FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would allow county employers to elect to provide correction officers with an increased limit on the overtime compensation included in the final average salary calculation beginning January 1, 2025. The improved limit would be thirty percent of a member's annual wages, if greater than the limit. Current limits were set at \$15,000 at the inception of each tier, with the Tier 5 limit increasing 3% annually and the Tier 6 limit increasing annually with inflation.

If this bill is enacted during the 2024 Legislative Session, we anticipate that there will be an increase in the annual contributions of any electing county of 0.4% of affected correction officers' salary for Tier 5 and 1.0% of affected correction officers' salary for Tier 6 for the fiscal year ending March 31, 2025. In future years, this cost will vary as the billing rates and salary of the affected members change.

In addition to the annual contributions discussed above, there will be an immediate past service cost of approximately 5.4% of affected correction officers' salary, which will be borne by any electing county as a one-time payment. This estimate assumes that payment will be made on February 1, 2025.

Further, we anticipate administrative costs to implement the provisions of this legislation.

The exact number of current members as well as future members who could be affected by this legislation cannot be readily determined. Prior to electing to provide these benefits, an eligible county would be required to submit a roster of individuals in covered titles to the New York State and Local Retirement System. This roster would be used to develop an exact cost for the individual county electing to provide these benefits.
