AN ACT to amend the public health law, in relation to imposing a nursing home purchase moratorium on those who own or have owned failing facilities

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. The legislature recognizes the importance of holding nursing homes accountable in order to ensure a high quality of care. This body acknowledges department of health inspections as the method of holding nursing homes to our state's standards. The legislature also recognizes that nursing home operators who receive poor inspection grades are not meeting our state's standards.

2 The legislature intends to bar failing nursing home owners from acquiring additional nursing homes in this state until they have demonstrated an ability to keep their existing facilities up to standard.

3 § 2. The public health law is amended by adding a new section 2808-f to read as follows:

4 § 2808-f. Nursing home purchasing moratorium. 1. For the purposes of this section, the term "owned facility" shall mean any facility disclosed under subdivisions two and three of this section.

5 2. Any individual attempting to purchase a nursing home shall disclose to the department which existing medical facilities that individual or that individual's spouse owns within the state. Additionally, such individual shall disclose whether any partnership, corporation, firm, society, or other entity of which that individual or that individual's spouse owns more than ten percent of or by which the individual or that individual's spouse is employed owns existing medical facilities in the state.

6 3. Any partnership, corporation, firm, society, or other entity attempting to purchase a nursing home shall disclose to the department
