FISCAL NOTE.-- Pursuant to Legislative Law, Section 50:

This bill would provide an increase in the defined benefit cost-of-living adjustment (COLA) for New York public retirement systems. Starting with the payment in September 2024, the base benefit for computation of the annual COLA, currently \$18,000, will be increased annually by 50% of the annual inflation rate not to exceed 3% or be less than 1%.

The provisions of Section 25 of the Retirement and Social Security Law shall not apply.

This proposal primarily benefits current and former members of Tiers 1 - 5. The cost of this benefit improvement will disproportionately be borne by current and future members of Tier 6.

Insofar as this bill affects the New York State and Local Employees' Retirement System (NYSLERS), the increased costs would be shared by the State of New York and the local participating employers in the NYSLERS. If this bill were enacted during the 2024 Legislative Session, the increase in the present value of benefits would be approximately \$1.30 billion.

NYSLERS	Increase in present value benefits	Increase in required contributions
Tiers 1 - 5	\$1.03 billion	\$634 million
Tier 6	\$0.27 billion	\$663 million
Total	\$1.30 billion	\$1.30 billion

In the NYSLERS, this benefit improvement will be funded by increasing the billing rates charged annually to cover both retrospective and prospective benefit increases. The annual contribution required of all participating employers in NYSLERS is 0.4% of billable salary, or approximately \$51 million to the State of New York and approximately \$76 million to the local participating employers. This permanent annual cost will vary in subsequent billing cycles with changes in the billing rate and salary of the affected members.

Insofar as this bill affects the New York State and Local Police and Fire Retirement System (NYSLPFRS), the increased costs would be shared by the State of New York and the local participating employers in the NYSLPFRS. If this bill were enacted during the 2024 Legislative Session, the increase in the present value of benefits would be approximately \$189 million.

NYSLPFRS	Increase in present value benefits	Increase in required contributions
Tiers 1 - 5	\$150 million	\$80 million
Tier 6	\$39 million	\$109 million
Total	\$189 million	\$189 million

In the NYSLPFRS, this benefit improvement will be funded by increasing the billing rates charged annually to cover both retrospective and prospective benefit increases. The annual contribution required of all participating employers in NYSLPFRS is 0.4% of billable salary, or approximately \$3.4 million to the State of New York and approximately \$14 million to the local participating employers. This permanent annual cost will vary in subsequent billing cycles with changes in the billing rate and salary of the affected members.

We anticipate some administrative costs to implement the provisions of this legislation.
