FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would modify the in-service death benefit for retirement eligible members of the New York State and Local Employees' Retirement System who are employed as state-paid judges or justices of the Unified Court System. The in-service death benefit will be the value of the pension reserve as if the member had retired on their date of death.

If this bill is enacted during the 2024 Legislative Session, we anticipate that there will be an increase of approximately \$243,000 in the annual contributions of the State of New York for the fiscal year ending March 31, 2025. In future years, this cost will vary as the billing rates and salary of the affected members change.

In addition to the annual contributions discussed above, there will be an immediate past service cost of approximately \$3.86 million which will be borne by the State of New York as a one-time payment. This estimate assumes that payment will be made on March 1, 2025. If the State of New York elects to amortize this cost over a 10-year period, the cost for each year including interest would be \$493,000.

These estimated costs are based on 1,148 affected members employed by the State of New York, with annual salary of approximately \$222 million as of March 31, 2023.
