STATE OF NEW YORK

6584--A

2023-2024 Regular Sessions

IN ASSEMBLY

April 20, 2023

Introduced by M. of A. GALLAGHER -- read once and referred to the Committee on Environmental Conservation -- committee discharged, bill amended, ordered reprinted as amended and recommitted to said committee

AN ACT to amend the environmental conservation law, in relation to requiring applicants for major projects located near disadvantaged communities to submit an enhanced public participation plan

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. The environmental conservation law is amended by adding a 1 2 new article 59 to read as follows:

ARTICLE 59

ENHANCED PUBLIC PARTICIPATION IN DISADVANTAGED COMMUNITIES

Section 59-0101. Declaration of legislative findings and intent.

59-0103. Definitions.

59-0105. Enhanced public participation plan.

59-0107. Environmental assessment.

59-0109. Applicant certification.

10 59-0111. Prohibitions.

11 § 59-0101. Declaration of legislative findings and intent.

- 12 1. The legislature finds and declares that it is the policy of the 13 state of New York to promote environmental justice and incorporate meas-14 ures for achieving environmental justice into the state's programs, policies, regulations, legislative proposals and activities. The legis-15 lature further finds and declares that economically distressed and 16 17 minority communities in the state have long borne a disproportionate and
- 18 inequitable pollution burden, caused by historic siting of sources of 19 pollution in those communities.
- 2. Many economically distressed and minority communities in the state 20 21 <u>suffer from elevated rates of respiratory illnesses</u>, including asthma,
- 22 bronchitis, and emphysema, and other adverse health effects associated

EXPLANATION -- Matter in italics (underscored) is new; matter in brackets [-] is old law to be omitted.

LBD06077-05-3

with the long-term and chronic exposure to multiple sources of pollution resulting from the disproportionate and inequitable siting of pollution 3 sources in those communities.

2

- 3. The intersection of high asthma rates, environmental pollution, and disadvantaged communities is prevalent in New York City's "Asthma Alley, "which comprises parts of Queens, the Bronx, and Brooklyn. In Astoria, Queens, two generating stations provide nearly half of New York City's electricity. This area experiences asthma rates greater than the borough average.
- 4. The disproportionate and inequitable siting of pollution sources in economically distressed and minority communities is in large part the result of inadequate notice to those communities of the proposed siting of those sources and inadequate opportunities for community input and participation during the environmental permit process.
- 5. The legislature hereby finds it in the interest of public health and safety to require major projects located in or adjacent to disadvantaged communities to undergo review and to comply with enhanced notice and public participation requirements. The legislature further finds that enhanced notice and public participation requirements for disadvantaged communities are consistent with the purposes, intent and requirements of the climate leadership and community protection act. It is the 22 intent of the legislature that economically distressed and minority communities be provided with enhanced notice of proposed projects and enhanced opportunities for input and participation during the environmental permit process so that those communities have a greater voice in the siting of new or expanded sources of pollution.
- 27 § 59-0103. Definitions.

- 28 1. "Adjacent to" shall mean within a radius of one mile from the prop-29 erty.
 - 2. "Disadvantaged community" shall have the same meaning as in subdivision five of section 75-0101 of this chapter.
 - 3. "Major project" shall mean a project which is not a minor project as defined in subdivision three of section 70-0105 of this chapter.
 - § 59-0105. Enhanced public participation plan.
 - 1. The applicant for a major project located in or adjacent to an a disadvantaged community shall, as part of its application to the department for a permit or approval in accordance with article seventy of this chapter, submit a written enhanced public participation plan to the department for review and approval. The department shall provide for a public comment period on the enhanced public participation plan of not less than sixty days. The department may, after conclusion of the public comment period, require the applicant to revise the enhanced public participation plan to address issues raised during the public comment period or to ensure that the plan complies with the requirements of this section.
 - 2. The enhanced public participation plan shall, at a minimum, include the following:
- 48 (a) A description of the proposed project, including potential envi-49 ronmental impacts of the proposed project and whether the project may cause or increase a disproportionate pollution burden on the disadvan-50 51 taged community;
- 52 (b) A description of the disadvantaged community in which the proposed project is located or which is located adjacent to the proposed project, 53 54 including a map or maps of the project and disadvantaged community;
- (c) The location of sensitive receptors in the disadvantaged communi-56 ty, including hospitals, schools, elder care facilities, day care facil-

1 ities, parks, and other sensitive areas identified by the community,
2 including a map showing the location of such receptors;

- (d) A list, developed in consultation with the disadvantaged community, of representative stakeholders in the community, including but not limited to residents, local elected officials, and community-based organizations;
- (e) A description of the manner in which public notices and other written information about the proposed project will be posted and distributed in the community and updated on a regular basis and in a timely manner;
- (f) A schedule for holding public meetings in the disadvantaged community for the purpose of providing information about the proposed project including what major project decisions will be made and when, answering questions about the project, receiving input from the community about the project, and describing how such input will be incorporated into project design, development, and implementation;
- (g) The location in the disadvantaged community of easily accessible document repositories where written information about the project will be made available, and establishment of a document website where such information will be posted;
- 21 (h) An implementation schedule for all measures set forth in the plan; 22 and
- 23 <u>(i) Provision for submission by the applicant of quarterly progress</u>
 24 reports to the department and the disadvantaged community concerning
 25 implementation of the plan.
 - 3. Written information provided to the disadvantaged community concerning the proposed project shall be presented in an easy-to-read, understandable format using plain language, and upon request shall be translated into the twelve most common non-English languages spoken by limited-English proficient individuals in the state, based on the data in the most recent American Community Survey published by the United States Census Bureau, and other commonly spoken languages in the community.
 - 4. At least three public information meetings shall be held during the permit review process at times and locations convenient for the stake-holders identified in the enhanced public participation plan, and shall be of sufficient length to allow for meaningful public input. Written notice of public information meetings shall be provided at least two weeks prior to the scheduled date of the meeting to each stakeholder identified in the enhanced public participation plan and shall be conspicuously posted at the document repositories, on the document website, and through other channels widely used by the host community as sources of information, including, but not limited to, print media, broadcast media, social media, libraries, community boards, the offices of elected representatives, and government offices that serve the public. Notices in print, broadcast, and social media shall be made with adequate repetition.
- 5. The first meeting shall be held subsequent to submission by the applicant of the permit application and enhanced public participation plan but prior to the department's issuance of a notice of complete application; the second meeting shall be held after the department's issuance of a notice of complete application but prior to the depart-ment's final decision on the application; and the third meeting shall be held during the public comment period on the draft environmental impact statement for the project. Representatives of the applicant and the department shall attend each public information meeting. The department

3

may, in consultation with the affected disadvantaged community, require additional public information meetings regardless of whether such additional meetings are included in the enhanced public participation plan.

- 4 6. Public information meetings shall provide an opportunity for mean-5 ingful public participation and input by residents of the disadvantaged 6 community and each meeting shall provide an opportunity for members of 7 the community to make statements, raise issues, and ask the applicant 8 and the department questions about the proposed project. Readily understandable visual information concerning environmental impacts must be 9 10 presented. After each public information meeting, the department shall 11 consider the statements provided and issues raised by members of the 12 community and may require the applicant to provide additional information to address issues raised, require revisions to the application, or 13 14 impose permit conditions necessary to avoid or mitigate adverse project 15 impacts.
- 7. The document repository shall contain copies of: (a) the enhanced public participation plan approved by the department; (b) all written submissions by the applicant to the department; and (c) all written communications between the applicant and the department concerning the proposed project.
- 21 § 59-0107. Environmental assessment.
- An applicant for a project subject to the requirements of this article shall submit to the department, as part of its application, a completed full environmental assessment form in compliance with article eight of this chapter.
- 26 § 59-0109. Applicant certification.
- 1. Upon completion of the enhanced public participation plan, the applicant shall submit written certification to the department that it has complied with the plan, including a final report summarizing issues raised by the disadvantaged community and how those issues were resolved or addressed. The certification shall be signed by the applicant, or the applicant's agent, and submitted to the department prior to a final decision on the application.
- 2. The department shall provide a public comment period of not less
 than sixty days on the applicant's certification and final report.

 Following close of the public comment period, the department shall issue
 a written determination whether the applicant has fully and completely
 implemented the enhanced public participation plan.
- 39 <u>§ 59-0111. Prohibitions.</u>
- 1. The department shall not issue a notice of complete application for
 a proposed project subject to the requirements of this article unless
 the applicant has submitted an enhanced public participation plan and
 the department has approved the plan.
- 2. The department shall not accept as complete a draft environmental impact statement prepared pursuant to article eight of this chapter for a project subject to the requirements of this article unless the applicant has an enhanced public participation plan approved by the department and has, as of the date of submission of the draft environmental impact statement, complied with the schedule for implementing the plan.
- 3. The department shall not issue a permit or approval for a proposed project subject to the requirements of this article unless the applicant has submitted the certification and final report required by subdivision one of section 59-0109 of this article and the department has issued the written determination required by subdivision two of section 59-0109 of this article.

1 § 2. This act shall take effect on the one hundred eightieth day after 2 it shall have become a law. Effective immediately, the addition, amend-3 ment and/or repeal of any rule or regulation necessary for the implemen-4 tation of this act on its effective date are authorized to be made and 5 completed on or before such effective date.
