3. Any election to be a participant in the twenty-five year retirement program shall be irrevocable.

4. Each probation officer member who becomes subject to any of the provisions of this article on or after the starting date of the twenty-five year retirement program shall become a participant in the twenty-five year retirement program on the date such probation officer becomes such a probation officer member.

5. Where any participant in the twenty-five year retirement program shall cease to be employed by the city of New York as a probation officer member, such person shall cease to be such a participant and, during any period in which such person is not so employed, such person shall not be a participant in the twenty-five year retirement program and shall not be eligible for the benefits of subdivision c of this section.

6. Where any participant in the twenty-five year retirement program terminates service as a probation officer member and returns to such service as a probation officer member at a later date, such person shall again become such a participant on that date.

c. Service retirement benefits. 1. A participant in the twenty-five year retirement program:

(i) who has completed twenty-five or more years of credited service; and

(ii) who has paid, before the effective date of retirement, all additional member contributions and interest (if any) required by subdivision e of this section; and

(iii) who files with the retirement system of which such person is a member an application for service retirement setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, such person desires to be retired; and

(iv) who shall be a participant in the twenty-five year retirement program at the time so specified for such person retirement; shall be retired pursuant to the provisions of this section affording early service retirement.

2. (i) Notwithstanding any other provision of law to the contrary, and subject to the provisions of paragraph six of subdivision e of this section, the early service retirement benefit for participants in the twenty-five year retirement program who retire pursuant to paragraph one of this subdivision shall be a retirement allowance consisting of:

(A) an amount, on account of the required minimum period of service, equal to fifty-five percent of such person's final average salary; plus

(B) an amount on account of credited service, or fraction thereof, beyond such required minimum period of service equal to one and seven-tenths percent of such person's final salary;

(ii) The maximum retirement allowance computed without optional modification payable pursuant to subparagraph (i) of this paragraph shall equal that payable upon completion of thirty years of service.

d. Vesting. 1. A participant in the twenty-five year retirement program:

(i) who discontinues service as such a participant, other than by death or retirement; and

(ii) in the case of a participant who is not a New York city revised plan member, who prior to such discontinuance, completed five but less than twenty-five years of credited service or, in the case of a participant who is a New York city revised plan member, who prior to such discontinuance, completed ten but less than twenty-five years of credited service; and

(iii) who, subject to the provisions of paragraph seven of subdivision e of this section, has paid, prior to such discontinuance, all additional member contributions and interest (if any) required by subdivision e of this section; and

(iv) who does not withdraw in whole or in part such participant's accumulated member contributions pursuant to section six hundred thirteen of this article unless such participant thereafter returns to public service and repays the amounts so withdrawn, together with interest, pursuant to such section six hundred thirteen; shall be entitled to receive a deferred vested benefit as provided in this subdivision.

2. (i) Upon such discontinuance under the conditions and in compliance with the provisions of paragraph one of this subdivision, such deferred vested benefit shall vest automatically.

(ii) In the case of a participant who is not a New York city revised plan member, such vested benefit shall become payable on the earliest date on which such discontinued member could have retired for service if such discontinuance had not occurred or, in the case of a participant who is a New York city revised plan member, such vested benefit shall become payable at age sixty-three.

3. Subject to the provisions of paragraph seven of subdivision e of this section, such deferred vested benefit shall be a retirement allowance consisting of an amount equal to two and two-tenths percent of such

discontinued member's final average salary, multiplied by the number of years of credited service.

e. Additional member contributions. 1. In addition to the member contributions required by section six hundred thirteen of this article, each participant in the twenty-five year retirement program shall contribute to the retirement system of which such participant is a member (subject to the applicable provisions of subdivision d of section six hundred thirteen of this article) an additional six and three-quarters percent of such participant's compensation earned from (i) all credited service, as a participant in the twenty-five year retirement program, rendered on or after the starting date of the twenty-five year retirement program, and (ii) all credited service after such person ceases to be a participant, but before such person again becomes a participant pursuant to paragraph six of subdivision b of this section. The additional contributions required by this subdivision shall be in lieu of additional member contributions required by (i) subdivision d of section six hundred four-c of this article, as added by chapter ninety-six of the laws of nineteen hundred ninety-five, or (ii) subdivision f of section six hundred four-d of this article, and no member making contributions pursuant to this section shall be required to make contributions pursuant to either such subdivision d of section six hundred four-c of this article, or such subdivision f of section six hundred four-d of this article.

2. A participant in the twenty-five year retirement program shall contribute additional member contributions until the later of (i) the first anniversary of the starting date of the twenty-five year retirement program, or (ii) the date on which such participant completes thirty years of credited service as a probation officer member.

3. Commencing with the first full payroll period after each person becomes a participant in the twenty-five year retirement program, additional member contributions at the rate specified in paragraph one of this subdivision shall be deducted (subject to the applicable provisions of subdivision d of section six hundred thirteen of this article) from the compensation of such participant on each and every payroll of such participant for each and every payroll period for which such person is such a participant.

4. (i) Each participant in the twenty-five year retirement program shall be charged with a contribution deficiency consisting of the total amounts of additional member contributions such person is required to make pursuant to paragraphs one and two of this subdivision which are not deducted from such participant's compensation pursuant to paragraph three of this subdivision, if any, together with interest thereon, compounded annually, and computed in accordance with the provisions of subparagraphs (ii) and (iii) of this paragraph.

(ii) (A) The interest required to be paid on each such amount specified in subparagraph (i) of this paragraph shall accrue from the end of the payroll period for which such amount would have been deducted from compensation if such person had been a participant at the beginning of that payroll period and such deduction had been required for such payroll period, until such amount is paid to the retirement system.

(B) The rate of interest to be applied to each such amount during the period for which interest accrues on that amount shall be equal to the rate or rates of interest required by law to be used during that same period to credit interest on the accumulated deductions of retirement system members.

(iii) Except as otherwise provided in paragraph five of this subdivision, no interest shall be due on any unpaid additional member contributions which are not attributable to a period prior to the first full payroll period referred to in paragraph three of this subdivision.

5. (i) Should any person who, pursuant to subparagraph (ii) of paragraph ten of this subdivision, has received a refund of such person's additional member contributions including any interest paid on such contributions, again become a participant in the twenty-five year retirement program pursuant to paragraph six of subdivision b of this section, an appropriate amount shall be included in such participant's contribution deficiency (including interest thereon as calculated pursuant to subparagraph (ii) of this paragraph) for any credited service for which such person received a refund of such additional member contributions (including any amount of an unpaid loan balance deemed to have been returned to such person pursuant to this subdivision), as if such additional member contributions never had been paid.

(ii)(A) Interest on a participant's additional member contributions included in such participant's contribution deficiency pursuant to subparagraph (i) of this paragraph shall be calculated as if such additional member contributions had never been paid by such participant, and such interest shall accrue from the end of the payroll period to which an amount of such additional member contributions is attributable, until such amount is paid to the retirement system.

(B) The rate of interest to be applied to each such amount during the period for which interest accrues on that amount shall be five percent per annum, compounded annually.

6. Where a participant who is otherwise eligible for service retirement pursuant to subdivision c of this section did not, prior to the effective date of retirement, pay the entire amount of a contribution deficiency chargeable to such participant pursuant to paragraphs four and five of this subdivision, that participant, nevertheless, shall be eligible to retire pursuant to subdivision c of this section, provided, however, that such participant's service retirement benefit calculated pursuant to paragraph two of such subdivision c shall be reduced by a life annuity (calculated in accordance with the method set forth in subdivision i of section six hundred thirteen-b of this article) which is actuarially equivalent to the amount of any unpaid contribution deficiency chargeable to such member pursuant to paragraphs four and five of this subdivision.

7. Where a participant who is otherwise eligible for a vested right to a deferred benefit pursuant to subdivision d of this section did not, prior to the date of discontinuance of service, pay the entire amount of a contribution deficiency chargeable to such participant pursuant to paragraphs four and five of this subdivision, such participant nevertheless, shall be eligible for a vested right to a deferred benefit pursuant to subdivision d of this section, provided, however, that the deferred vested benefit calculated pursuant to paragraph three of such subdivision d shall be reduced by a life annuity (calculated in accordance with the method set forth in subdivision i of section six hundred thirteen-b of this article) which is actuarially equivalent to the amount of any unpaid contribution deficiency chargeable to such member pursuant to paragraphs four and five of this subdivision.

8. The head of a retirement system which includes participants in the twenty-five year retirement program in its membership may, consistent with the provisions of this subdivision, promulgate regulations for the payment of such additional member contributions, and any interest there-

on, by such participants (including the deduction of such contributions, and any interest thereon, from the participant's compensation).

9. Subject to the provisions of paragraphs six and seven of this subdivision, where a participant has not paid in full any contribution deficiency chargeable to such participant pursuant to paragraphs four and five of this subdivision, and a benefit, other than a refund of member contributions pursuant to section six hundred thirteen of this article or a refund of additional member contributions pursuant to subparagraph (ii) of paragraph ten of this subdivision, becomes payable under this article to the participant or to such participant's designated beneficiary or estate, the actuarial equivalent of any such unpaid amount shall be deducted from the benefit otherwise payable.

10. (i) Such additional member contributions (and any interest thereon) shall be paid into the contingent reserve fund of the retirement system of which the participant is a member and shall not for any purpose be deemed to be member contributions or accumulated contributions of a member under section six hundred thirteen of this article or otherwise while such member is a participant in the twenty-five year retirement program or otherwise.

(ii) Should a participant in the twenty-five year retirement program who has rendered less than fifteen years of credited service cease to hold a position as a probation officer member for any reason whatsoever, such participant's accumulated additional member contributions made pursuant to this subdivision (together with any interest thereon paid to the retirement system) may be withdrawn pursuant to procedures promulgated in regulations of the board of trustees of the retirement system, together with interest thereon at the rate of five percent per annum, compounded annually.

(iii) Notwithstanding any other provision of law to the contrary, (A) no person shall be permitted to withdraw from the retirement system any additional member contributions paid pursuant to this subdivision or any interest paid thereon, except pursuant to and in accordance with the preceding subparagraphs of this paragraph; and (B) no person, while a participant in the twenty-five year retirement program, shall be permitted to withdraw any such additional member contributions or any interest paid thereon pursuant to any of the preceding subparagraphs of this paragraph or otherwise.

11. No member of a public retirement system shall be permitted to borrow any portion of the additional member contributions (including any interest paid thereon by the participant) which are subject to this subdivision.

§ 2. Subdivision a of section 603 of the retirement and social security law, as amended by section 3 of part EE chapter 55 of the laws of 2024, is amended to read as follows:

a. CENSUS DATA: The estimates presented herein are based on preliminary census data collected as of June 30, 2023. The census data for the

probation officers assumed to elect one of the PO 25-Year Plans is summarized below.

	NYCERS
Active Members	
- Number Count:	233
- Average Age:	52.6
- Average Service:	25.4
- Average Salary:	88,200

IMPACT ON MEMBER BENEFITS AND CONTRIBUTIONS: The proposed legislation would provide the following benefits to Probation Officers who participate in the PO 25-Year Plans:

o Service retirement benefit equal to 55% of Final Average Salary (FAS) for the first 25 years of Allowable Service, plus 1.7% of FAS for each additional year of Allowable Service exceeding 25 years up to a maximum of 30 years.

o Vested benefit equal to 2.2% of FAS for each year of Credited Service.

The FAS is based on a three-year average for Tier 4 members and a five-year average for Tier 6 members.

Members of the PO 25-Year Plans would be required to pay Additional Member Contributions (AMC) equal to 6.75% of compensation for all service as a Plan participant on and after the starting date of the Plan until the later of the one-year anniversary of the effective date of the Plans or 30 years of Credited Service.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement system. In addition:

o The rates of retirement for the PO 25-Year Plans were assigned based on members' eligibility to elect or opt out of the plan. The PO 25-Year Plan will be optional for current probation officers. Future members would be mandated into the PO 25-Year Plan.

o New entrants were assumed to replace exiting members so that total payroll for probation officers increases by 3% each year. New entrant demographics were developed based on data for recent new hires and actuarial judgement. Future members would be mandated into the PO 25-Year Plan.

To determine the impact of the elective nature of the proposed legislation, a subgroup of NYCERS Probation Officers was developed based on who is assumed to benefit actuarially by comparing the net present value of future employer costs of each member's benefit under their current plan and under the applicable PO 25-Year Plan.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions, methods, and models used, demographics of the impacted population and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits).

STATEMENT OF ACTUARIAL OPINION: Marek Tyszkiewicz and Gregory Zelikovsky are members of the Society of Actuaries and the American Academy of Actuaries. We are members of NYCERS but do not believe it impairs our

objectivity and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.
