

STATE OF NEW YORK

7128--A

2023-2024 Regular Sessions

IN SENATE

May 18, 2023

Introduced by Sen. GOUNARDES -- read twice and ordered printed, and when printed to be committed to the Committee on Civil Service and Pensions -- committee discharged, bill amended, ordered reprinted as amended and recommitted to said committee

AN ACT to amend the general municipal law, in relation to allowing certain members of the New York city fire department pension fund to receive a membership date in the New York city fire department pension fund attributable to service in the titles of police cadet program or police cadet program II in the New York city police department cadet program

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Section 209-fff of the general municipal law, as added by
2 chapter 431 of the laws of 2019, is amended to read as follows:
3 § 209-fff. Provisions relating to a membership date in the New York
4 city police pension fund or the fire department pension fund attribut-
5 able to service in the titles of police cadet program and police cadet
6 program II in the New York city police department cadet program. 1.
7 Notwithstanding any provision of law to the contrary, upon election, any
8 member of the New York city police pension fund or the New York city
9 fire department pension fund who is subject to article fourteen of the
10 retirement and social security law, and who served in the New York city
11 police department cadet program in the title of police cadet program or
12 police cadet program II prior to April first, two thousand twelve, but
13 did not join the New York city employees' retirement system while serv-
14 ing in either such title, may purchase credit for the period of service
15 in such titles in the New York city police department cadet program by
16 paying into the New York city police pension fund or the New York city
17 fire department pension fund all member contributions plus interest, at
18 a rate of five percent per annum, which would have been payable to the
19 New York city employees' retirement system under any provision of law

EXPLANATION--Matter in italics (underscored) is new; matter in brackets
[-] is old law to be omitted.

LBD10936-02-3

1 had such member joined the New York city employees' retirement system on
2 the earliest date that he or she was appointed to the title of police
3 cadet program or police cadet program II in the New York city police
4 department cadet program, provided such payment is made within five
5 years after the effective date of this section.

6 2. Any member of the New York city police pension fund or the New York
7 city fire department pension fund who acquires service credit pursuant
8 to this section shall be entitled to all rights, benefits and privileges
9 to which he or she would have been entitled had his or her membership in
10 the New York city police pension fund or the New York city fire depart-
11 ment pension fund begun upon the earliest date that he or she was
12 appointed to the title of police cadet program or police cadet program
13 II in the New York city police department cadet program, but in no event
14 shall the service credit acquired pursuant to this section be deemed to
15 be: (a) service in the police force or any other type of service counted
16 or creditable as service in the police force under section 13-218 of the
17 administrative code of the city of New York[7]; (b) service in the fire
18 department of the city of New York or any other type of service counted
19 or creditable as service in such fire department under section 13-318 of
20 the administrative code of the city of New York; or (c) service under
21 section five hundred thirteen of the retirement and social security law
22 or any other provision of law for purposes of eligibility for benefits
23 and to determine the amount of benefits under the New York city police
24 pension fund or the New York city fire department pension fund.

25 § 2. This act shall take effect immediately.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

SUMMARY OF BILL: This proposed legislation would amend Section 209-fff of the General Municipal Law (GML) to allow New York City Fire Pension Fund (FIRE) members subject to Article 14 of the Retirement and Social Security Law (RSSL) (Tier 3, Tier 3 Modified, and Tier 3 Enhanced) to purchase prior service as a cadet in the New York Police Department (NYPD) and use the appointment date as a cadet to determine the initial date of FIRE membership for plan or tier eligibility provided such purchase of service is made within five years of October 29, 2019.

Effective Date: Upon enactment.

BACKGROUND: Currently, the purchase of prior NYPD cadet service performed while not a member of the New York City Employees' Retirement System (NYCERS) does not provide a retroactive date of membership in FIRE, nor would it provide additional service retirement benefits for members subject to Article 14 of the RSSL.

IMPACT ON BENEFITS: Under the proposed legislation, if enacted, purchased NYPD cadet service performed while not a member of NYCERS would entitle such member with a cadet service date before July 1, 2009 to be deemed a Tier 2 member, and such service would be included in the calculation of benefits as non-qualifying service credit.

Also, under the proposed legislation, if enacted, purchased NYPD cadet service would entitle members with cadet service between July 1, 2009 and April 1, 2012 who joined FIRE after April 1, 2012 as a Tier 3 Modified or Enhanced member to be deemed an original Tier 3 member.

IMPACT ON PAYABILITY: Since eligibility for FIRE benefits are based on tier or plan, including cadet service towards tier or plan, eligibility would increase and/or accelerate the payability date of benefits in accordance with applicable earlier tiers or plans.

ADDITIONAL MEMBER CONTRIBUTIONS: For cadets who did not join NYCERS, the member would have to pay member contributions that would have been

payable to NYCERS had they joined on their initial cadet appointment date, plus 5.0% annual interest.

Member contributions for FIRE are determined by tier and plan as follows:

- * Tier 2 - contribution rates are based on entry age.
- * Tier 3 and Tier 3 Modified - Basic Member Contributions (BMC) of 3.0%.
- * Tier 3 Enhanced - BMC of 3.0% plus Additional Member Contributions currently equal to 2.0%. The additional contribution rate of 2.0% can be raised to 3.0% based on a financial analysis performed by the Actuary every three years. At no time can the total contribution rate exceed 6.0%.

FINANCIAL IMPACT - SUMMARY: There is no data currently available to estimate the number of members who might benefit from the proposed legislation. For the purposes of this Fiscal Note, the estimated financial impact has been calculated on a per event basis for an average FIRE member who is either currently a Tier 3 member and could benefit from the enactment of this proposed legislation by being deemed a Tier 2 member or is currently a Tier 3 Modified or Enhanced member who could benefit by being deemed an original Tier 3 member. A breakdown of the financial impact by Tier is shown in the table below.

New Tier	Additional Present Value of Future Employer Contributions (average per event)	Estimated First Year Employer Contributions (average per event)
Tier 2	\$401,800	\$30,200
Original Tier 3	\$11,900	\$700

Enactment of this proposed legislation would increase employer contributions, where such amount would depend on the number of members affected as well as other characteristics including the age, years of service, and salary history of the member.

Based on the census data and the actuarial assumptions and methods described herein, the enactment of this proposed legislation would increase the present value of future employer contributions and estimated first year employer contributions by an amount which would depend on the Tier granted by the purchase of prior cadet service.

As there is no data currently available to estimate the number of members who may purchase cadet service, the financial impact would be recognized at the time of the event. Consequently, changes in employer contributions have been estimated assuming that the increase in present value of future contributions will be recognized as an actuarial loss and financed over a closed 15-year period (14 payments under the One-Year Lag Methodology) using level dollar payments.

CENSUS DATA: The estimates presented herein are based on the census data used in the June 30, 2022 actuarial valuation of FIRE to determine the Preliminary Fiscal Year 2024 employer contributions.

There are 2,998 active FIRE members as of June 30, 2022 who are currently in Tier 3, Tier 3 Modified, or Tier 3 Enhanced and who could potentially benefit from the proposed legislation by being deemed a Tier 2 member (i.e., age 31 and older). These active members had an average age of approximately 35.0 years, average service of approximately 6.1 years, and an average salary of approximately \$116,900.

There are 3,588 active FIRE members as of June 30, 2022 who are currently in Tier 3 Modified or Tier 3 Enhanced and could potentially benefit from the proposed legislation by being deemed an original Tier 3 member (i.e., age 28 and older). These active members had an average age of approximately 33.5 years, average service of approximately 5.3 years, and an average salary of approximately \$108,800.

ACTUARIAL ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the actuarial assumptions and methods used for the Preliminary Fiscal Year 2024 employer contributions of FIRE. Additionally, 1.2 years of cadet service was assumed based on the amount of cadet service previously purchased by members of the New York City Police Pension Fund.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the realization of the actuarial assumptions used, demographics of the impacted population, and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein.

Costs are also dependent on the actuarial methods used, and therefore different actuarial methods could produce different results. Quantifying these risks is beyond the scope of this Fiscal Note.

Not measured in this Fiscal Note are the following:

- * Future purchases of non-qualifying service by members who would be deemed Tier 2 were this bill to pass.
- * The initial additional administrative costs to implement the proposed legislation.
- * The impact of this proposed legislation on Other Postemployment Benefit costs.

STATEMENT OF ACTUARIAL OPINION: I, Marek Tyszkiewicz, am the Chief Actuary for, and independent of, the New York City Retirement Systems and Pension Funds. I am an Associate of the Society of Actuaries and a Member of the American Academy of Actuaries. I am a member of NYCERS but do not believe it impairs my objectivity and I meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. To the best of my knowledge, the results contained herein have been prepared in accordance with generally accepted actuarial principles and procedures and with the Actuarial Standards of Practice issued by the Actuarial Standards Board.

FISCAL NOTE IDENTIFICATION: This Fiscal Note 2023-64 dated May 31, 2023 was prepared by the Chief Actuary for the New York City Fire Pension Fund. This estimate is intended for use only during the 2023 Legislative Session.
