FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

SUMMARY OF BILL: This proposed legislation would amend Sections 505, 511, and 516 of the Retirement and Social Security Law (RSSL) to eliminate the offset equal to 50% of the primary social security benefit in the service, early service, and vested retirement benefits for Tier 3 original, revised, and enhanced plan members of the New York City Police Pension Fund (POLICE).

Effective Date: Sixty days after enactment.

IMPACT ON BENEFITS: Currently, the Tier 3 normal service retirement, early service retirement, and vested retirement benefits are subject to an offset equal to 50% of the primary social security benefit as defined in RSSL Section 511 beginning at age 62.

Under the proposed legislation, the offset for such benefits would be eliminated resulting in an increase in benefits.

FINANCIAL IMPACT: Based on the census data and the actuarial assumptions and methods described herein, the enactment of this proposed legislation would result in an initial increase in the Present Value of Future Benefits (PVFB) and the present value of future employer contributions of approximately \$675.0 million.

The financial impact will increase as the impacted population increases over time. The estimate of the increase in annual employer contributions for Fiscal Years 2024 through 2028 are shown in the table below.

Fiscal Year	Increase in Employer Contributions (\$ Millions)
2024	\$ 50.8
2025	\$ 54.8
2026	\$ 59.1
2027	\$ 63.9
2028	\$ 69.4

New Unfunded Accrued Liability (UAL) attributable to benefit changes are generally amortized over the remaining working lifetime of those impacted by the benefit changes. The remaining working lifetime for this group is approximately 18 years and the increase in UAL was therefore amortized over an 18-year period (17 payments under the One-Year Lag Methodology) using level dollar payments.

CENSUS DATA: The estimates presented herein are based on the census data used in the June 30, 2022 actuarial valuation of POLICE to determine the Preliminary Fiscal Year 2024 employer contributions.

The 19,375 active POLICE Tier 3 members as of June 30, 2022 had an average age of approximately 32.2 years, average service of approximately 5.7 years, and an average salary of approximately \$101,600.

ACTUARIAL ASSUMPTIONS AND METHODS: The estimate presented herein have been calculated based on the actuarial assumptions and methods used to determine the Preliminary Fiscal Year 2024 employer contributions of POLICE.

New entrants were projected to replace the members expected to leave the active population to maintain a steady-state population. New entrant demographics were developed based on data for recent new hires and actuarial judgement.

For the purposes of this Fiscal Note, it is assumed that the changes would be reflected for the first time in the June 30, 2022 actuarial valuation of POLICE used to determine employer contributions for Fiscal Year 2024.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the realization of the actuarial assumptions used, demographics of the impacted population and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein.

Costs are also dependent on the actuarial methods used, and therefore different actuarial methods could produce different results. Quantifying these risks is beyond the scope of this Fiscal Note.

Not measured in this Fiscal Note are the following:

- * The initial additional administrative costs to implement the proposed legislation.

- * Pension costs for future members of POLICE hired on or after 7/1/2026.

- * Cost analyses relating to provisions contained in RSSL Section 500(c).
