LBD05836-03-4

Credit for service as a member or officer of the state police or as a paid fireman, policeman or officer of any organized fire department or police force or department of any county, city, village, town, fire district or police district, shall also be deemed to be creditable service and shall be included in computing years of total service for retirement pursuant to this section, provided such service was performed by the member while contributing to the retirement system pursuant to the provisions of this article or article eight of this chapter.

§ 562. Optional twenty year retirement plan for certain members whose employer elects to provide same. (a) Any member of the retirement system may elect to become a member pursuant to the provisions of this section within one year after he or she becomes a member, if his or her employer has elected to make the benefits provided by this section available to members, or within one year after his or her employer elects to make the benefits provided by this section available to its members.

(b) Elections made pursuant to this section shall be in writing and shall be duly acknowledged and filed with the comptroller. Any member who files such an election pursuant to this section may withdraw it after it has been filed for at least a year. Such withdrawal shall be by written notice duly acknowledged and filed with the comptroller.

(c) A member participating on the basis of this section at the time of retirement shall be entitled to retire after the completion of twenty years of total creditable service or upon the attainment of age sixty-two, by filing an application therefor in a manner similar to that provided in this chapter.

(i) Upon completion of twenty years of such service and upon retirement, each such member shall receive a pension sufficient to provide him or her with a retirement allowance equal to one-fortieth of his or her final average salary for each year of total creditable services for which he or she is otherwise entitled but not exceeding in the aggregate one-half of his or her final average salary.

(ii) Upon attainment of age sixty-two and upon retirement without completion of twenty years of such service, each such member shall receive a pension sufficient to provide him or her with a retirement allowance equal to one-fortieth of his or her final average salary for each year of creditable service. Every such member shall also be entitled to an additional pension equal to the pension for any other creditable service rendered as otherwise provided for in this chapter. This latter pension shall not increase the total allowance to more than one-half of his or her final average salary.

(d) The increased pensions to such members, as provided by this section, shall be paid from additional contributions made by the participating employer on account of such members. The actuary of the retirement system shall compute the additional contribution required for each member who elects to receive the special benefits provided under this section. Such additional contributions shall be computed on the basis of contributions during the prospective service of such member which will cover the liability of the retirement system for such extra pensions. Upon approval of the comptroller, such additional contributions shall be certified by him or her to the chief fiscal officer or the participating employer. The amount thereof shall be included in the annual appropriation of the participating employer. Such amount shall be paid on the warrant of the chief fiscal officer of the participating employer to the pension accumulation fund of the retirement system.

(e) In computing the twenty years of completed service of a member, full credit shall be given for military service as defined in subdivi-

1 sions twenty-nine-a and thirty of section three hundred two of this
2 chapter.

3 (f) Every member participating on the basis of this section shall be
4 separated from the service on the last day of the calendar month next
5 succeeding the calendar month in which he or she attains age sixty-two,
6 provided, however, that such a member who attained the age of sixty-two
7 before his or her employer elected to make the benefits provided by this
8 section available to him or her, or who attains the age of sixty-two
9 within one month after his or her employer makes such benefits avail-
10 able, to be eligible for a pension computed in accordance with the
11 provisions of this section, shall be separated from the service within
12 three months after his or her employer makes such benefits available.

13 (g) The provisions of this section shall be controlling notwithstand-
14 ing any other provision of this article to the contrary.

15 (h) The benefits of this section shall be available only to those
16 members whose employer elects to provide such benefits by adopting a
17 resolution or local law to such effect and filing a certified copy ther-
18 eof with the comptroller.

19 (i) The benefits provided by this section shall be payable to a
20 member, unless at the date of retirement such member would otherwise be
21 entitled to a greater benefit under other provisions of this chapter had
22 he or she withdrawn from this section, in which event such greater bene-
23 fits shall be payable.

24 § 563. Additional pension benefit for members of optional twenty year
25 retirement plan. (a) A participating employer which has elected, or
26 which elects to provide the benefits of the optional twenty year retire-
27 ment plan for its employees as specified in this article may elect to
28 make contributions for the purpose of providing an additional pension
29 pursuant to this section for members in its employ who are entitled to a
30 pension pursuant to section five hundred sixty-two of this article.
31 Every member employed by an employer which has elected the provisions of
32 section five hundred sixty-two of this article and this section may
33 elect to be covered by the provisions of this section by filing with the
34 comptroller, a duly executed and acknowledged form prepared by the comp-
35 troller for that purpose.

36 (b) Upon retirement, each such member shall receive, for each year of
37 service in excess of twenty, an additional pension which shall be equal
38 to one-sixtieth of his or her final average salary; provided, however,
39 that the total allowance payable pursuant to this section shall not
40 exceed three-quarters of such member's final average salary.

41 § 564. Consistent provisions. Nothing contained in this article shall
42 be construed to otherwise affect the applicability of article eleven,
43 fourteen or fifteen of this chapter. Any other provisions of this chap-
44 ter relating to mandatory contribution to the retirement system based
45 upon a member's date of membership in such system shall not be deemed to
46 be affected by the provisions of this article, and any member who on the
47 effective date of this article is not required to contribute shall not
48 be required to make any contributions as a result of this section. For
49 those members required to contribute to the retirement system, such
50 contribution shall be treated in the same manner as specified for such
51 members in article fourteen or fifteen of this chapter.

52 § 2. Any past service payments required of a county as a result of the
53 adoption of the benefits permitted by this act may be amortized over a
54 period of up to ten years at the option of such county.

55 § 3. This act shall take effect immediately.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would add Article 14-C to the Retirement and Social Security Law, creating county electable twenty-year plans covering any county correction officers and deputy sheriffs engaged directly in correction officer duties that aggregate at least fifty percent of their service. A county may elect to provide a retirement benefit equal to fifty percent of final average salary after twenty years of service. A county may further elect to provide for additional sixtieths for service in excess of twenty years. All service rendered as a correction officer, sheriff, deputy sheriff or undersheriff, a member or officer of the State Police, a paid firefighter, a police officer, or an officer of any organized fire department or police force will be creditable. The retirement benefit is not to exceed seventy-five percent of final average salary.

If this bill is enacted during the 2024 Legislative Session, there will be an increase in the annual contributions of any electing county for the fiscal year ending March 31, 2025, as approximated in the following table. In future years, these costs will vary as the billing rates of the affected members change.

Current Plan	Article 14-C 20-Year Plan	Article 14-C 20-Year Plan with additional sixtieths
Article 14 or Article 15	9.0%	10.3%
89*, 25-Year Plans	4.9%	6.4%
County Law Enforcement		
Article 14-B 25-Year Plan	3.7%	5.2%
Article 14-B 25-Year Plan	2.1%	3.6%
25-Year Plan		
with additional sixtieths		

In addition to the annual contributions discussed above, there will be an immediate past service cost that will depend upon the affected members' service, salary, tier, current retirement plan, and new retirement plan. Once a county elects to provide this coverage, an exact cost will be determined based on a roster of eligible members provided by the county. The past service cost may be amortized over a period of up to ten years.

Further, we anticipate additional administrative costs to implement the provisions of this legislation.
