FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would provide an increase in the defined benefit cost-of-living adjustment (COLA) for the New York State and Local Retirement System. Starting with payments in September 2025, the annual COLA will be computed on a base benefit amount not to exceed \$21,000. Currently, the base benefit amount does not exceed \$18,000. Additionally, the COLA increment from 2002 to 2023 will be recomputed based on one hundred percent of annual inflation without retroactive payments. Future COLA increments will be based on fifty percent of annual inflation.

This proposal primarily benefits current and former members of Tiers 1 - 5. The cost of this benefit improvement will primarily be borne by current and future members of Tier 6.

Insofar as this bill affects the New York State and Local Employees' Retirement System (NYSLERS), the increased costs would be shared by the State of New York and the local participating employers in the NYSLERS. If this bill were enacted during the 2024 Legislative Session, the increase in the present value of benefits would be approximately \$5.43 billion.

NYSLERS	Increase in present value benefits	Increase in required contributions
Tiers 1 - 5	\$5.29 billion	\$2.92 billion
Tier 6	\$0.14 billion	\$2.51 billion
Total	\$5.43 billion	\$5.43 billion

In the NYSLERS, this benefit improvement will be funded by increasing the billing rates charged annually to cover both retrospective and prospective benefit increases. The annual contribution required of all

participating employers in NYSLERS is 1.9% of billable salary, or approximately \$240 million to the State of New York and approximately \$360 million to the local participating employers. This permanent annual cost will vary in subsequent billing cycles with changes in the billing rate and salary of the affected members.

Insofar as this bill affects the New York State and Local Police and Fire Retirement System (NYSLPFRS), the increased costs would be shared by the State of New York and the local participating employers in the NYSLPFRS. If this bill were enacted during the 2024 Legislative Session, the increase in the present value of benefits would be approximately \$626 million.

NYSLPFRS	Increase in present value benefits	Increase in required contributions
Tiers 1 - 5	\$604 million	\$299 million
Tier 6	\$22 million	\$327 million
Total	\$626 million	\$626 million

In the NYSLPFRS, this benefit improvement will be funded by increasing the billing rates charged annually to cover both retrospective and prospective benefit increases. The annual contribution required of all participating employers in NYSLPFRS is 1.3% of billable salary, or approximately \$11 million to the State of New York and approximately \$46 million to the local participating employers. This permanent annual cost will vary in subsequent billing cycles with changes in the billing rate and salary of the affected members.

Further, we anticipate significant administrative costs to implement the provisions of this legislation.
