## IN ASSEMBLY

March 26, 2024

Introduced by M. of A. BORES -- read once and referred to the Committee on Cities

AN ACT to amend the general municipal law, in relation to interagency data sharing by agencies of a city with a population of one million or more for providing benefits, services or care coordination

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Short title. This act shall be known and may be cited as 1 the "one city act". 2 2. The general municipal law is amended by adding a new section 3 S 4 139-e to read as follows: 5 § 139-e. Data sharing by agencies within a local government for providing benefits, services or care coordination. 1. Applicability. 6 7 This section shall apply to cities having a population of one million or 8 more. 9 2. Legislative intent. The legislature hereby finds, determines, and 10 declares that the effective delivery of benefits, services and care coordination by a local government to its populace may be improved 11 12 through cooperative data-sharing arrangements that enable its agencies to act, in effect, as a single coordinated entity, "one city", for such 13 14 purposes. The delivery of benefits, services and care coordination often 15 either requires or is buttressed by the sharing of the personal informa-16 tion collected from individuals or households by one local government agency with other local government agencies, particularly where the same 17 individual or household is known to multiple local government agencies 18 or faces complex challenges requiring cross-agency coordination to 19 20 effectively address a pressing need for government services, such as but 21 not limited to food, shelter, mental health services, public benefits, 22 and health care. The legislature recognizes the importance of ensuring 23 robust protections for safeguarding the privacy of the personal information that individuals have entrusted to their local government while 24 25 also enabling its agencies to responsibly share such information with 26 each other in order to effectively deliver benefits, services and care 27 coordination to its populace. State authority for cooperative data-shar-
