FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would amend the Retirement and Social Security Law to
provide Tier 1 and Tier 2 members of the New York State and Local
Employees' Retirement System (NYSLERS) and all members of the New York
State and Local Police and Fire Retirement System (NYSLPFRS) with a

presumption that any disability or death resulting from impairments of health related to Parkinson's Disease are the result of an accident sustained in the performance of duty unless the contrary can be proven by competent evidence. To be eligible, the member must (1) be a volunteer firefighter in New York State and have been for at least 5 years, (2) have passed a physical examination, and (3) submit documentation verifying these eligibility requirements are satisfied.

Insofar as this bill affects the NYSLERS and NYSLPFRS, if this legislation is enacted during the 2024 Legislative Session, it would lead to more disabilities being classified as "accidental." The cost of the revised benefit will depend upon the applicant's age, service, salary, plan, and any benefit type otherwise payable but would average:

Benefit prior to enactment:	None	Ordinary Disability	Performance of Duty	Service Retirement
Cost for proposed benefit:	10 times salary	5.5 times salary	3 times salary	2 times salary

Further, we anticipate that there could be some administrative costs to implement the provisions of this legislation.

The exact number of current members as well as future members who could be affected by this legislation cannot be readily determined. Those costs arising in the NYSLERS and NYSLPFRS will be shared by the State of New York and the participating employers of each system, respectively.

Membership data as of March 31, 2023 was used in measuring the impact of the proposed change, the same data used in the April 1, 2023 actuarial valuation. Distributions and other statistics can be found in the 2023 Report of the Actuary and the 2023 Annual Comprehensive Financial Report.

This fiscal note does not constitute a legal opinion on the viability of the proposed change nor is it intended to serve as a substitute for the professional judgment of an attorney.

This estimate, dated March 5, 2024, and intended for use only during the 2024 Legislative Session, is Fiscal Note No. 2024-63, prepared by the Actuary for the New York State and Local Retirement System.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would amend various sections of the Education Law and the Retirement and Social Security Law to provide an accidental disability benefit to an eligible active member or an accidental death benefit to the beneficiary of an eligible deceased member of the New York State Teachers' Retirement System who has been a volunteer firefighter in New York State for a minimum of five years and develops any condition of impairment of health caused by Parkinson's Disease resulting in total disability or death. Such impairment of health due to Parkinson's

Disease will be considered caused by an accident, not caused by such member's own willful negligence, and will be considered to have been incurred in the performance of duty.

Under current law a disability benefit is generally equal to one-third of final average salary. Ten years of service are required to be eligible for a disability benefit, although this ten-year requirement is waived in the case of an accidental disability incurred during the performance of duty. The amount of the accidental disability benefit is the same as that of the ordinary disability benefit.

Under current law the death benefit for an active member who dies prior to retirement is generally equal to three times the member's last year's salary, payable as a lump sum. The death benefit for an active member who dies prior to retirement as the result of an accident sustained during the performance of duty is equal to a lifetime benefit equal to 50% of the regular salary earned during the member's last year of service.

The overall cost of this bill cannot be readily determined as the ultimate number of volunteer firefighter disability retirements or accidental deaths caused by Parkinson's Disease cannot be determined at this time.

The average cost per individual member impacted is estimated as follows:

Member Age	Disability Benefit	Accidental Death Benefit
30	\$250,000 (4.3 times salary)	\$240,000 (4.2 times salary)
40	\$320,000 (4.0 times salary)	\$310,000 (3.9 times salary)
50	\$360,000 (3.6 times salary)	\$350,000 (3.5 times salary)

The actual cost per member would depend on the member and beneficiary's age, tier, years of service and salary. The costs above are determined based on averages, so the actual cost for a member could be higher or lower.

Member data is from the System's most recent actuarial valuation files as of June 30, 2023, consisting of data provided by the employers to the Retirement System. The most recent data distributions and statistics can be found in the System's Annual Report for fiscal year ended June 30, 2023. System assets are as reported in the System's financial statements and can also be found in the System's Annual Report. Actuarial assumptions and methods are provided in the System's Actuarial Valuation Report as of June 30, 2023.
