- 12 (a) Every prescription written in this state by a person authorized to issue such prescription shall be on prescription forms containing one 13 14 line for the prescriber's signature. The prescriber's signature shall 15 validate the prescription. Notwithstanding any other 40 provision of this section or any other law, when a generic drug is not 41 42 available and the brand name drug originally prescribed is available and 43 the pharmacist agrees to dispense the brand name product for a price that will not exceed the price that would have been charged for the generic substitute had it been available, substitution of a generic drug 45 46 product will not be required. If the generic drug product is not avail-47 able and a medical emergency situation, which for purposes of this 48 section is defined as any condition requiring alleviation of severe pain which threatens to cause disability or take life if not promptly 49 treated, exists, then the pharmacist may dispense the brand name product 50 51 at his regular price.
