records created or maintained by a public entity or by a contractor on behalf of a public entity concerning a motorist or motor vehicle regarding the use of any highway, bridge, tunnel or other thoroughfare, including but not limited to E-Z Pass records, which contain information such as, but not limited to, the name and address of the registered vehicle owner or account holder,

EXPLANATION--Matter in italics (underscored) is new; matter in brackets
[-] is old law to be omitted.
