The report shall include, but not be limited to, a comparative analysis of hospital prices paid by the plan, for each hospital facility identified by name and CMS Certification Number (CCN) or successor identifier, based on the following service categories: (i) inpatient hospital, (ii) outpatient hospital, and (iii) emergency room services; and the report shall also include the price per service and gross amount spent per hospital facility on the top twenty services within each of the following service categories: (A) inpatient, (B) outpatient and (C) emergency room services.
