2023-2024 Regular Sessions

IN SENATE

January 12, 2023

Introduced by Sen. ORTT -- read twice and ordered printed, and when printed to be committed to the Committee on Internet and Technology

AN ACT to establish the internet media freedom task force; and providing for the repeal of such provisions upon expiration thereof

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Legislative findings. The twenty-first century has seen an 2 increasing reliance upon social media as a source of news and information. Social media platforms allow third-party users to post content on an unlimited number of issues, and, unfortunately, though not solely designed or intended for such use, more and more people have come to rely on these third-party postings as their main source of news. Some social media platforms have recently taken it upon themselves to act as arbiters of truth, and have even gone so far as to block access to the President of the United States. Given the expanding use of, and reliance on, these social media platforms as a source of news, it is imperative 10 that use of such platforms be open and maintained for all people to 12 ensure that no perspective or piece of information is barred or blocked from view by the public at large who has come to rely on such platforms 14 for information.
