LBD06281-07-3

This bill would allow Lori Cohen, a retired Tier 3 member of the New York State Teachers' Retirement System, to be reclassified as a Tier 2 member. Her date of membership would be changed to July 1, 1975 based upon her employment as a substitute teacher with the Oceanside School District and the Rockville Centre School District. Upon reclassification as a Tier 2 member, Ms. Cohen's pension would be recalculated with retroactive adjustment to payments made since her date of retirement of July 1, 2018. No refund of any member contributions shall be made. Ms. Cohen must file a written request with the head of the New York State Teachers' Retirement System within one year of the effective date of this bill.

The cost of this benefit is equal to the increase in the present value of liabilities, including retroactive payments to her date of retirement, which is estimated to be \$135,000. This cost is to be borne by the employers of members of the New York State Teachers' Retirement System.

Member data is from the System's most recent actuarial valuation files, consisting of data provided by the employers to the Retirement System. Data distributions and statistics can be found in the System's Annual Report. System assets are as reported in the System's financial statements and can also be found in the System's Annual Report.
