19 the provisions of this section.

20 § 3. This act shall take effect December 1, 2023.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

SUMMARY OF BILL: This proposed legislation would amend Sections 13-191
and 13-192 of the Administrative Code of the City of New York (ACCNY),
both enacted by Chapter 844 of the Laws of 1987, to extend the eligibil-
ity provisions providing for the payment of Transit Police Officers' and
Transit Police Superior Officers' Variable Supplements Funds (VSF) bene-
fits to certain retirees.

Specifically, this proposed legislation would provide for payments to
former New York City Employees' Retirement System (NYCERS) members who
are retired for service from the New York City Transit Police (TP)
between October 1, 1968 and June 30, 1987 (Prior Retirees) with 20 or
more years of service. These benefits would be paid from the following
VSFs (referred to hereafter as the Impacted VSFs):

* Transit Police Officers' Variable Supplements Fund (TPOVSF), and

* Transit Police Superior Officers' Variable Supplements Fund
(TPSOVSF).

Effective Date: December 1, 2023.

IMPACT ON BENEFITS - VSF PAYMENTS: Each of the Impacted VSFs currently
provides supplemental non-pension benefits to former NYCERS members who
retired for service on or after July 1, 1987 from TP with 20 or more
years of service.

The amount of VSF benefits paid is currently \$12,000 per Calendar
Year. These VSF benefits are payable on an annual basis around December
15th to eligible former NYCERS members for their lifetimes. There are no
optional forms of payment. Upon the death of the NYCERS retiree, VSF
payments cease.

If the proposed legislation were to be enacted, all Prior Retirees
would become immediately eligible for VSF benefits on the December 15th
subsequent to the Effective Date and for each year thereafter.

For the purposes of this Fiscal Note, it has been assumed that bene-
fits payable under this proposed legislation are prospective only (i.e.,
there would be no retroactive payments for VSF benefits due before the
Effective Date for such Prior Retirees).

FINANCIAL IMPACT - PRESENT VALUES: Based on the census data and the
actuarial assumptions and methods described herein, the enactment of
this proposed legislation would result in an increase in the Present

Value of Future Benefits (PVFB) of the Impacted VSFs of approximately \$21.6 million.

There are no active TP members of NYCERS and therefore there is no mechanism in place for funding the TP VSFs since the VSFs' funding allocation method normally would be based on the ratio of active TP member salaries to salaries of all active members in NYCERS. Therefore, a transfer from NYCERS to the Impacted VSFs would be necessary to fund the additional VSF benefit obligations.

FINANCIAL IMPACT - EMPLOYER CONTRIBUTIONS: The enactment of this proposed legislation would result in an increase in Fiscal Year 2024 contributions of approximately \$23.9 million.

For the purposes of this Fiscal Note, since those that would benefit are retired, and therefore have no remaining working lifetime, the entire increase in PVFB with interest to Fiscal Year 2024 would be recognized immediately.

CENSUS DATA: The estimates presented herein are based on the census data used in the June 30, 2022 actuarial valuation of NYCERS to determine the Preliminary Fiscal Year 2024 employer contributions.

The 334 Prior Retirees as of June 30, 2022 had an average age of approximately 81.2 years.

ACTUARIAL ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the actuarial assumptions and methods used for the Preliminary Fiscal Year 2024 employer contributions of NYCERS.

For the purposes of this Fiscal Note, it is assumed that the changes would be reflected for the first time in the June 30, 2022 actuarial valuation of NYCERS used to determine employer contributions for Fiscal Year 2024.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the realization of the actuarial assumptions used, demographics of the impacted population and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein.

Costs are also dependent on the actuarial methods used, and therefore different actuarial methods could produce different results. Quantifying these risks is beyond the scope of this Fiscal Note.

Not measured in this Fiscal Note are the following:

* The initial additional administrative costs to implement the proposed legislation.
